To: ViaMed Ltd.

The Quality Management System at Teledyne Analytical Instruments (TAI) includes a supplier rating process. This process supports the concept that suppliers are an integral extension of the TAI Quality System. Our suppliers impact the overall quality and performance for our current and potential customers.

Our rating process takes into account two performance measurements, on time delivery and quality, and is used to establish a rating classification for each supplier actively supplying goods to TAI. This classification process allows us to review the supplier's current performance and work with vendors to focus on those areas that may need improvement. We believe this information will help both of our companies become better suppliers to our customers.

This letter is to inform you that ViaMed Ltd. is one of our top suppliers for the fourth quarter of 2020. We expect all our suppliers to be in the excellent category but if you fall below this rating we would like your input as to what can be done to help you improve.

Total Deliveries Considered in the Period: **2**

Total Pieces Considered in the Period: **300**

Area Measured	Potential Score	Earned Score
Quality	100%	100%
Delivery	100%	100%
Overall Rating	100%	100%

Based upon our data ViaMed Ltd. has earned a supplier rating classification of: **Excellent.**

98%-100%	Excellent
95%-97%	Good
91%-94%	Fair

Below 91% Unacceptable

Thank you for your interest and support. [If you disagree with our data, please notify us of any discrepancies via email.](#)

Respectfully,

Joe Gonzalez
