Hi Lynette

Just a quick update concerning the returns rates for your sensors:

		First sold	Total returns	Faults	No Fault	Out of Warranty
8010014	K-22D Oxygen Sensor	05/11/2012	0.10%	0.10%	0.00%	0.00%
801xxxx	For comparison – VST whole range mean values	06/01/2011	0.61%	0.22%	0.07%	0.32%

I believe that the low incident of issues is pleasing and the fault percentage is within acceptable limits; especially when taking into account the usage, application and environments that the sensors are used in.

Kind regards

Steve
