Dear Sir or Madam,

## Introducing the ST-BL Neonatal Flow Sensor

**For flow measurement of respiratory gas flow delivered in Dräger neonatal ventilators**

The ST-BL flow sensor is a disposable cost-effective neonatal hot wire anemometric flow sensor with fixed insert, for measuring gas flow in Dräger neonatal ventilators.

The ST-BL flow sensor is a disposable compatible to the reusable Dräger neonatal flow sensor ISO 15, REF 8411130.

**4310006** ST-BL Disposable Neonatal Flow Sensor with fixed insert

Please find enclosed full details on our flowsensor range including price list overleaf.

Viamed also has a wide range of **oxygen sensors** and **flow sensors** compatible with most of the commonly used ventilators.

Should you require further information please contact a member of our sales team on: 01535 634542 or email [flowsensors@viamed.co.uk](mailto:flowsensors@viamed.co.uk)

Yours faithfully

*Catrin*
