Dear Sir or Madam,

In line with our ISO standards procedures, please find below notification of price list updates to the **V1000 Foetal Heart Simulator**, effective as of the 1st January 2019.

Part Number	Description	Price	<u>Delivery Charges</u>
			Delivery Type
1410000	V1000 – Foetal Heart Simulator	£???.???	£10.00 UPS Courier

This revised pricing is due to high increases in both manufacturing and transportation costs. We are actively seeking alternative lower cost manufacturing that complies with our ISO and CE certifications; and that also meets with the requirements of and changes to the Medical Device Directive. We will, of course, keep you updated should a viable alternative become available.

Should you require further information, please do not hesitate to contact a member of our team on 01535 634 542; between 09:00 and 17:30

Yours sincerely

Catrin Hollings
