22 October 2021

Dear Sir or Madam,

Introducing the ST-BL Neonatal Flow Sensor

For flow measurement of respiratory gas flow delivered in Dräger neonatal ventilators

The ST-BL flow sensor is a disposable cost-effective neonatal hot wire anemometric flow sensor with fixed insert, for measuring gas flow in Dräger neonatal ventilators.

The ST-BL flow sensor is a disposable compatible to the reusable Dräger neonatal flow sensor ISO 15, REF 8411130.

4310006	ST-BL Disposable Neonatal Flow Sensor with fixed insert
----------------	---

Please find enclosed full details on our flowsensor range including price list overleaf.

Viamed also has a wide range of **oxygen sensors** and **flow sensors** compatible with most of the commonly used ventilators.

Should you require further information please contact a member of our sales team on: 01535 634542 or email flowsensors@viamed.co.uk

Yours faithfully

Catrin
