Hi Steve,

Thank you for the clarification. I can send the 2 sensors that you originally were ordered the Max48 qty 2. I will issue an RMA to bring back the 2 Max 24 sent in error.

What is the best ship-to address?

Hi Osvaldo

The MAX-250Es are OK.

The problem is with the other line, we ordered 2 x MAX-48 sensors (purchase order PVM1805). The delivery paperwork states MAX-48s but apparently we have received MAX-24 sensors (GA40604004, GA40604005).

Hello Steve,

I am sorry to hear you experienced issues with your order.

For clarification, you received the wrong parts? I see the order has Max-48, Max-250E

Please advice.
