

## DryMAX Absorbant Pads

Protective absorbent under pad - for dry and comfortable care of premature babies

DryMax Neo is a superabsorbent and hygienic underlay which effectively absorbs urine and other fluids whilst still remaining dry. This underlay has been designed with premature babies in mind as it is suitable for use in incubators. DryMax Neo is soft and comfortable for the naked child to lie on, the stress on the child's sensitive and fragile skin is reduced and the occurrence of skin irritations and sores is avoided.

The DryMax Neo makes it easy to follow the child's development and the progress of the umbilical cord to see if bleeding or other situations occur. Light treatment can easily be performed if necessary, as a major part of the child's skin is exposed.

<b>Size</b>	330 x 280 mm
<b>Weight</b>	Approximately 15 g
<b>Applications</b>	Absorbs waterbased liquids such as saline, urine and blood.
<b>Use</b>	Disposable product for single use, do not cut the product
<b>Sterile</b>	No
<b>Absorbency</b>	0.4 litre of tap water or 0.2 litre of 0.9% NaCl
<b>Composition</b>	Core: airlaid with superabsorbent polymer. Top layer: polypropylene non woven. Barrier layer: polyethylene film.
<b>Disposal</b>	Treat as clinical waste, combustion forms carbon dioxide and water

CE Class 1
