Going by Dusan's email I assume that revised artwork for the R22S hasn't been supplied yet. If not already done so, then the easiest solution will be for Catrin to supply.

#3092 Oxygen sensor 22D - VST

#3001 Oxygen sensor 22S - Vandagraph

Dear Dusan

Please find attached a copy of the updated labelling for your oxygen sensor.

If it is OK, can you please confirm approval by emailing back to me a signed and dated copy?

Good afternoon Dusan

Please see attached some suggestions for the labelling. Can you please let me know if any of them are suitable for you.

Please ignore 1b, it is the same as 1a.

Also, can you please verify that the telephone number is correct.
