TOF^{3D} neuromuscular transmission monitor accessories

TOF^{3D} Neuromuscular
Transmission Monitor
Part No.: 2510091

REF 5750108 Part No. 2510102 Description Main Patient Cable*
Overall assembly length: 262.5 cm, cable length 250cm

REF 5750106 Part No. 2510105 Description Skin Temperature Sensor
Overall length: 33.0 cm, actual cable length: 27.0 cm, attaches to the hand adapter.

REF 5750100 Part No. 2520110 Description Hand Adapter

REF 5750101 Part No. 2520111 Description Thumb Adapters (Box of 50)

REF 5750105 Part No. 2510104 Description Acceleration (AMG) Transducer*
Overall length: 34.5 cm, actual cable length: 30.0 cm.

REF 5750107 Part No. 2510103 Description Stimulation Cable with pinch clamps*
Overall length: 33.5 cm, each flying lead: 29.5 cm.

REF 5750102 Part No. 2520112 Description Eye Adapters (Pack of 50)

Standard Paediatric Electrodes

*Included standard accessories

TOF^{3D} neuromuscular transmission monitor accessories

TOF^{3D} Neuromuscular
Transmission Monitor
Part No.: 2510091

REF	Part No.	Description
5750110	2520113	Pole Mount Premium Variant A For use with vertical/horizontal poles and standard medial rail. Fits poles up to 4.0 cm diameter or rails up to 5.3 cm.
5750110	2520114	Pole Mount Standard Variant B For use with vertical/horizontal poles.
5750116	2530120	Sealing Covers (Pack of 3) For Main Patient Cable. One Sealing Cover included with 2510091.
5750109	2530121	Sealing Covers (Pack of 3) For Data Interface Socket. One Sealing Cover included with 2510091.

TOF^{3D} Neuromuscular Transmission Monitor Accessories:

Mounts: The monitor includes six mounting brackets (Variant A) and three mounting brackets (Variant B) for attaching to poles or rails. Variant A is designed for vertical or horizontal poles and standard medial rail, fitting poles up to 4.0 cm diameter or rails up to 5.3 cm. Variant B is for vertical or horizontal poles.

Sealing Covers: Sealing covers are provided for the main patient cable and the data interface socket. One sealing cover is included with the monitor (Part No. 2510091).

Diagram Labels:

- Acceleration (AMG) Transducer:** Located on the main patient cable, shown as a black cylindrical component with three circular ports.
- Stimulation Cable:** A cable with a circular connector, shown with an arrow pointing to the left.
- Skin Temperature Sensor:** A cable with a circular connector, shown with an arrow pointing to the right.
- Patient Cable:** A large cable with a rectangular connector, shown with an arrow pointing to the left.
- Data Interface Socket:** A small black rectangular component, shown with an arrow pointing to the right.
- Unit:** The TOF3D Neuromuscular Transmission Monitor unit, shown with a central display and keypad.

Mounting Instructions: When affixing mounts to the unit, push upwards to 'click' securely into position.
