Dear Sir or Madam,

**\*NEW\* VM-2160 SMARTsat Hand-Held Pulse Oximeter**  
For spot checking or constant monitoring of SpO<sub>2</sub>

The **NEW** VM-2160 SMARTsat is a robust and ergonomic hand-held pulse oximeter which provides movement rejection and has been designed with the most difficult conditions in mind.

It has the durability of a compact and lightweight hand held unit for spot-checking of SpO<sub>2</sub>, but also has the power and functionality of a stand-alone pulse oximeter.

The VM-2160 SMARTsat incorporates adjustable high and low alarms for both the SpO<sub>2</sub> and pulse rate with audible pulse tones, and is able to store and restore up to 48 hours of patient trend data, enabling the unit to also be used at the bedside for continual patient monitoring.

**Also available the 4000 Series SpO<sub>2</sub> Sensors**

- Soft silicone finger sensors
- Reusable finger clip sensors
- Reusable ear sensors
- Disposable sensors
- Extension & adapter cables

These sensors are compatible with most OEM pulse oximeters and patient monitors including:  
**Nellcor, Ohmeda, Datex, CSI, BCI, Novametrix and Nonin and more...**

Please refer to the leaflet and price list enclosed for further details and the specification on the VM-2160 SMARTsat, should you require further information on this or the 4000 Series SpO<sub>2</sub> Sensors please do not hesitate to contact our sales team on; 01535 634542.

Yours sincerely

*Catrin*
