August 2019

Dear Sir or Madam,

Notice of Product Discontinuation – LIMITED STOCK AVAILABLE

Viamed Apgar Timer

It is with regret that as of the 20th September 2019, we are unable to accept any further purchase orders for the above product, which we have been manufacturing since 2005.

These products are being discontinued as it is no longer feasible to produce, the main factor is due to:

- **Requirements and associated costs of standards and certifications.**

The rigour of standards has increased significantly and the costs of applying these to legacy products is not feasible due to increased costs, as well as restricted access to services, such as clinical trials and reviews.

We will continue to support the products with servicing, spare parts and accessories for a minimum of 7 years.

On behalf of Viamed I would like to thank our customers for their valued custom over the years. Should you wish to purchase before the deadline is imposed upon us, please find product information at **www.viamed.co.uk/apgartimer**. Please be aware there is limited stock available, so please act quickly should you wish to order.

Should you have any queries or require further information, please do not hesitate to contact me.

Yours sincerely

Steve Nixon
Director
