Hi Kate

I'll discuss with Ryan this morning. The picture shows an OxyTrue S, this is a basic version of the VM-2160, it does not have any alarms and is designed for 'spot - check' only.

Hi Steve,

Please see below for a further question about the VM-2160 from Merivaara, please could you advise? Thank you.

Dear Kate

Thank you for your response. I have a further supplementary question. I send here a photo on Blueprint (just because we'll be really sure it's the same pulse oximeter we're talking about) Is this the same pulse oximeter?

I have sent the same question earlier to Mr. Ryan Swaine, but failed to get any response.

Since Merivaara AB, is your dealer of your pulse oximeter, it is important for us to get all information about other similar products on the market. This allows us to meet the market in a different way.

I hope you understand our situation.

I wish you a nice weekend, and hope to hear from you soon

Good morning Johnny,

Many thanks for your website question.

My technical colleagues have advised me that the VM-2160 is the same as Blueprint OxyTrue A. However, there are small differences in terms of keypad and casing design. They also use sensors with different encoding.

Please could I ask if you have seen the OxyTrue A units in Sweden?
