Ryan, please follow up and if appropriate send leaflet and prices for Teledyne automotive sensors. Or do you want the office to follow up if you busy with Arab Health?

Where is he currently buying them from?

I have had a quick look and it doesnt look as though we are selling into the Netherlands. So, it is curious where he is getting them from and at the same time would be good to have distribution in The Netherlands.

Sales lead passed on to us from Teledyne as we are Teledynes representative.
