Mailing Group

**Notice of Product Discontinuation**  
**LIMITED STOCK AVAILABLE**

**Teledyne Analytical Instruments AX300  
Oxygen Analyser and MX300 Oxygen Monitor**

It is with regret that we are unable to obtain new stock of the above products, which Teledyne has been manufacturing since 2003. We will continue to supply these products whilst our stocks last.

These products are being discontinued as it is no longer feasible to produce, the main factor is due to:

- **Requirements and associated costs of standards and certifications.**

The rigour of standards has increased significantly and the costs of applying these to legacy products is not feasible due to increased costs, as well as restricted access to services, such as clinical trials and reviews.

On behalf of Viamed and Teledyne I would like to thank our customers for their valued custom over the years. Should you wish to purchase before stocks are depleted, then please find product information below. Please be aware there is only a very limited stock available, but we do have a range of alternatives which may be of interest to you.

[Teledyne AX300 and MX300 Oxygen Monitors Leaflet](#)

Including the MySign O Oxygen Monitor - High performance hand-held monitor  
for clinical, emergency and home ventilation environments

[MySign O Oxygen Monitor Leaflet](#)

And the Maxtec MAXO2ME - low-maintenance oxygen monitor with smart alarms auto-set at 3% +/- current setting.
