

# neonatal and paediatric products

## Pulse Oximetry Sensor Wraps

- Helps to secure many styles of flexible pulse oximetry sensors without adhesive tapes
- Holds optical components firmly to help prevent misalignment
- Universal design may be trimmed to fit neonatal foot, infant toe or paediatric finger

Posey pulse oximetry sensor wraps replace adhesive tape to secure all models of flexible pulse oximetry sensors. The wrap holds the sensor firmly to prevent misalignment of optical components whilst blocking out excessive ambient light. The soft foam tape-less fastener does not stick to the skin, allowing for easy application and removal; this also helps to preserve delicate skin. Model ref. 6554 is a universal design and may be cut to length, the model ref. 6554P (premie) has been specifically designed for neonatal applications.

**0021013 Neonatal Foot, Infant Toe or Adult/Paediatric Finger** Model: 6554  
140 mm (L) x 30 mm (W) x 5 mm (D) Box of 12

Other box sizes also available, contact Viamed for further information

## Removable I.D. Bracelets

- Temporarily replaces permanent I.D. when permanent I.D. interferes with I.V. site
- Allows "I.D." to remain on patient at all times
- Easily moved from arm to leg without disrupting skin integrity
- No adhesive "tape burns" when removed
- Soft foam with hook and loop closure. No tape!
- I.D. bracelets can be handwritten or for use with self-adhesive printed labels

**3810000 Newborn:** 140 mm (L) x 30 mm (W), box of 12 Model: 4648

**3810001 Premie:** 70 mm (L) x 30 mm (W), box of 12 Model: 4649

## I.V. Armboards

- Vinyl covered armboard
- Helps to position infant or paediatric arm during I.V. procedures
- Requires tape for attachment (tape not included)

3810010 **Infant:** up to 2 years, pack of 12 *Model: 8166*

70 mm x 40 mm

3810011 **Paediatrics:** 2 - 5 years, pack of 12 *Model: 8167*

150 mm x 60 mm

## I.V. Shield

- Helps protect the I.V. needle and insertion site from impact, abrasion, and mild scratching.
- May also be used with a Heparin lock. Translucent, ventilated plastic dome allows unobstructed observation.
- Hypo-allergenic self-adhesive tape on bottom adheres anywhere on patient's body.
- Disposable
- Fits children and adults

3810020 Pack of 12 *Model: 8141*  
80 mm length, 70 mm width

## SecureSleeve

- An external hand, wrist, elbow and knee splint
- Waterproof outer cover
- Inner lining of soft cotton adds extra comfort against the skin
- Translucent fabric allows the splint to remain in place during X-rays
- Polystyrene bead filling conforms to the limb and helps equalize pressure with comfort and stability
- Nylon loop may be pinned or clipped to patient's sleeve to prevent sliding off

3810030 **Infant:** up to 2 years, pack of 1 *Model: 8168I*  
80 mm length, 40 - 100 mm limb circumference

3810031 **Large Infant:** up to 2 years, pack of 1 *Model: 8168IL*  
110 mm length, 40 - 100 mm limb circumference

3810032 **Paediatric:** 2 - 5 years, pack of 1 *Model: 8168P*  
180 mm length, 80 - 260 mm limb circumference

3810033 **Paediatric:** 2 - 7 years, pack of 1 *Model: 8168XS*  
250 mm length, 80 - 300 mm limb circumference

3810034 **Paediatric Soft Splint:** 2 - 7 years, pack of 1 *Model: 8170P*  
200 mm length, up to 165 mm limb circumference

3810041 Attachment Clips, Metal, Pack of 12

3810042 Attachment Clips, X-Ray Translucent, Pack of 12

## Elbow Splints

- Patients requiring an external limb splint
- Wraps around the arm and secures with hook and loop
- May be pinned to clothing to hold them in position
- Stiffeners may be removed for laundering; machine washable

3810050	<b>Infant:</b> up to 2 years, one pair per pack <i>Model: 4642</i> 100 mm length
3810051	<b>Paediatric:</b> 2 - 7 years, one pair per pack <i>Model: 4643</i> 170 mm length

## Foam Trach Ties

- Recommended for use on patients with tracheostomy tubes, oxygen cannula support use
- One-piece collar helps secure most tracheostomy tubes
- Designed to help prevent removal, extubation and decannulation during severe coughing spasms

3810060	<b>Small:</b> Fits neonatal and infant necks (180 - 230 mm) <i>Model: 8197S</i> , 230 mm length, 30 mm width, pack of 12
3810061	<b>Medium:</b> Fits adolescent and adult necks (230 - 350 mm) <i>Model: 8197M</i> , 470 mm length, 30 mm width, pack of 12
3810062	<b>Large:</b> Fits adult necks (330 - 480 mm) <i>Model: 8197L</i> , 600 mm length, 30 mm width, pack of 12
3810063	<b>X-Large:</b> Fits bariatric and adult necks (410 - 610 mm) <i>Model: 8197XL</i> , 700 mm length, 30 mm width, pack of 12

## Secure Ties

- Recommended for use on patients with tracheostomy tubes
- Adjustable sizing for a comfortable fit
- Extra tie ensures that the trach tube is in place more securely

3810070	<b>Small:</b> Fits infant necks (180 - 230 mm), pack of 12 <i>Model: 8196S</i>
3810071	<b>Medium:</b> Fits paediatric to adult necks (230 - 350 mm), pack of 12 <i>Model: 8196M</i>
3810072	<b>Large:</b> Fits adult necks (330 - 480 mm), pack of 12 <i>Model: 8196L</i>
