November 2021

Dear «UPOSITION»,

The Maxtec Oxygen Monitor Range

I would like to introduce Viamed's offering of **Maxtec Oxygen Monitors and Analysers**, the enclosed leaflet provides further details.

The Maxtec range includes oxygen analysers and monitors which measure oxygen levels in a number of different situations and applications, for example in ventilator circuits, anaesthesia workstations, neonatal incubators and CPAP circuits.

These products can also be used to test medical equipment and gas supply systems to verify that the correct level of oxygen is being supplied.

Should you require further information on applications and compatibility, please visit our website – www.viamed.co.uk

Also...

We are proud to continue to provide an **oxygen sensor disposal service**, as part of our Waste Management Policy. Should you wish to return any of your oxygen sensors (even if you have not purchased them from us) we will be pleased to dispose of them on your behalf in accordance with our ISO standards. Please contact us should you require information on how to send your depleted sensors to us.

Should you wish to place an order, or cannot find your oxygen sensor or equipment listed on the online cross reference, then please contact a member of our sales team on:

01535 634542

(Between the hours of 09:00 and 17:30)

Yours sincerely

Catrin
