Dear «UPOSITION»

**AlcoTrue M Breathalyser provides rapid and accurate determination of breath alcohol concentration**

The AlcoTrue M is a professional handheld medical breathalyser for accurate determination of breath alcohol concentration closely matches evidential devices.

The AlcoTrue M is designed for diagnostic use and it displays measurement of breath alcohol when there are concerns regarding blood alcohol level or alcohol consumption.

The main benefits include:

- **Fast warm-up time** < 6 seconds; allowing for quick and easy diagnosis.
- **Rapid, precise and reliable clinically accurate measurements** even at sub-zero ambient conditions; can be used on-site or in the field.
- **Easy to read display.**
- This high spec product provides up to five measurement modes, ideal for any situation;
  - **Active mode** – To determine the precise alcohol level in the end-expiratory breath of the person to be tested after achieving a minimal breath volume from 1.2 L. It is ensured that only deep lung breath (alveolar breath) is analysed.
  - **Fast mode** – Intended for persons suffering from COPD, Asthma or reduced lung capacity, whom might not be able to provide the standard minimum sample volume.
  - **Passive mode\*** - To obtain a precise measurement, the sample uptake must be triggered when the person is breathing out. The measurement mode is to determine the quantitative value of alcohol concentration.
  - **Scan mode\*** – Qualitative testing of the ambient air alcohol content, qualitative determination of alcohol content in exhaled air of a person who is not able to provide a breath sample (e.g. unconscious person), qualitative test of “non-alcoholic” drinks for alcohol content.
  - **Mouth alcohol mode\*** - Consists of two tests with a determined waiting period between first and second measurement.

\* Measurement modes only available if activated.

- Also available with a portable printing system.

Please find enclosed further information regarding the AlcoTrue M.

Should you no longer wish to receive marketing material via post, sign-up to our email mailing list at [www.viamed.co.uk/sign-up](http://www.viamed.co.uk/sign-up)

Alternatively, the range also contains the **AlcoTrue P** which is a professional, non-medical breathalyser and is priced at **£485.00** ex VAT. It looks similar to the AlcoTrue M and is available with the same accessories and kits, but is not covered by the medical device certifications and approvals.

There is also a smaller alternative breathalyser called the AlcoTrue C. Go to [www.viamed.co.uk/alcotrue-c](http://www.viamed.co.uk/alcotrue-c) for more information.

Should you wish to discuss any of these fantastic breathalysers in further detail please do not hesitate to contact a member of our sales team on 01535 634542 or by emailing [alcotrue@viamed.co.uk](mailto:alcotrue@viamed.co.uk).

Yours faithfully

*Catrin*
