Dear «UPOSITION»,

Oxygen Monitoring Range including the OxiQuant S and Handi+ Oxygen Analysers

Viamed continually reviews its ranges and has recently added the **OxiQuant S** and **Handi+ Oxygen Analysers** to its offering.

These units can be used to verify oxygen concentrations in gas mixtures, delivered by: gas supply lines, oxygen concentrators, blenders etc.

The following table highlights the features and benefits of these compact and easy to use units.

OxiQuant S
 Part Number: 0111275
 £120.00

Handi+
 Part Number: 0111250
 £130.00

| Certified for spot checking oxygen percentages during patient treatment | - | ✓ |
| CE Class | I CE | II CE0123 |

Oxygen Monitoring Catalogue...

The range also includes other oxygen analysers and monitors to measure oxygen levels in a number of different situations and applications, for example in ventilator circuits, oxygen hoods/tents, incubators, anaesthesia machines and CPAP circuits. These products can also be used to test medical equipment and gas supply systems to verify that the correct level of oxygen is being supplied.

For further information on this, please visit our website or for a copy of our latest UK Oxygen Monitoring Catalogue: www.viamed.co.uk/oxygenmonitoringcatalogue

The catalogue also includes the **extended** range of Medical Oxygen Sensors providing the **widest range** and the **latest technology** to offer the best value for money when using OEM and compatible oxygen sensors.

Should you require additional information on applications and compatibility, please visit our website – www.viamed.co.uk or go straight to our cross reference www.viamed.co.uk/xref. For any further information please contact a member of our sales team on:
