Added by Steve Nixon sent to Derek Lamb INFORMATION ONLY ISSUE DO NOT ADD NOTES! They do the job perfectly well Rating 5 stars I was getting a bit nervous because my cells were needing to be replaced and the voltage on one was starting to drop so it was worrying that they were out of stock but I got a message saying they were back on stock, ordered the 3 I needed and they have been fine on the couple of dives I have done so far. I've used them over a number of years and I never had any issues so I am happy with them.
