

December 2018

Dear valued customer,

**Product Discontinuation Notification**

This letter serves as formal notification that, effective immediately, bluepoint Medical GmbH & Co.KG has discontinued the following products:

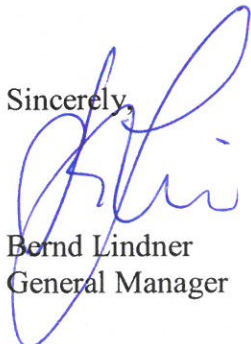

REF	Product
2020112001	OxyTrue®FC, finger oximeter, grey
1020112004-GRY	OxyTrue®SC, finger oximeter, grey
1020112004-ORA	OxyTrue®SC, finger oximeter, orange
2020112010	OxyTrue®S, Handheld oximeter with SpO <sub>2</sub> sensor SC6500
2020112011	OxyTrue®S, Handheld oximeter with SpO <sub>2</sub> sensor SF6500

We have come to the conclusion to stop the production due to low product demand over the last 12 months. Keeping the products in our portfolio is uneconomical because of dramatically increased regulatory documentation and testing requirement in connection with new product standards and future regulations (MDR).

This product discontinuation notification has no influence on your current product warranty and service life. If you have any questions regarding the discontinuation of our products, please do not hesitate to contact us.

Your cooperation and understanding on this issue is highly appreciated. We'd like to take this opportunity to thank you for your business.

Sincerely,

Bernd Lindner  
General Manager
