

Internal Audit Check list			
Returns, Repairs & Service			
Created:	17/May 1995	Audit No 11	VOP 09
Revised:	07 July 2022		Page 1 of 8
Audit Date	7-7-22	Auditor	Helen Lamb

Company / ISO Section	Criteria of ISO Section	Auditor Comments / Issues
VST Ltd ISO9001:2015 8.2.1	Customer communication Communication with customers shall include: a) providing information relating to products and services; b) handling enquiries, contracts or orders, including changes; c) obtaining customer feedback relating to products and services, including customer complaints; d) handling or controlling customer property; e) establishing specific requirements for contingency actions, when relevant.	/
VST Ltd ISO9001:2015 8.5.3	Property belonging to customers or external providers The organization shall exercise care with property belonging to customers or external providers while it is under the organization's control or being used by the organization. The organization shall identify, verify, protect and safeguard customers' or external providers' property provided for use or incorporation into the products and services. When the property of a customer or external provider is lost, damaged or otherwise found to be unsuitable for use, the organization shall report this to the customer or external provider and retain documented information on what has occurred. NOTE A customer's or external provider's property can include materials, components, tools and equipment, premises, intellectual property and personal data.	/
ViaMed Ltd ISO13485:2016 7.2.2	Review of requirements related to product The organization shall review the requirements related to product. This review shall be conducted prior to the organization's commitment to supply product to the customer (e.g. submission of tenders, acceptance of contracts or orders, acceptance of changes to contracts or orders) and shall ensure that: a) product requirements are defined and documented; b) contract or order requirements differing from those previously expressed are resolved; c) applicable regulatory requirements are met; d) any user training identified in accordance with 7.2.1 is available or planned to be available; e) the organization has the ability to meet the defined requirements. Records of the results of the review and actions arising from the review shall be maintained (see 4.2.5). When the customer provides no documented statement of requirement, the customer requirements shall be confirmed by the	Management Review Doc index Procedures Training Records

	<p>organization before acceptance.</p> <p>When product requirements are changed, the organization shall ensure that relevant documents are amended and that relevant personnel are made aware of the changed requirements.</p>	
<p>Viamed Ltd ISO13485:2016 7.5.10</p>	<p>Customer property</p> <p>The organization shall identify, verify, protect, and safeguard customer property provided for use or incorporation into the product while it is under the organization's control or being used by the organization. If any customer property is lost, damaged or otherwise found to be unsuitable for use, the organization shall report this to the customer and maintain records (see 4.2.5).</p>	<p>Procedures Doc index Barcodes</p>
<p>Viamed Ltd ISO13485:2016 7.5.4</p>	<p>Servicing activities</p> <p>If servicing of the medical device is a specified requirement, the organization shall document servicing procedures, reference materials, and reference measurements, as necessary, for performing servicing activities and verifying that product requirements are met.</p> <p>The organization shall analyse records of servicing activities carried out by the organization or its supplier:</p> <p>a) to determine if the information is to be handled as a complaint;</p> <p>b) as appropriate, for input to the improvement process.</p> <p>Records of servicing activities carried out by the organization or its supplier shall be maintained (see 4.2.5).</p>	<p>Doc index tech files Procedures QA system</p>
<p>Viamed Ltd ISO13485:2016 7.5.6</p>	<p>Validation of processes for production and service provision</p> <p>The organization shall validate any processes for production and service provision where the resulting output cannot be or is not verified by subsequent monitoring or measurement and, as a consequence, deficiencies become apparent only after the product is in use or the service has been delivered.</p> <p>Validation shall demonstrate the ability of these processes to achieve planned results consistently.</p> <p>The organization shall document procedures for validation of processes including:</p> <p>a) defined criteria for review and approval of the processes;</p> <p>b) equipment qualification and qualification of personnel;</p> <p>c) use of specific methods, procedures and acceptance criteria;</p> <p>d) as appropriate, statistical techniques with rationale for sample sizes;</p> <p>e) requirements for records (see 4.2.5);</p> <p>f) revalidation, including criteria for revalidation;</p> <p>g) approval of changes to the processes.</p> <p>The organization shall document procedures for the validation of the application of computer software used in production and service provision. Such software applications shall be validated prior to initial use and, as appropriate, after changes to such software or its application. The specific approach and activities associated with software validation and revalidation shall be proportionate to the risk associated with the use of the software including the effect on the ability of the product to conform</p>	<p>Doc index Barcode System Procedures Management Review Calibration index Training Record</p>

	<p>to specifications.</p> <p>Records of the results and conclusion of validation and necessary actions from the validation shall be maintained (see 4.2.4 and 4.2.5).</p>	
<p>Viamed Ltd</p> <p>ISO13485:2016 7.5.8</p>	<p>Identification</p> <p>The organization shall document procedures for product identification and identify product by suitable means throughout product realization.</p> <p>The organization shall identify product status with respect to monitoring and measurement requirements throughout product realization. Identification of product status shall be maintained throughout production, storage, installation and servicing of product to ensure that only product that has passed the required inspections and tests or released under an authorized concession is dispatched, used or installed.</p> <p>If required by applicable regulatory requirements, the organization shall document a system to assign unique device identification to the medical device.</p> <p>The organization shall document procedures to ensure that medical devices returned to the organization are identified and distinguished from conforming product.</p>	<p>Bar codes</p> <p>calibration index</p> <p>tech files</p> <p>procedures</p> <p>QA system</p>
<p>Viamed Ltd</p> <p>ISO13485:2016 8.2.4</p>	<p>Internal audit</p> <p>The organization shall conduct internal audits at planned intervals to determine whether the quality management system:</p> <p>a) conforms to planned and documented arrangements, requirements of this International Standard, quality management system requirements established by the organization, and applicable regulatory requirements;</p> <p>b) is effectively implemented and maintained.</p> <p>The organization shall document a procedure to describe the responsibilities and requirements for planning and conducting audits and recording and reporting audit results.</p> <p>An audit program shall be planned, taking into consideration the status and importance of the processes and area to be audited, as well as the results of previous audits. The audit criteria, scope, interval and methods shall be defined and recorded (see 4.2.5).</p> <p>The selection of auditors and conduct of audits shall ensure objectivity and impartiality of the audit process. Auditors shall not audit their own work.</p> <p>Records of the audits and their results, including identification of the processes and areas audited and the conclusions, shall be maintained (see 4.2.5).</p> <p>The management responsible for the area being audited shall ensure that any necessary corrections and corrective actions are taken without undue delay to eliminate detected nonconformities and their causes. Follow-up activities shall include the verification of the actions taken and the reporting of verification results.</p> <p>NOTE Further information can be found in ISO 19011.</p>	<p>Doc index</p> <p>Audit calendar</p> <p>Route Maps</p> <p>Management Review</p> <p>Rules + tasks</p>
Viamed Ltd	Rework	

ISO13485:201 6.8.3.4	<p>The organization shall perform rework in accordance with documented procedures that takes into account the potential adverse effect of the rework on the product. These procedures shall undergo the same review and approval as the original procedure.</p> <p>After the completion of rework, product shall be verified to ensure that it meets applicable acceptance criteria and regulatory requirements. Records of rework shall be maintained (see 4.2.5).</p>	<p>Issues Procedures QA system Doc index</p>
