July 2019

Dear Sir or Madam,

Notice of Product Discontinuation – LIMITED STOCK AVAILABLE

Teledyne R-36MED Oxygen Sensor

It is with regret that as of the 30th July 2019, Viamed will no longer be able to obtain the R-36MED oxygen sensor from Teledyne, which has been manufactured since 2007. As of that date, this sensor will be available only whilst stocks last.

Although the R-36MED will no longer be available once stocks are depleted, we will continue to supply a compatible Viamed sensor, model R-49V.

On behalf of Viamed and Teledyne, we would like to thank our customers for their valued custom over the years. Should you wish to purchase the R-36MED before the stock is depleted or wish to try our alternative sensor, R-49V, then please find price list enclosed.

Should you have any queries or require further information, please do not hesitate to contact me.

Yours sincerely

Steve Nixon
Director
