Dear «UPOSITION»,

Viamed: Leading Medical Oxygen Sensor Supplier
Now including RoHS compliant Lead-Free Oxygen Sensors

Viamed have recently **extended** its range of Medical Oxygen Sensors to include **RoHS compliant Lead-free** sensors, whilst still providing the **Widest Range** and the **Latest Technology** to allow you to get the best value for money when using OEM and compatible oxygen sensors.

In light of the EU directives in relation to RoHS and the Electrical and Electronic Equipment (EEE) Directive (2011/65/EU), from 22nd July 2021 oxygen sensors will no longer be exempted and sensors will not be allowed to contain lead components from this date. Therefore, Viamed has released the RoHS compliant lead-free alternatives.

Viamed provides an oxygen sensor **quantity discount pricing** structure, there is **no minimum order value, free of charge delivery** and the **NHS credit facility** is offered on our **entire** range of oxygen sensors. I am sure you will find that this makes ordering easier and provides an extremely competitive package on quality, price, delivery and support.

Please find enclosed full details on our oxygen sensor range. Should you require further information on applications and compatibility, please visit our website – **www.viamed.co.uk** or go straight to our cross reference **www.viamed.co.uk/xref**

Also...

We continue to provide an **oxygen sensor disposal service**, as part of our Waste Management Policy. Should you wish to return any of your oxygen sensors (even if you have not purchased them from us) we will be pleased to dispose of them on your behalf in accordance with our ISO standards. Please contact us should you require information on how to send your depleted sensors to us.

Should you wish to place an order, or cannot find your oxygen sensor or equipment listed on the online cross reference, then please contact a member of our sales team on:

01535 634542 or email **sales@viamed.co.uk**

Yours sincerely

Catrin
