Hi Peter,

Please find attached the renewed MIA call-off agreement to extend the trial of the TOF 3D Neuromuscular transmission monitor in ICU.

This covers the 3 loan items; i.e. the device, the pole clamp and the hand adapter; the title to the single-use accessories was already transferred to the Trust on the first set of documentation.

I will follow up with the end-users in due course to see whether a decision has been made or is close.

The last contact that I saw was from Dr Dhokia stating that they need more time to get familiar with it and from Tina Wright agreeing but commenting that the device is more geared towards intra/post op patients. Have you heard anything since, such as whether Dr Dhokia is advising on how the device can be best utilised with the Trusts ITU patients?

Regards,

Steve Hardaker
Technical Support Manager
Viamed Ltd.

Please note: Viamed is enacting a coronavirus contingency plan to allow sales and admin staff to work from home, and I am now working remotely. Telephone calls to the main office will be answered remotely, but please continue to use email where possible.
