Viamed are looking for Distributors in Your Area!

Please allow me to introduce our company; Viamed is a privately owned UK based company that specialises in the design, manufacture and distribution of medical products. Working closely with our international distribution network, our aim is to provide our customers with high quality products at affordable prices.

The reason for this email is that we are currently seeking distribution partners in your area and your company appears to be very pro-active in the medical market.

Please find attached our product portfolio which showcases the products we supply, I hope you will find this of interest. I would like to highlight we supply a range of Temperature Probes which I believe will fit well within your range, see below for further details.

The 400-AC Autoclavable Temperature Probes range from Viamed

The **400-AC** complete series of **autoclavable** temperature probes for the accurate measurement of body surface & core temperatures in neonates, paediatrics and adults, are available from Viamed.

Not only are the **400-AC** temperature probes compatible for use with most leading temperature monitoring manufacturers including, **YSI 400, Hewlett Packard / Philips, Siemens and Dräger**, but you will also benefit from:

- **A wide choice** – Adult, Paediatric and Neonatal sizes available
- **Minimal risk of cross infection** – the **400-AC** Series are autoclavable at 134°C
- **Minimal risk of allergic reactions** – the **400-AC** Series are latex-free and biocompatible
- **Accurate placement of the sensor** – the **400-AC** Series are extremely robust yet flexible

Please find attached a leaflet detailing the range of autoclavable temperature probes currently available through Viamed.

Should you be unable to find the product you require or would like further information, please do not hesitate to contact us or visit our cross reference www.viamed.co.uk/probesxref.

Kind regards
