Part Number: 1114015

Large

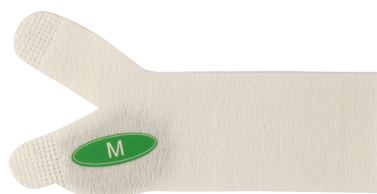

32 - 38 cm occipital - frontal circumference

Part Number: 1114016

Medium

26 - 32 cm occipital - frontal circumference

Part Number: 1114017

Small

20 - 26 cm occipital - frontal circumference

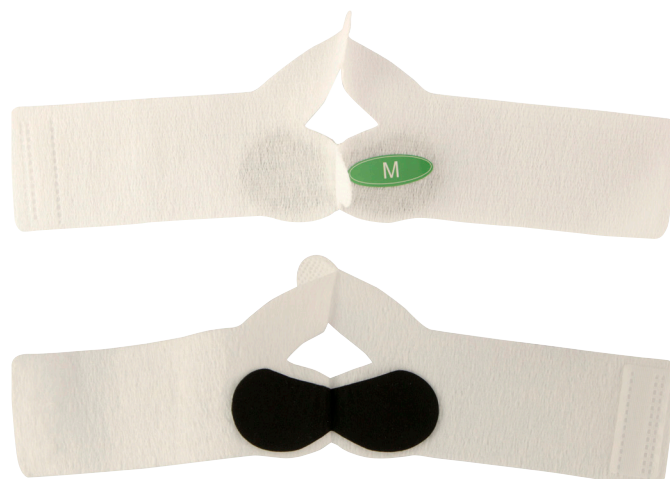

The NeoMask has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at the rear and the front positioning tabs can be easily adjusted to prevent unwanted movement and allow a comfortable and secure fit.

The large eye-protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband; however, allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

All phototherapy eye masks from Viamed are supplied in individually sealed packs of 20
