Hi,

I wonder if you could help me.

We are looking at purchasing some new nerve stimulators and I received some information on your product.

Would it be possible to have a look at one or 2 so that the anaesthetists are able to have a play with them before we purchase any. I have shown the information you sent through to me to our Clinical lead and he is quite keen to have a look at it.

I received the information form Catrin Hollings in Marketing if that helps in any way to help with this enquiry.

Thank you in advance.

Regards
