

Gels Pads & Positioners

Designed to simulate human adipose tissue.

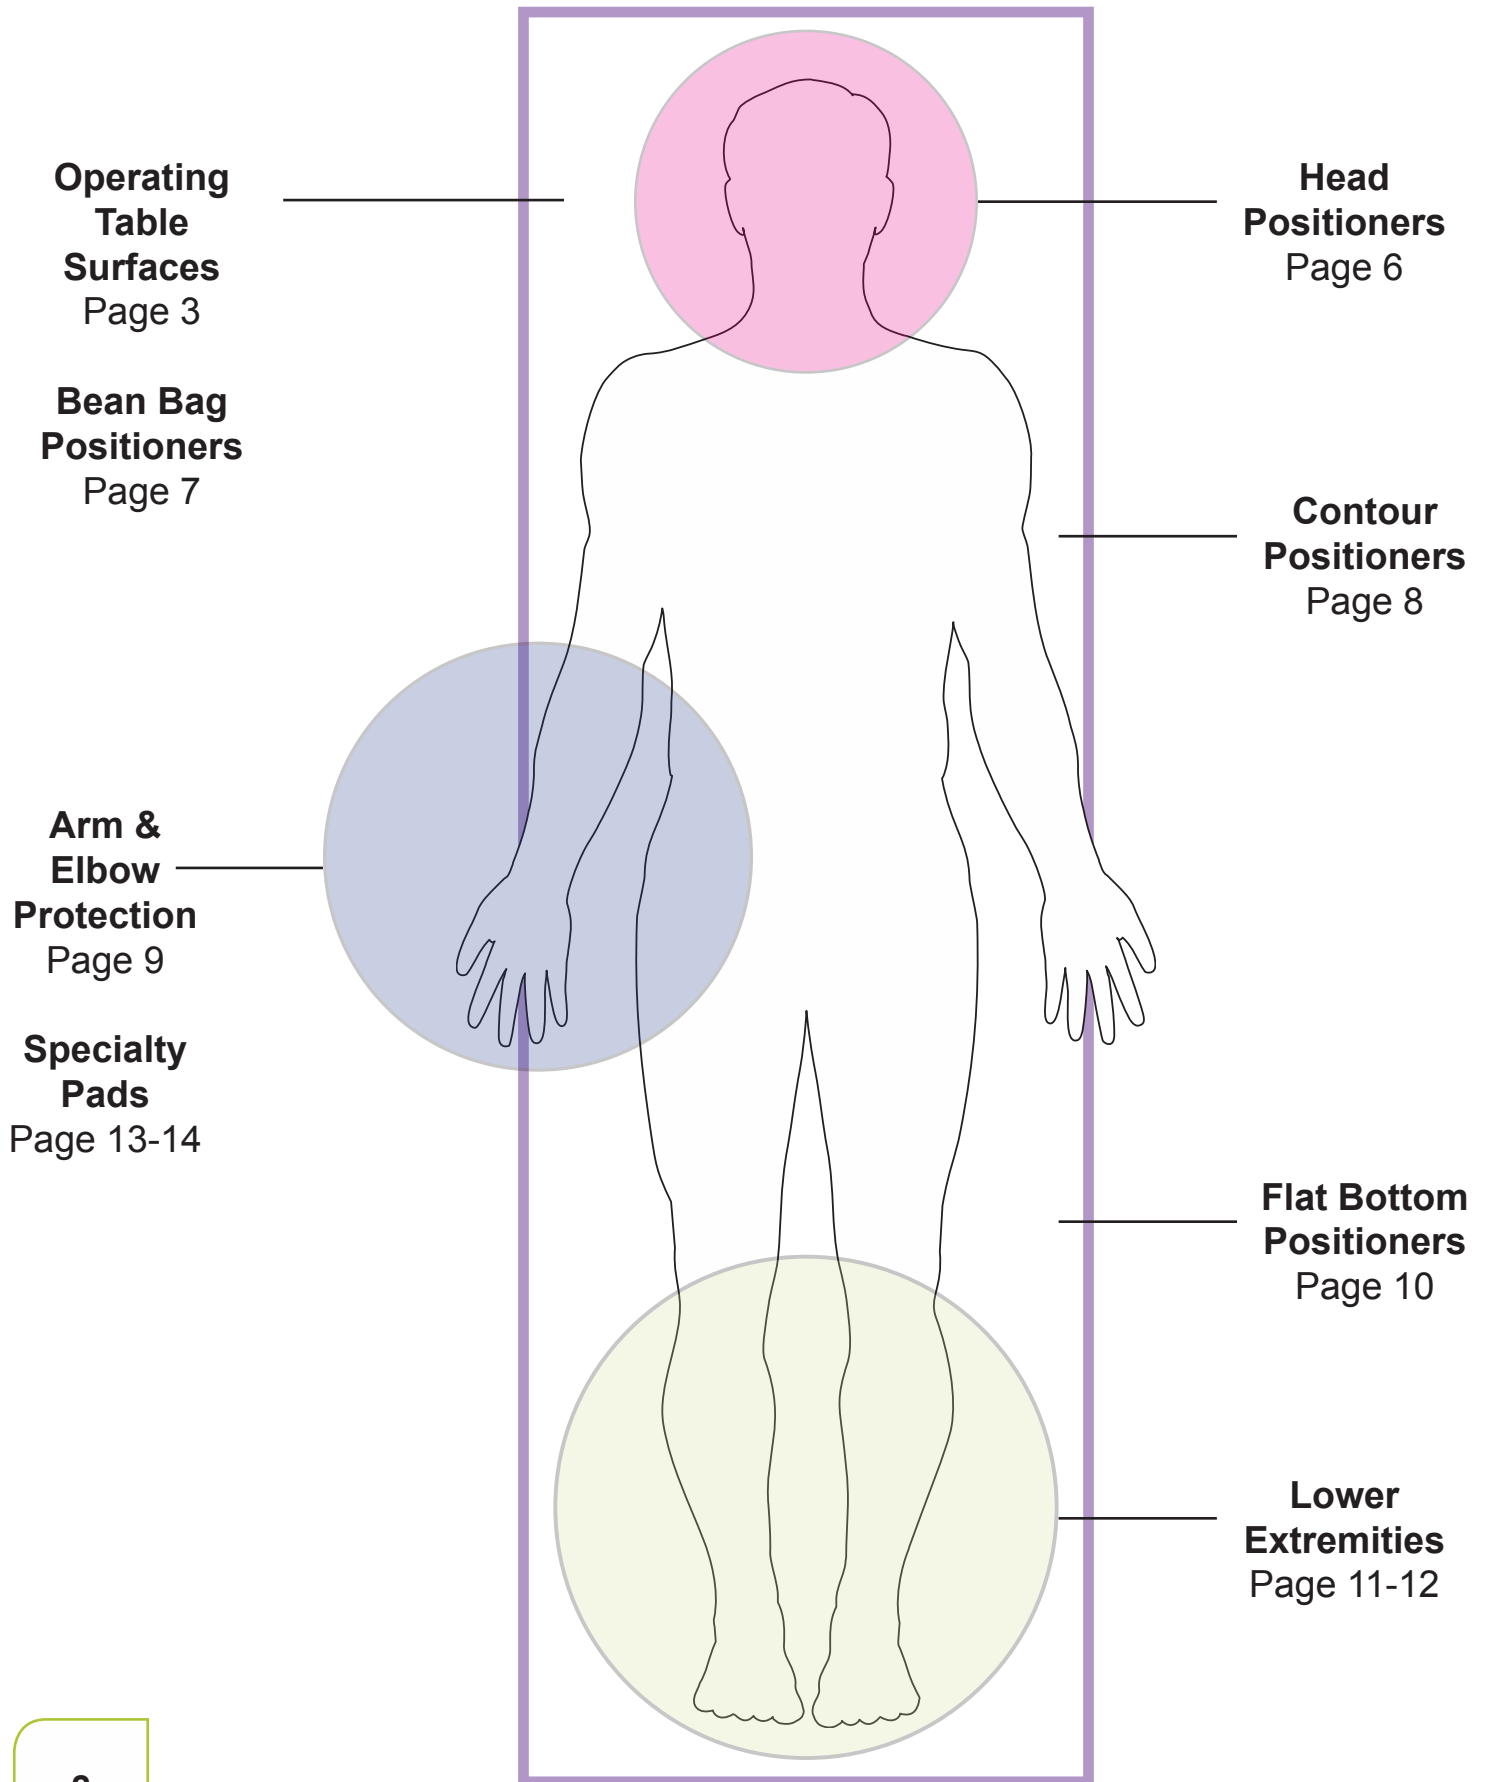

- Arm & Elbow Positioners.
- Contoured Positioners.
- Flat Bottom Positioners.
- Head Positioners.
- Lower Extremities.
- Operating Table Surfaces.
- Speciality Pads.

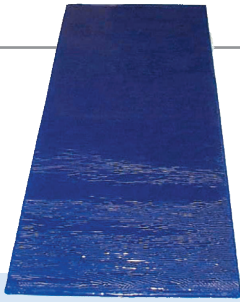

The dry viscoelastic polymer gel pads and positioners are intended to help provide comfort for the patient while also offering extra guarded protection from pressure sores. During surgical procedures of any significant time (1½ hours or greater) a patient is at risk of decubitae. With the application of a Pressure Management Pad the occurrence of these ulcers are greatly reduced. This is due to the unique properties of these products; it is not a liquid but a solid material that is extremely unlikely to bottom out whilst evening out patient weight distribution.

The Pressure Management range includes products suitable for arm and elbow protection, head positioning, lower extremities and operating table surfaces, plus many more. These products are sealed in a “skin” that is designed to reduce sheer and friction and are reusable, X-Ray translucent and latex-free.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Ut vitae erat quis elit semper porttitor. Praesent ultricies pulvinar massa vel varius. Cras auctor mollis tincidunt. Sed aliquet, erat euismod accumsan gravida, massa risus convallis risus, eget sollicitudin lacus velit in velit. Ut laoreet lacus egestas sapien cursus pharetra.

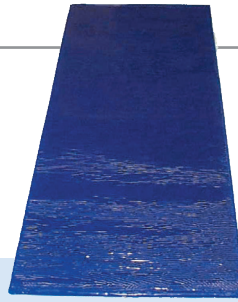

2710100
BD2100

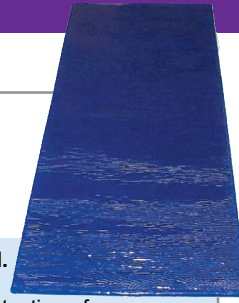

¾ Gel table pad.
20" (W) x 46" (L) x ½" (H).
Designed for surgical procedures tables, body sections of operating tables, and other surfaces. When foot sections are dropped off tables, this pad will cover head and body regions.

2710101
BD2110

Full gel table pad.
20" (W) x 72" (L) x ½" (H).
Designed for full-length protection of any surgical surface as well as ideal size for recovery. Has also been sold as a back saver for surgeons to stand on during longer procedures.

2710102
BD2110-25

Lightweight table gel pad.
20" (W) x 72" (L) x ¼" (H).
Designed for full-length protection of any surgical surface as well as an ideal surface for recovery. It is a thinner pad therefore making it lighter and more mobile. It should be used for shorter procedures that do not require specialized positions. Has also been sold as a back saver for surgeons to stand on during longer procedures.

2710103
BD2130

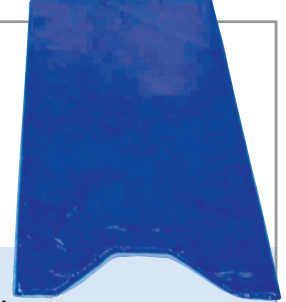

3 piece table gel pad set with 2 cutouts.
Set for head, body and foot section of an operating table. See 2710104, 2710105, 2710106 for separate sections.

2710104
BD2130-1

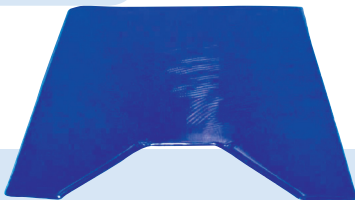

Gel Head Section Pad.
20" (W) x 10" (L) x ½" (H).
Fits head sections of most operating tables. Its dimensions also lend it to many other applications such as rolling propping as well as hand table extensions.

2710105
BD2130-2

Gel mid section pad.
20" (W) x 40" (L) x ½" (H).
Designed for the body section of most operating tables. Can also accommodate special procedure tables. It has a perineal cut-out.

2710106
BD2130-3

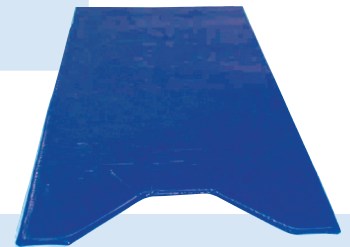

Gel foot section pad.
20" (W) x 20" (L) x ½" (H).
Accommodates the foot section of most operating tables. Has a G/U cutout.

2710107
BD2135

3 Piece table gel set with square foot pad.
Head section 20" (W) x 9" (L) x ½" (H).
Mid section with perineal cut-out 20" (W) x 40" (L) x ½" (H).
Square foot section 20" (W) x 20" (L) x ½" (H).
Perfect for use with Skytron tables.

2710108
BD2120

¾ Full table gel pad with perineal cutout.
20" (W) x 46" (L) x ½" (H).
Similar to 2710100 but with a perineal cutout. Can be used for lithotomy procedures in the operating theatre and cysto rooms.

2710109
BD2140-25

Gel table/hip pad. - lightweight.
20" (W) x 20" (L) x ¼" (H).

2710110
BD2630

Doctor/nurse gel seat cushion.
16" (W) x 16" (L) x ½" (H).
Designed for comfort during longer procedures when the surgeon, anaesthetist or nurse is sitting down.

2710111
BD2640

Wheelchair gel pad.
18" (W) x 16" (L) x 5/8" (H).
Can be used with or without existing pads.

Operating Table Surfaces

2710112
BD2140

Gel table/hip pad.

20" (W) x 20" (L) x 1/2" (H).
Square pad that fits the foot section of most operating tables. Due to its dimensions it is versatile. It can be rolled as a bolster if desired.

2710113
BD3500

Beanbag vac pac gel overlay.

30" (W) x 40" (L) x 1/4" (H).
With cutout for shoulder.

2710114
BD2000-12

Amsco/Steris 1080/2080 2 1/4" tri-level combo pad with gel operating theatre table pad.

The pad has a base of supportive foam, a layer of doughy soft visco foam for cradling, topped by Blue Diamond Gel and covered in a 4 way soft stretch material to allow patients to benefit from the configuration. The pad has waterfall edges and sealed perineal cutout, as well as a Velcro kit.

27101015
BD2000-12-H

Head section for Amsco/Steris 1080/2080 2 1/4" tri-level combo pad with gel operating theatre table pad.

2710116
BD2000-12-B

Body section for Amsco/Steris 1080/2080 2 1/4" tri-level combo pad with gel operating theatre table pad.

2710117
BD2000-12-F

Foot section for Amsco/Steris 1080/2080 2 1/4" tri-level combo pad with gel operating theatre table pad.

2710118
BD2000-12-3

Amsco/Steris 1080/2080 3 1/4" tri-level combo pad with gel operating theatre table pad.

2710119
BD2000-33

Amsco/Steris 3080/3085 2 1/4" tri-level combo pad with gel operating theatre table pad.

2710120
BD2000-12-BFC

Amsco/Steris 1080/2080 2 1/4" tri-level combo pad with gel operating theatre table pad.
Boston fire code version.

2710121
BD2000-71M

Midmark 7100 2 1/4" tri-level combo pad with gel operating theatre table pad.

2710122
BD2000-31S

Skytron 3100 2 1/4" tri-level combo pad with gel operating theatre table pad.

2710123
BD2000-35S

Skytron 3500 2 1/4" tri-level combo pad with gel operating theatre table pad.

2710124
BD2000-65S

Skytron 5000/6001/6500 2¼" tri-level combo pad with gel operating theatre table pad.

2710125
BD2000-49

Shampaine 4900 2¼" tri-level combo pad with gel operating theatre table pad.

2710126
BD2000-S600

Shampaine 300/600/900 2¼" tri-level combo pad with gel operating theatre table pad.

2710127
BD2005

Tri-level (2¼" height) combo pad with gel for standard arm board.

6" (W) x 26" (L) x 2¼" (H).

The pad has a base of supportive foam, a layer of doughy soft visco foam for cradling, topped by Blue Diamond Gel and covered in a 4 way soft stretch material to allow patients to benefit from the configuration. The pad has waterfall edges.

2710128
BD2005-3 V.1

Tri-level (3¼" height) combo pad with gel for standard arm board.

6" (W) x 26" (L) x 3¼" (H).

2710129
BD2010

Tri-level combo series contoured arm board with gel. (2" height).

6" (W) x 26" (L) x 2" (H).

Contoured arm board with a layer of Blue Diamond Gel below the 4-way stretch sheerguard covering. The contoured dish design helps prevent roll overs of the patient's arm.

2710130
BD2010-3

Tri-level combo series contoured arm board with gel. (3" height).

6" (W) x 26" (L) x 3" (H).

2710131
BD2010-4

Tri-level combo series contoured arm board with gel. (4" height).

6" (W) x 26" (L) x 4" (H).

2710132
BD2750

Paediatric gel positioning set.

Consists of:

- 1 x Blue Diamond gel body pad, 20" (W) x 9" (L) x 2" (H).
- 1 x Blue Diamond horseshoe pad.
- 1 x Cylinder 1½" (H) x 12" (L).
- 1 x Cylinder 2" (H) x 12" (L).

2710133
BD2000-Custom

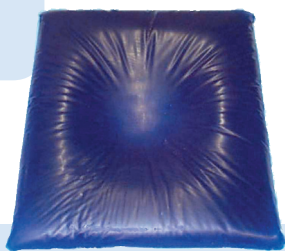

Custom design 2¼" tri-level combo pad with gel operating theatre table pad.

The pad has a base of supportive foam, a layer of doughy soft visco foam for cradling, topped by Blue Diamond Gel and covered in a 4 way soft stretch material to allow patients to benefit from the configuration. The pad has waterfall edges and sealed perineal cut-out, as well as a Velcro kit.

Head Positioners

2710150
BD2180

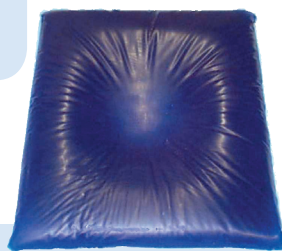

Gel head pillow with centring dish.

9" (L) x 10" (W) x 1" (H).

Designed with a centring dish to cradle the patient's head providing additional comfort and less movement.

2710151
BD2185

Gel head pillow with centring dish.

9" (L) x 10" (W) x 2" (H).

Designed with a centring dish to cradle the patient's head providing additional comfort and less movement.

2710152
BD2155

Neonatal gel head donut.

3 1/4" (O.D.) x 1 1/2" (I.D.) x 3/4" (H).

2710153
BD2160

Medium gel head donut.

5.5" (O.D.) x 2 1/4" (I.D.) x 1 1/4" (H).

For paediatrics and adolescents.

2710154
BD2150

Adult gel head donut.

8" (O.D.) x 3" (I.D.) x 1 3/4" high.

2710158
BD2165

Neonatal gel horseshoe pad.

3 1/4" (O.D.) x 1 1/4" (I.D.) x 3/4" (H).

2710155
BD2175

Small gel horseshoe pad.

5 1/2" (O.D.) x 2 1/4" (I.D.) x 1 1/4" (H).

For paediatric and neonatal applications. Horseshoe design allows for a variety of positions and the gel can be spread apart.

2710156
BD2170

Adult gel horseshoe headrest.

8" (O.D.) x 3" (I.D.) x 1 1/4" (H).

Has a keyhole cutout that makes it a favourite with anaesthetists. It allows for prone or side facing positions.

2710157
BD2220

Prone gel headrest.

8" (O.D.) x 3" (I.D.) x 3" (H)

Designed to allow the acceptance of anaesthesia tubes and still allows for visualization of the patient. It keeps the patient elevated enough as to not interfere with breathing apparatus.

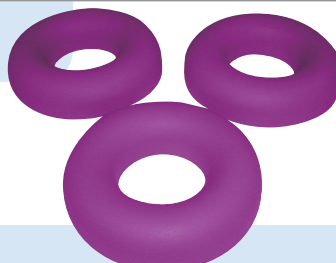

2710447
LC150/S

Light Cloud™ donut head positioner.

Reposable donut head positioner made of soft foam. Allows for multiple reuses whilst maintaining superior pressure reducing attributes. Single unit.

2710450
LC150

Light Cloud donut head positioners.

Reposable donut head positioner made of soft foam. Allows for multiple reuses whilst maintaining superior pressure reducing attributes. Pack of 3.

2710451
LC250

Light Cloud prone headrest.

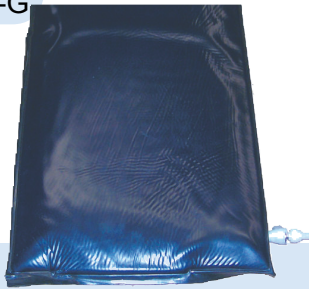

Reposable prone head positioner made of doughy soft foam. Allows for multiple reuses whilst maintaining superior pressure reducing attributes.

2710500
BD-BB1020

Bean Bag Positioner.
10" (L) x 20" (W).

2710501
BD-BB1020-G

Bean Bag with Gel Overlay
10" (L) x 20" (W).

2710502
BD-BB2020

Bean Bag.
20" (L) x 20" (W).

2710503
BD-BB2020-G

Bean Bag with gel overlay.
20" (L) x 20" (W).

2710504
BD-BB3040

Bean Bag with shoulder cut-out.
40" (L) x 30" (W).

2710505
BD-BB3040-G

Bean Bag with shoulder cut-out and with gel overlay.
40" (L) x 30" (W).

2710506
BD-BB3076

Bean Bag full length.
76" (L) x 30" (W).

2710507
BD-BB4646

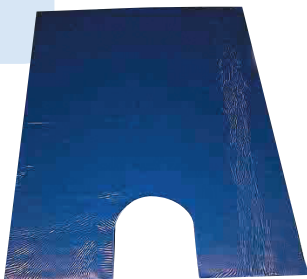

Bean Bag extra large with cut-out.
47" (L) x 46" (W).

2710508
BD-BB4646-G

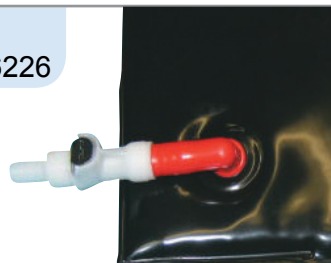

Bean Bag extra large with cut-out.
46" (L) x 46" (W).

2710509
BD3500

Bean Bag Vac Pac gel overlay with cut-out for shoulder.
30" (L) x 40" (W) x 1/4" (H).

2710510
BD-BB176226

Bean Bag valve replacement kit

2710511
BD-BB-R

Bean Bag repair patch

Contoured Positioners

2710300
BD2360

Standard Gel Filled Sandbag Positioner
4½" (W) x 10" (L) x 2" (H).
Filled with soft polymer gel.

2710301
BD2370

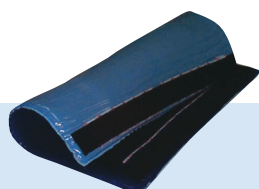

Large Gel Filled Sandbag Positioner.
4½" (W) x 14" (L) x 2¼" (H).
Filled with soft polymer gel.

2710302
BD2375

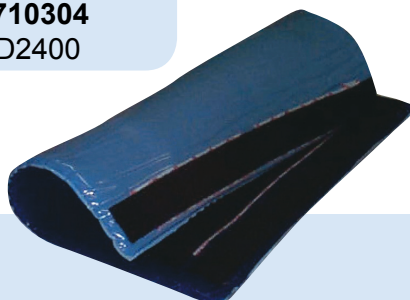

Extra Long Gel Filled Sandbag Positioner.
4½" (W) x 21" (L) x 2½" (H)
Can be used under heels, shoulder blades, hips...

2710303
BD2405

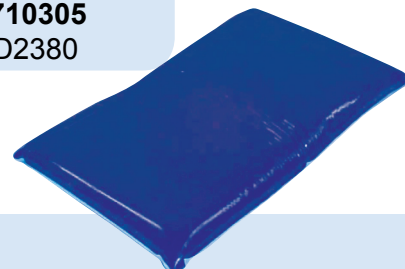

Small Gel Roll with Velcro.
11" (W) x 17" (L) x ½" (H).
Has Velcro securing straps.

2710304
BD2400

Large Gel Roll with Velcro.
20" (W) x 20" (L) x ½" (H)
Has Velcro securing straps.

2710305
BD2380

Sloped Thoracic Gel Positioner.
10½" (W) x 16" (L). Sloped from 2" to ½" (H).
Ideal to extend the chest and open up air passages.

2710127
BD2005

Tri-Level Combo Pad with Gel for Standard Arm Board.
6" (W) x 26" (L) 2¼" (H).
The pad has a base of supportive foam, a layer of doughy soft visco foam for cradling, topped by Blue Diamond Gel and covered in a 4-way soft stretch material to allow patients to benefit from the configuration. The pad has waterfall edges.

2710128
BD2005-3 V.1

Tri-Level Combo Pad with Gel for Standard Arm Board.
6" (W) x 26" (L) 3¼" (H).

2710129
BD2010

Tri-level combo series contoured arm board with gel. (2" height).
6" (W) x 26" (L) x 2" (H).
Contoured arm board with a layer of Blue Diamond Gel below the 4-way stretch sheerguard covering. The contoured dish design helps prevent roll overs of the patient's arm.

2710130
BD2010-3

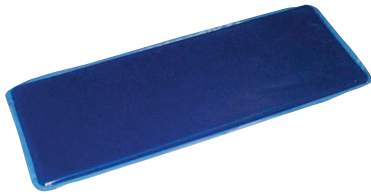

Tri-level combo series contoured arm board with gel.
6" (W) x 26" (L) x 3" (H).

2710131
BD2010-4

Tri-level combo series contoured arm board with gel.
6" (W) x 26" (L) x 4" (H).

2710200
BD2230

Small Gel Arm Board Pad.
6" (W) x 15" (L) x 1/4" (H).

2710201
BD2240

Large Gel Arm Board Pad.
4 1/2" (W) x 24" (L) x 1/4" (H)
Designed to fit most arm boards. Can also be rolled to use as a prop, wedge, elevator or auxiliary roll.

2710202
BD2235

Gel Arm Board Pad, Rounded End.
6" (W) x 26" (L) x 1/4" (H).

2710206
BD2235-58

Gel Arm Board Pad, Rounded End.
6" (W) x 26" (L) x 5/8" (H).
With rounded end to fit dimensions for an arm board.

2710207
BD2241

Lateral Arm Board Pad, Universal Size.
6" (W) x 15" (L) x 1/4" (H).

2710203
BD2270

Oval Ulnar Gel Nerve Protector.
13" (L) x 6" x 1/2".
Designed for efficacy, it aids in protecting the ulnar region and due to its compact design allows full access for anesthesia. Incorporates a Velcro securing strap.

2710204
BD2260

Full Size Gel Ulnar Nerve Protector
17" (L) x 12" (W) x 1/4" (H), with Velcro securing straps. Designed to wrap around an arm to protect a large area.

2710205
BD2245

Toboggan Arm/Leg Shield Gel Liner.
11" (W) x 18" (L) x 1/4" (H).
Has Velcro attachments to affix to your arm shield. Sized to fit 6", 8" & 10" shields.

Flat Bottom Positioners

2710350
BD2490

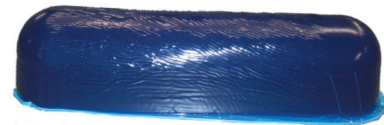

Flat Bottom Paediatric Gel Positioner.
2½" (W) x 6½" (L) x 2" (H).
Shaped for optimal positioning of the heels, knees, shoulders and neck extension.

2710351
BD2410

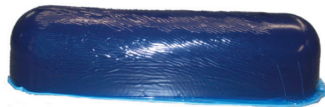

Flat Bottom Gel Positioner.
4" (W) x 12" (L) x 3¾" (H).
Utilised to prop, lift, stabilise or secure any body part i.e. head, neck, shoulders, buttocks, hips, knees, heels and ankles.

2710352
BD2420

Flat Bottom Gel Positioner.
4" (W) x 16" (L) x 3¾" (H).
Utilised to prop, lift, stabilise or secure any body part i.e. head, neck, shoulders, arms, hands, chest, buttocks, hips, knees, heels and ankles.

2710353
BD2430

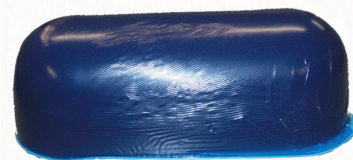

Flat Bottom Gel Positioner.
4" (W) x 20" (L) x 3¾" (H).
Utilised to prop, lift, stabilise or secure any body part i.e. head, neck, shoulders, arms, hands, chest, buttocks, hips, knees, heels and ankles.

2710354
BD2440

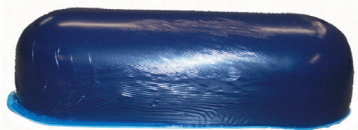

Flat Bottom Gel Positioner.
7" (W) x 13" (L) x 5½" (H).
Utilised to prop, lift, stabilise or secure any body part i.e. head, neck, shoulders, arms, hands, chest, buttocks, hips, knees, heels and ankles.

2710355
BD2450

Flat Bottom Gel Positioner.
7" (W) x 16" (L) x 5½" (H).
Utilised to prop, lift, stabilise or secure any body part i.e. head, neck, shoulders, arms, hands, chest, buttocks, hips, knees, heels and ankles.

2710356
BD2460

Flat Bottom Gel Positioner.
7" (W) x 20" (L) x 5½" (H).
Utilised to prop, lift, stabilise or secure any body part i.e. head, neck, shoulders, arms, hands, chest, buttocks, hips, knees, heels and ankles.

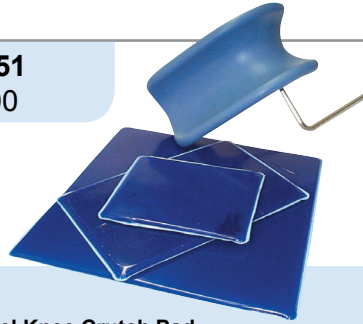

2710250
BD2280

Gel Foot/Heel/Sole Protector.

6" (W) x 15" (L) x 1/4" (H).
Has a Velcro strip on the back. Helps reduce pressure from the force of patients pushing against the foot brace.

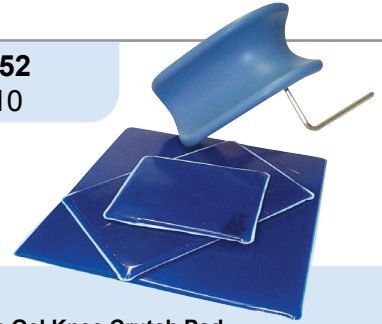

2710251
BD2300

Small Gel Knee Crutch Pad.

9" (W) x 11" (L) x 3/8" (H).
A versatile pad for more than just knee crutch supports. It can be used on many Specialty frames or with arm shields.

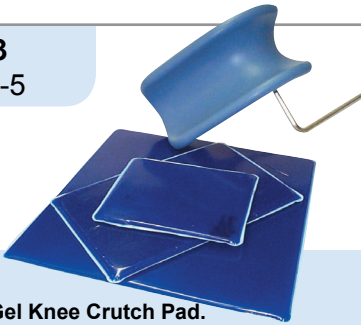

2710252
BD2310

Medium Gel Knee Crutch Pad.

11" (W) x 17" (L) x 1/4" (H).
Designed to reduce pressure to the knee and calf areas whilst the patient's leg is in a knee crutch.

2710253
BD2310-5

Medium Gel Knee Crutch Pad.

11" (W) x 17" (L) x 1/2" (H).
Designed to reduce pressure to the knee and calf areas whilst the patient's leg is in a knee crutch.

2710254
BD2320

Large Gel Knee Crutch Pad.

20" (W) x 20" (L) x 1/2" (H).
Provides full knee and calf protection whilst a patient's lower extremity is in a knee crutch. It offers superior protection during longer procedures.

2710255
BD2326

Alien Style Boot Liner Gel Pads (Pair).

Gel pad designed specifically to fit the Allen Medical boot stirrups. It has pockets that wrap around the boot to keep the pad from falling off. It also has Velcro to keep it in place.

2710256
BD2295

Gel Heel Elevators (Pair).

6" (L) x 2" (W) x 1 3/4" (H).
Encapsulated with a thermoformed film so that no additional surface tension is created. These elevators are ideal when concern for the patient's heels is a factor. It will raise the heel slightly, not affecting blood flow to the feet.

2710257
BD2325

Universal Gel Stirrup Pads (Pair).

Bell shaped stirrup pad is 1/2" thick and designed to fit in all standard book stirrups on the market. Velcro securing straps that wrap around the back of the stirrup prevent 'flop over' of the gel pad.

2710258
BD2290

Gel Clamshell Heel/Elbow Protector.

Designed to cradle bony prominences. It is used in numerous ways from, long-term dermal care, to post surgical recovery and during procedures. In conjunction with 'candy cane' post pads it provides excellent lower extremity protection whilst the patient's feet are cradled and legs are pushing against metal poles. Incorporates a Velcro securing strap.

2710259
BD2335

Candy Cane Gel Foot Straps (Pair).

Pair of heavy-duty deluxe straps for candy cane stirrups. The straps are 24" for added flexibility, with a 12" gel strip to protect the back of the heel/ankle as well as the sides of the foot..

2710260
BD2330

Candy Cane Gel Stirrup Pads (Pair).

These cylindrical gel pads are 24" (L).

2710109
BD2140-25

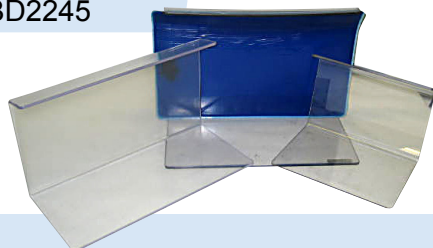

Gel Table/Hip Pad - Lightweight.

Has Velcro attachments to affix to your arm shield. Sized to fit 6", 8" & 10" arm shields.

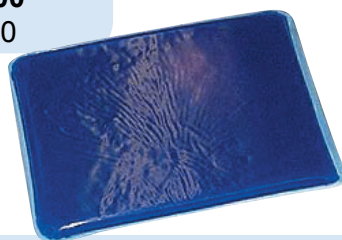

Specialty Pads

2710205
BD2245

Toboggan Arm/Leg Shield Gel Liner.
11" (W) x 18" (L) x ¼" (H).
Has Velcro attachments to affix to your arm shield. Sized to fit 6", 8" & 10" shields.

2710400
BD2570

Fracture Table Gel Hip Pad.
5" (W) x 7" (L) x ½" (H).
Versatile pad that can be placed in many different areas. It can be trimmed to fit your application.

2710401
BD2610

Fracture Table Gel Hip Pad with Post Hole.
8" (W) x 10" (L) x ½" (H).
Holes accepts up to a 2¼" post. Should be used in conjunction with 2710402 post pad.

2710402
BD2580

Fracture Table Gel Post Pad.
5" (W) x 7" (L) x ½" (H).
Has a 5" flap with Velcro that wraps around the post with a gel area measuring 5" (W) x 7" (H) x ¾" thickness.

2710403
BD2600

Andrews Frame Gel Iliac Crest Pad.
5" (W) x 24" (L) attached to an adjustable strap. Designed to accommodate all sizes of patients and to be wrapped around their mid-section to reduce pressure during a kneeling position.

2710404
BD2590

Andrews Frame Gel Knee Pad.
16" (W) x 22" (L) x 1" (H).
Has a cutout of 6" by 4½" to adapt to the Andrews Knee Frame. This pad is crucial in reducing capillary pressures whilst a patient is in this position.

2710405
BD2700

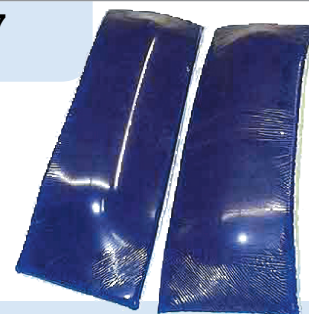

Hip & Sacral Gel Pad Set for Hip Positioners.
Fits on McGuire's and IMP adjustable lateral frame hip positioners.
The base plate is 11" x 17" x ½" with a pocket to slide over top for added protection.

2710406
BD2670

Lateral Gel Hip Positioner Post Caps (Pair).
Square caps come in pairs and fit on most lateral hip positioners. Designed for McGuire and IMP Lateral Positioner. The base plate and back plate are available and sold separately as 2710405.

2710407
BD2650

Wilson Frame Gel Pad Set.
10" (W) x 29" (L) x ½" (H).
Pads attach with Velcro.

2710408
BD2655

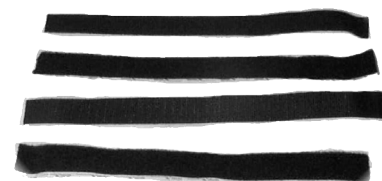

Wilson Frame Gel Pad Set.
10" (W) x 29" (L) x 1" (H).
Pads attach with Velcro.

2710409
BD2620

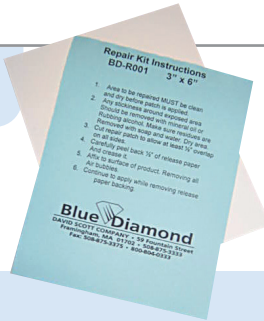

Adjustable Patient Restraint.
5" (W) x 24" (L) x ¾" (H) attached to a patient restraint belt that is x 2" (W) x 96" (L) and has two airplane style buckles. A body panel of 5" (W) x 18" (L) is where the removable gel pad is positioned.

2710417
VEL-KIT

12" Velcro Kits, Hook & Loop (Qty 2)

2710418
BDR001

Repair Patch for Blue Diamond Gel Pads.
3" x 6".
Comprises of a flexible skin backed with a flexible adhesive to repair small punctures of tears in the skin of Blue Diamond Gels Pads.

2710419
BDR002

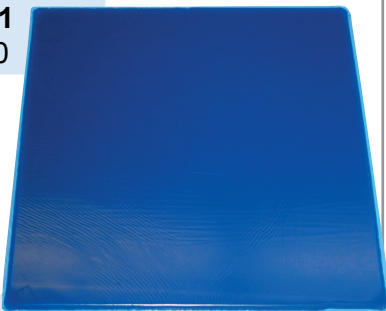

Repair Patch for Blue Diamond Gel Pads.
6" x 24".
Comprises of a flexible skin backed with a flexible adhesive to repair small punctures of tears in the skin of Blue Diamond Gels Pads.

2710110
BD2630

Doctor/nurse gel seat cushion.
16" (W) x 16" (L) x 1/2" (H).
Designed for comfort during longer procedures when the surgeon, anaesthetist or nurse is sitting down.

2710111
BD2640

Wheelchair gel pad.
18" (W) x 16" (L) x 5/8" (H).
Can be used with or without existing pads.

2710113
BD3500

Beanbag vac pac gel overlay.
30" (W) x 40" (L) x 1/4" (H).
With cutout for shoulder.

2710132
BD2750

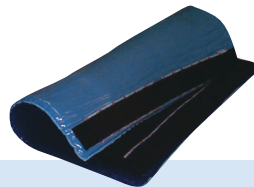

Paediatric gel positioning set.
Consists of:
1 x Blue Diamond gel body pad,
20" (W) x 9" (L) x 2" (H).
1 x Blue Diamond horseshoe pad.
1 x Cylinder 1 1/2" (H) x 12" (L).
1 x Cylinder 2" (H) x 12" (L).

2710259
BD2335

Candy Cane Gel Foot Straps (Pair).
Pair of heavy-duty deluxe straps for candy cane stirrups. The straps are 24" for added flexibility, with a 12" gel strip to protect the back of the heel/ankle as well as the sides of the foot..

2710303
BD2405

Small Gel Roll with Velcro.
11" (W) x 17" (L) x 1/2" (H).

2710304
BD2400

Large Gel Roll with Velcro.
20" (W) x 20" (L) x 1/2" (H).

Gels Pads & Positioners

Tensile Strength (psi)	20 - 40 psi
Elongation (%)	700 - 950%
Modulus at 100% Elongation	5 psi
Tear Strength, Die C (lb/in)	9lb/in
Glass Transition Temperature (Tg 1°C)	-57.5°C
Shore Rebound	12
Bayshire Rebound (%)	8 - 9.5%
Shore Hardness ("000")	25 - 75
Compression Load (force) Deflection (psi)	
@ 25%	6.1 psi
@ 50%	38.8 psi
Compression Set % of Thickness	
@ 25%	0.33%
@ 50%	0.66%

The Pressure Management gel belongs to a class of polymers commonly known as polyurethane. It is a special type of polyurethane called viscoelastic polyurethane polymer. It is unique in that it is formulated to exhibit many of the properties found in nonelastomers as well as numerous benefits of an elastomeric gel. The Pressure Management version of the gel polymer was developed to provide superior shock attenuation and absorbency while exhibiting very high elasticity and low durometer hardness. The Pressure Management gel has elongation of up to 900%, affording unparalleled shock absorption and excellent vibration/pressure dampening properties. At the same time, users experience an extremely high degree of comfort, due to the polymer gel's low durometer hardness, which makes it soft to the touch yet still strong enough to absorb pressures of hundreds of pounds per square inch. The Pressure Management gel and skin were created and matched to simulate human fatty tissue.
