

# PRO<sup>ACT</sup> Medical Ltd

2011

CE Approved Manufacturer

UK Medical & EMS Catalogue

## Welcome to the **PROACT** 2011 UK Medical & EMS Catalogue.

With easy-to-use colour coded sections, it introduces many new products which have been incorporated into our already extensive range and contains as many price reductions as possible. Look out for the logos below which highlight these along with our 'star products' for 2011 where we are confident that we can save you money.

PROACT Medical Ltd are CE approved manufacturers and are members of BAREMA as well as holding the following certifications; ISO 9001:2000 (Quality Management Systems), ISO 14001:2004 (Environmental Management Systems) and OHSAS 18001:1999 (Occupational Health and Safety Management Systems).

PROACT have been supplying unique quality products at unbeatable prices since 1995. All of our products are CE marked and entirely latex free. The PROACT philosophy has always been to minimise overheads, manufacture and buy in bulk and to pass the savings on, offering brand-name ranges at real value-for-money prices. We are so confident that our prices are the lowest in the marketplace that we offer the PROACT Price Match Promise - to match any competitors' price for the same of equivalent product.\*

We understand the importance of delivering your order when you need it and hold large stocks available for delivery the next working day. We look forward to being given the opportunity to fill your product requirements during 2011... and to exceeding your expectations.

\*In both technical and qualitative terms

# Introduction

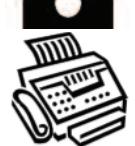

## How to place an order

**Order Online** - Remember you can now buy the products you require online, 24 hours a day, 7 days a week from the comfort of your own home. Check out the secure PROACT Shop - [www.proactshop.co.uk](http://www.proactshop.co.uk)

**By Post** - Send your order to our Sales Department at the address below:  
PROACT Medical Ltd, 9-13 Oakley Hay Lodge, Great Folds Road,  
Oakley Hay Business Park, Corby, Northants, NN18 9AS. UK

**By Telephone** - Ring our Sales Team from 9am - 5pm (Mon - Thur) and 9am - 4pm (Fri)  
Sales Hotline - **0845 051 4244 (normal call rate - no extra charges)**

**By Fax** - Fax your order to us 24 hours a day, 7 days a week  
Fax Order Line - **0845 051 4255 (normal call rate - no extra charges)**

**By E-mail** - E-mail your orders to us 24 hours a day, 7 days a week  
Order Email - [orders@proactmedical.co.uk](mailto:orders@proactmedical.co.uk)

### Please Note

1. All orders must include an official NHS or Company Purchase Order number (please contact our Sales or Accounts Department regarding Credit Terms)
2. All Prices are in UK Sterling and exclude Delivery Charges and VAT
3. Please quote our Part Number and Description on your Order - If in doubt please don't hesitate to contact us as orders may be delayed whilst we seek confirmation if they are not clear.

## How to pay for your order

**For BACS Payments** - Please see invoice or pro-forma for BACS payment details. If in doubt please contact PROACT accounts department on 0845 051 4244. Please fax - 0845 051 4255 - or email - [accounts@proactmedical.co.uk](mailto:accounts@proactmedical.co.uk) - with your Remittance Advice to us so that we can allocate your payment correctly.

**Payment by Cheque** - Please make payable to "Proact Medical Ltd" and send to:

9 - 13 Oakley Hay Lodge, Great Folds Road, Oakley Hay Business Park, Corby, Northants. NN18 9AS, UK.

Please remember to state which invoice(s) your cheque corresponds to. Items will be dispatched when payment is received

**Payment by Credit Card** - Call our Sales Team on 0845 051 4244 and we will process your payment over the telephone (sorry, we don't accept American Express due to the excessive charges incurred)

### We Accept:

#### LIMITED 30 DAY MONEY BACK GUARANTEE (see also Return of Goods)

To minimise the pass-on costs of Trials, Demonstrations and Demonstration Equipment for all our Customers, PROACT Medical Ltd only supply the highest quality products and recommend that customers take advantage of our 30 Day Money Back Guarantee. Please do, however, read the conditions of this offer below.

#### PROACT Medical offer a full refund to the customer only under the following conditions:-

1. The customer has not undertaken a demonstration / trial period prior to purchasing the product.
2. The customer returns the product as new, complete with original, unmarked, packaging and manuals. Please contact us for a returns authorisation number (RAN).
3. The customer has a valid reason for the return - i.e. the product does not function as described.

It is the customer's responsibility to read the product information and to check basic suitability PRIOR to ordering. If in any doubt please call one of our Product Specialists to discuss your requirements - we will be pleased to assist and ensure that you are ordering exactly what you require.

#### Address:

PROACT Medical Ltd

## Delivery Times

PROACT hold large stocks of our disposable products to ensure next working day delivery (for orders received before 2pm). As well as direct supply, they are also available via various distribution networks, including NHS Supply Chain and Bunzl (see below).

In the event that we are temporarily out of stock of an item, we will always endeavour to offer an alternative product or replenish our stocks and ship to you as soon as possible. Our Customer Support team will keep you informed of your order's progress along the way.

## Delivery Options

**Free of Charge Delivery** - Any NHS UK mainland orders over £200.00 are shipped free of charge via insured next day courier

**1st Class Post** - From £4.00 (low value items only, strictly at customer's own risk)

**Next Day Courier** - From £8.00 (including insurance and proof of delivery)

**Emergency / Same Day Deliveries** - Available on request, please call Customer Service Manager

## Return of Goods (RAN Number)

No goods will be accepted for return without a PROACT RAN (Return Authorisation Number). Please contact us to obtain one from our returns co-ordinator with your order number or delivery note number handy.

\* We reserve the right to apply a 15% re-stocking charge when goods have been ordered incorrectly. Items ordered in error must be returned complete with original, unmarked packaging and manuals or returns may not be accepted.

## NHS Supply Chain NPC Codes

Many of our products are listed with NHS Supply Chain. If you see the logo to the right next to any of our products, please consult the index on page 138 for NPC codes.

New products are added to the NHS Supply Chain catalogue all the time so please refer to this for the full listing. Alternatively you can call us, or visit our website for the most up to date list.

**NHS Supply Chain**

## Terms & Conditions

ALL prices shown in this catalogue are in UK Sterling excluding Carriage and VAT.

Prices are intended to run until 31st December 2011. Although not our intention, we must retain the right to change prices without notice in any circumstance where this becomes necessary.

All business is subject to PROACT Terms & Conditions of Sale. Please see the back page for full terms and conditions.

Placement of a Purchase Order is deemed to constitute acceptance of these.

Order Hotline: **0845 051 4244**

Fax Us: **0845 051 4255**

Or Email Your Order: **orders@proactmedical.co.uk**

# Introduction

## PROACT UK Area Sales Managers

PROACT pride themselves on direct customer contact. We have Area Sales Managers across the United Kingdom, as well as exclusive Sales Distributors in both Northern Ireland and Eire. All our Sales Managers are trained on our full range of products. With years of experience and specialised knowledge, our Sales Managers are available to offer free of charge training to ensure you get the most out of the products you choose.

Each of our Area Sales Manager works as a team with a dedicated Customer Support Advisor to ensure that all communication, quotes and queries are handled as quickly and efficiently as possible. Your Area Customer Support Advisor will offer you an excellent point of contact should you have any enquires.

On the next two pages are details of how to contact the Customer Support team along with other helpful office based contacts.

We are so confident of the reliability and durability of the Nonin range that we now offer a unique 5 year drop warranty on Nonin finger and hand held oximeters.

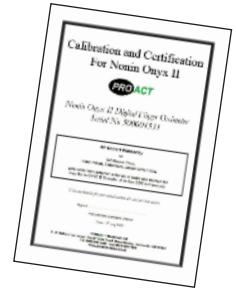

## 5 Year Drop Warranty Cover\* (Applies to Nonin 9500, 9550, 8500 and 2500 series oximeters)

In addition to the usual warranty, the "Drop Warranty" also covers failure of the device in the unlikely event it should cease to operate correctly or if it is damaged due to being dropped from a standard operating height (around 1 metre). In the event that a unit needs to come back to us under our warranty returns system, we will provide the option of free of charge loan equipment whilst your unit is being repaired. To see just how durable Nonin oximeters are, visit [www.proactmedical.co.uk/nonin](http://www.proactmedical.co.uk/nonin) to watch videos of competitors falling apart while Nonin oximeters stay in one piece. If you find yourself at an exhibition please feel free to borrow a Nonin Oximeter from us and take it along to our competitors stands to carry out your own drop test comparisons, in the unlikely event that they allow you to test their units.

## Free Annual Check To Meet ISO 9001:2005 Calibration Record Requirements

PROACT are also offering to conduct a free of charge annual calibration validation check on any unit at our in-house service centre in Northamptonshire (excluding carriage costs). For an additional £10 + VAT and carriage, we will also carry out Calibration Certification checks on oximeters out of warranty as well as other manufacturer's Pulse Oximeters if required. All validated oximeters will receive a certificate which can be used to show compliance with ISO 9001:2005 QA Systems.

Tests are carried out using the very latest oximetry testing equipment which checks the accuracy of both the sensor and display unit against manufacturers original specifications.

## PROVEN Oximetry Accuracy

Nonin pulse oximetry is PROVEN to be exceptionally accurate especially in low saturation motion and dark skin pigmentation scenarios. All Nonin oximeters contain PureLight® and PureSAT® which we believe offer the best accuracy against ALL of it's major competitors according to several independent studies. These technical reports and much more is available via the PROACT Medical website - download it for free at [www.proactmedical.co.uk/nonin](http://www.proactmedical.co.uk/nonin)

## PROVEN ISO 9919:2009 Compliant Pulse Oximeters from NONIN

The ISO 9919:2009 international standard, for the first time, details clearly the basic safety and essential performance criteria, both clinical and environmental, to be achieved by Pulse Oximeters. Please note that all Nonin Pulse Oximeters are fully tested (not just designed to comply) and exceed the requirements of ISO 9919:2009.

This new international standard has specific detailed requirements for a wide range of parameters, the most important of which are;

- Pulse Oximeter Accuracy
- Basic Safety Features
- Alarm Systems and Signal Inadequacy Indications
- Electromagnetic Compatibility
- Vibration, Mechanical and Noise Test
- Fluid Ingress to IPX2, Cleaning, Sterilisation
- Disinfection and Biocompatibility
- Full Detailed Definitions Of Accuracy Testing Systems
- Accuracy Data Analysis and Accuracy Data Presentation

### Buy Quality - Save Money!

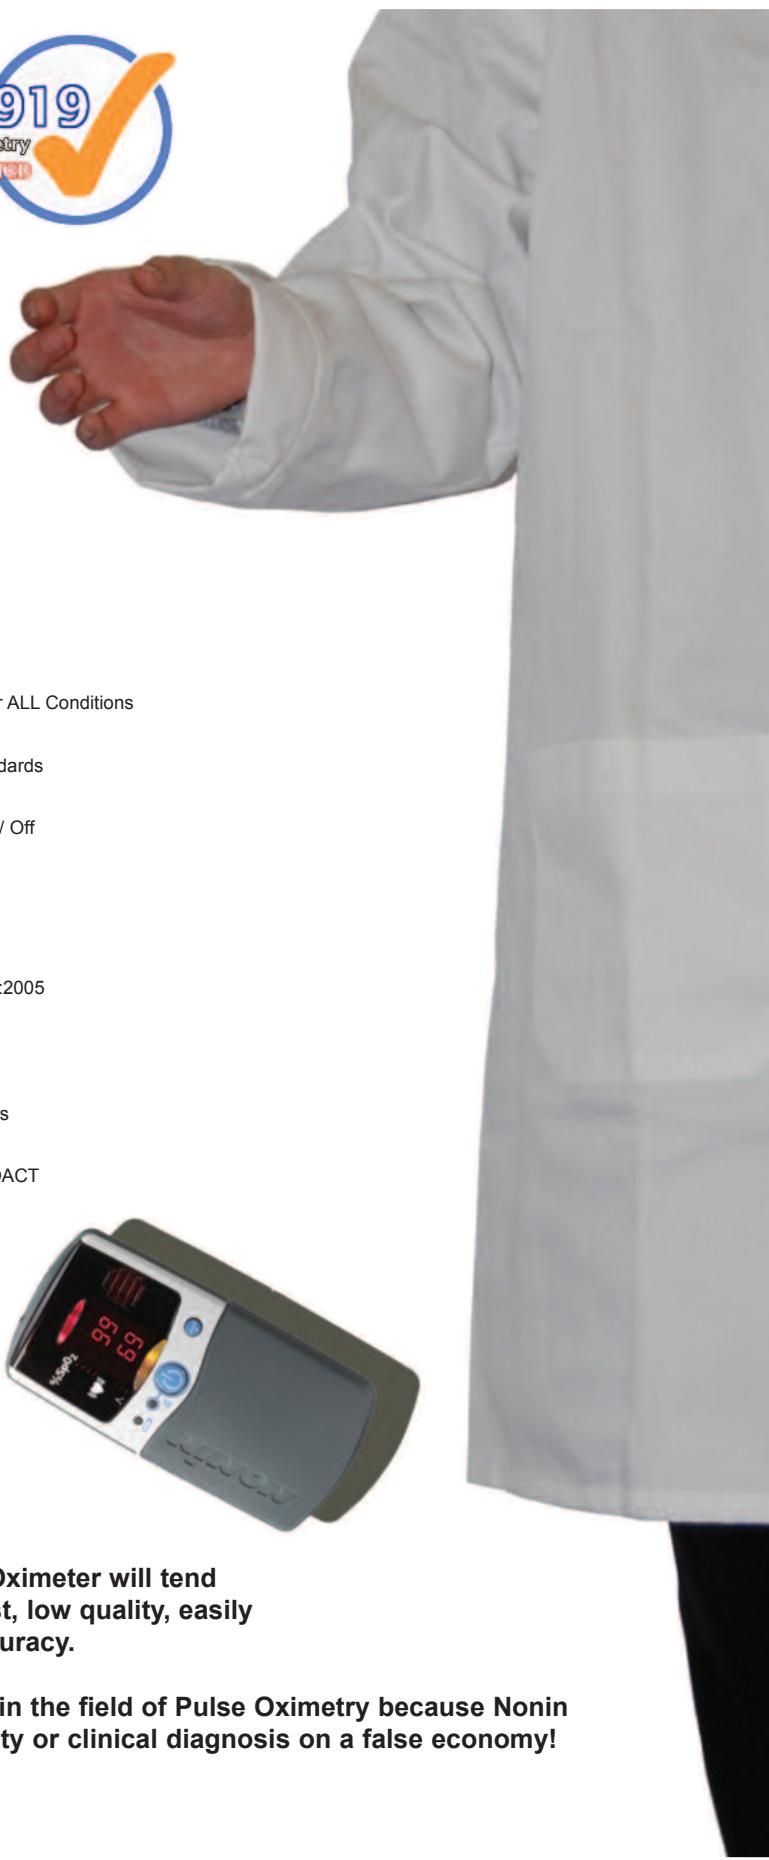

How many cheap, potentially inaccurate, inconsistent, unreliable and easily broken finger/handheld oximeters will you need to replace over a period of five years? Buy one competitively priced high quality professional Nonin oximeter and be assured of accurate readings, durability, reliability, clinical excellence and ultimately real value over at least 5 years of drop warranty.

\* Full terms and conditions apply. Prices are valid until further notice. The "5 year drop inclusive warranty" is offered by PROACT UK and it's distribution partners ONLY. Please visit [www.proactmedical.co.uk](http://www.proactmedical.co.uk) for full details or contact our sales team - 0845 051 4244, or e-mail [sales@proactmedical.co.uk](mailto:sales@proactmedical.co.uk)

for more details...

**www.proactmedical.co.uk**

## Affordable Leading Edge Technology

All Nonin products contain Nonin's unique patented PureSAT and PureLight Technology which give leading edge accuracy when compared to other major SpO<sub>2</sub> manufacturers; this is independently verified from studies conducted by Dr Severinghaus at the UCSF Independent Hypoxia Research Laboratory based in San Francisco.

## The 10 Reasons to Buy Nonin!

- PureSAT LEDs Give Long Term, Leading Edge Accuracy Under ALL Conditions
- PROVEN Durability & Reliability Exceeding ISO & Military Standards
- Unbeatable Ease of Use Including Nonin's Patented AUTO On / Off Feature for Finger Oximeters
- Class Leading Battery Life and Memory Capacity
- Designed & Tested to Exceed the High Standards of ISO: 9919:2005
- The Largest Choice of Sensors & Accessories
- Unique Calibration Certification Available for ALL Nonin Monitors
- Superb Warranties across the Range including the unique PROACT 5 Year "Drop Inclusive" Warranty on selected models
- Free Technical Advice and Support Including Online Brochures & Demonstration Videos
- Lowest Life Costs - How Many Cheap, Fragile & Inaccurate Oximeters Will You Buy in Place of ONE Accurate & Durable Nonin Oximeter?

**Over a 5-year life cycle the Nonin Pulse Oximeter will tend to be less expensive than buying low cost, low quality, easily breakable alternatives with unproven accuracy.**

**Nonin are the world-wide market leaders in the field of Pulse Oximetry because Nonin products do not compromise patient safety or clinical diagnosis on a false economy!**

Engineered with Nonin Medical's proven PureSAT® SpO<sub>2</sub> technology, the WristOx2 Model delivers highly accurate readings in the widest range of patient populations and settings. From the hospital to the home, the 3150 is ideal for applications including cardio-ambulatory monitoring, remote wireless monitoring and overnight studies - providing the versatility and reliability that clinicians expect from Nonin. The most advanced wrist-worn pulse oximeter available the WristOx2 features advanced performance and reporting capabilities including enhanced connectivity and increased memory storage. A new ergonomic design and Bluetooth® wireless technology eliminate the inconvenience of bulky cables and provide patients with increased comfort and independence - making it ideal for ambulatory monitoring.

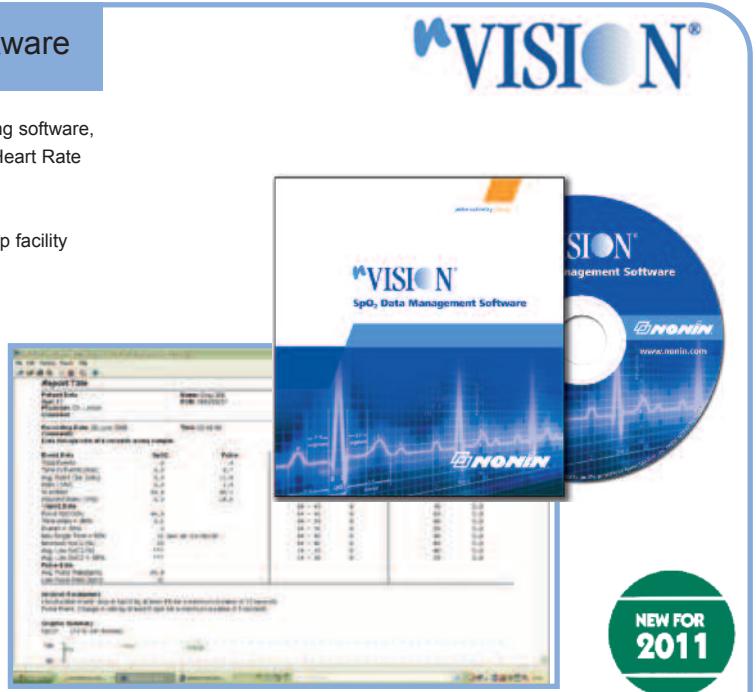

**In partnership with the latest version of nVision Data Management Software, the new WristOx2 offers a powerful and easy to use clinical tool for fast results and real world economic scalability. To arrange a trial, loan or demonstration of this the WristOx2, contact PROACT for your nearest Product Specialist**

**SpO<sub>2</sub> sensors to suit a wide range of patients and monitoring applications are available for use with the WristOx2.**  
See page 32

## Nonin nVision 6.3 Data Management Software

- Powerful and comprehensive reporting, analysis, editing and archiving software, now with reports for Capnography respiration as well as SpO<sub>2</sub> and Heart Rate (TrendSense memory module required)
- All reports show user settings for fast analysis of statistics
- User friendly and intuitive Windows based application with online help facility
- Customise reports or print from a choice of default settings
- Fast and simple editing saves staff administration time
- Access patient data instantly via simple search function
- Compatible with Windows 7 / 2000 / XP / Vista
- Free of charge demo discs available
- See below for compatible Nonin monitors
- For sensors, full options and accessories, see from page 18

NEW FOR  
2011

Part No	NHS NPC No	Description	Qty	Price
NVISION3150	---	Nonin nVision PC Software for 3150 WristOx - Includes Download Cable with USB Connection	Single	£279.00
NVISION2500	---	Nonin nVision PC Software for 2500, 8500 & 9840 Models - Includes Download Cable with RS232 Serial Connection	Single	£279.00
NVISION7500	---	Nonin nVision PC Software for 7500 Monitors - Includes Download Cable with RS232 Serial Connection	Single	£279.00
NVISIONAVANT	---	Nonin nVision PC Software for AVANT Monitors - Includes Download Cable with RS232 Serial Connection	Single	£279.00
NVISIONMA	---	Nonin nVision PC Software for SENSE SpO <sub>2</sub> /EtCO <sub>2</sub> Monitors - Includes TrendSense, Download Cable (with RS232)	Single	£465.00
NVSERUSB	---	Nonin Serial Port (RS232) to USB Adaptor	Single	£18.00

## Nonin 9560 Onyx II Bluetooth Pulse Oximeter

- Unparalleled reliability and accuracy with Nonin PureSAT and PureLight technology ensuring accurate readings in all conditions
- Secure Bluetooth 2.0 technology ensures that a secure connection is made between devices which meets the IEEE 11073 and Continua standards
- Extended range of up to 100m for added mobility
- Ergonomic design fitting a wide range of fingers from small child to large adult
- Unique pulse quality indicator with tri-colour readout
- Convenient enough to carry around and only weighing 60g
- Auto on/off - unique ease of use and power saving feature
- Clear LED display can be read in any environment at any angle
- Military tested robust design for durability in the toughest of environments
- Connects to Microsoft® HealthVault™ online health database
- 5 Year Drop Inclusive Warranty (2 years on bluetooth module)

Please see <http://nonin.com/technology/telemedicine> for up to date applications and solutions which are Nonin 9560 compatible

Part No	NHS NPC No	Description	Qty	Price
9560	---	Nonin 9560 Finger Pulse Oximeter - Includes free soft carry case, x2 AA batteries, neck cord.	Single	£399.50

# Pulse Oximetry & Capnography

## Nonin 8500 Series Hand Held Digital Oximeter

8500  
Series

- Unique Nonin pulse quality indicator gives easily interpreted tri-colour representation of signal quality
- Suitable for spot checks or continuous monitoring
- Compatible with Nonin's full range of Purelight Sensors
- Durable and rugged construction for performance in the toughest environments
- **Battery:** Six AA Alkaline batteries (included)
- **Battery Operating Life:** 100 hours continuous use - longest on the market
- **Memory:** 18 hours (option available on 8500M model only - nVision compatible)
- Lowest life costs of any hand held oximeter on the market
- 5 Year Drop Inclusive Warranty on main unit (2 year warranty on soft sensor)
- ISO 9919:2009 Compliant - All Nonin Oximeters are fully type tested to comply with the new International Standard for Pulse Oximeters
- For sensors, full options and accessories, see from page 18

Part No	NHS NPC No	Description	Qty	Price
8500	FBC138	Nonin 8500 Digital Oximeter (Basic Model)	Single	£349.00
8500M	-	Nonin 8500M Digital Oximeter with Memory Both include free soft Carry Case, Adult Soft Sensor (1m), Batteries and User Manual	Single	£399.00

## Nonin 9840 Pulse Oximeter & CO2 Detector

9840  
Series

- Easy to use with no minimum training required and no calibration needed
- "First Breath" Active - no warm-up required.
- Breath beep, audible indication of detected breath
- Features a tricolour perfusion detector
- Durable with a rugged construction
- Available in non-alarm (9843) and audible alarm (9845) versions
- Semi-quantitative technology with mainstream sampling
- PureSAT® SpO<sub>2</sub> artifact-free technology provides accuracy you can trust in the most challenging conditions, such as motion and low perfusion
- Memory for up to 24 hours of data storage - nVision compatible
- 3 Year Warranty on main unit and sensor
- ISO 9919:2009 Compliant - All Nonin Oximeters are fully type tested to comply with the new International Standard for Pulse Oximeters
- For sensors, full options and accessories, see from page 18

Part No	NHS NPC No	Description	Qty	Price
9843	-	9843 Pulse Oximeter & CO2 Detector (no alarms)	Single	£925.00
9847	-	9847 Pulse Oximeter & CO2 Detector (with alarms)	Single	£995.00
9840AAT	-	Both include Carry Case, Adult Clip Sensor (1m), CO2 Sensor, Airway Adapter Tubes, Batteries and User Manual	12	£79.50
9840SA	-	Disposable Airway Adapter Tubes for Nonin 9840 Series Monitors	Single	£225.00
		Mainstream CO2 Sensor for Nonin 9840 Series Monitors		

NEW FOR  
2011

## Nonin 2500 PalmSAT Series Digital Oximeter

- Simple to use two button operation and intuitive user interface
- Unique pulse quality indicator offers simple assessment of signal quality and eliminates need for plethysmographic waveform to confirm sensor placement.
- Reliable and accurate Nonin PureSAT SpO<sub>2</sub> technology.
- Compact, rugged and lightweight portable unit
- For added durability the 2500 features a built in rubber bumper and also has specially developed carry case options
- Battery:** x4 1.5v AA Size Alkaline Batteries (included / or see below for charger)
- Battery Operating Life:** 100 hours (x4 AA alkaline)
- or optional NiMH rechargeable battery pack (45 hours typical operation)
- Memory:** 72 hours as standard - nVision compatible
- Large red LED display can be read in all conditions
- Unique Drop Inclusive 5 Year Warranty (2 year warranty on soft sensor)
- ISO 9919:2009 Compliant - All Nonin Oximeters are fully type tested to comply with the new International Standard for Pulse Oximeters
- For sensors, full options and accessories, see from page 18

Part No	NHS NPC No	Description	Qty	Price
2500	FBC136	Nonin 2500 PalmSAT with Memory	Single	£449.00
2500A	FBC137	Nonin 2500A PalmSat with User Adjustable Alarms and Memory	Single	£499.00
2500C-UNIV	---	Both include free soft Carry Case, Adult Soft Sensor (1m), Batteries and User Manual Nonin 2500 Complete Charger Stand Kit for Nonin PalmSAT Monitors	Single	£200.00

## Nonin USB Adapter for Nonin Handheld Oximeters

- Convenient alternative to serial data connection provides a fast and secure connection between your Nonin handheld oximeter and a PC USB port
- Download data from memory or enable real time data capture capabilities
- Two models available: Standard and Continua Compliant
- Compatible for use with Nonin 2500, 8500 and 9840 series oximeters
- LED indicator confirms connection with PC
- No power drain on oximeter battery
- Please contact us for further information and application advice
- For sensors, full options and accessories, see from page 18

Part No.	NHS NPC No	Description	Qty	Price
1000USB	---	USB Adapter for Nonin Handheld Oximeters	Single	£89.70
1000USB-C	---	USB Adapter for Nonin Handheld Oximeters (Continua Compliant)	Single	£89.70

# Pulse Oximetry & Capnography

## Nonin 7500 Table Top Pulse Oximeter

7500

- Easy to use, convenient, lightweight and compact
- Bright LED Display offers clear readability for the user
- Unique pulse quality indicator offers simple assessment of signal quality.
- Durable / rugged design and construction
- Monitors neonate to adult patients in acute care to homecare environments
- Lowest life costs for any quality tabletop oximeter
- Features a flexible alarm management system including patient security mode and a user-defined default that offers customisable patient settings
- Power: 7.2v NiMH Battery Pack (included) or mains operation
- Battery Operating Life (Fully Charged): 16 hours minimum*
- Memory: 70 hours (assuming continuous operation) - nVision compatible*
- Full 3 year warranty on main unit (2 year warranty on sensor)
- ISO 9919:2009 Compliant - All Nonin Oximeters are fully type tested to comply with the new International Standard for Pulse Oximeters
- For sensors, full options and accessories, see from page 18

Part No	NHS NPC No	Description	Qty	Price
<b>7500</b>	<b>FBC139</b>	<b>Nonin 7500 Table Top Pulse Oximeter</b> - Includes Adult Soft Sensor (3m), Power Cord and Charger, Internal Rechargeable NiMH Battery Pack and Operators Manual	<b>Single</b>	<b>£695.00</b>

## Nonin 7500FO MRI Conditional Table Top Pulse Oximeter

7500FO

- No risk of RF Burns with the two way fibre optic MRI compatible non conductive sensor cables
- Uses proven Nonin PureSAT technology
- Intuitive front mounted controls on a durable robust unit
- Large LED display which is easily read from a distance
- Pulse quality indicator detects patient movement or signal quality changes
- Sensor fault indicator indicates when the sensor has become disconnected, misaligned or has failed
- User adjustable alarms with audible and visual SpO<sub>2</sub> and pulse rate alarms
- Power: 7.2v NiMH Battery Pack (included) or mains operation
- Battery Operating Life (Fully Charged): 12 hours minimum*
- Memory: 70 hours (assuming continuous operation) - nVision compatible*
- Full 3 year warranty on main unit
- ISO 9919:2009 Compliant - All Nonin Oximeters are fully type tested to comply with the new International Standard for Pulse Oximeters
- For sensors, full options and accessories, see from page 18

## Nonin 9600 AVANT Table Top Pulse Oximeter

- Reliable and accurate monitor utilising Nonin PureSAT SpO<sub>2</sub> technology
- Versatile design for use with neonates to adults, for emergency use to long term bedside monitoring
- Suitable for transport use and comes supplied with a 12VDC connector
- Light and compact unit, field tested for durability
- User defined settings including nurse call function
- Patient security mode prevents inadvertent setting changes
- Power:** 7.2v NiMH Battery Pack (included) or mains operation

**Battery Operating Life (Fully Charged):** Minimum 12 hours continuous or AC/DC power

**Memory:** Unparalleled 115 hour memory - nVision compatible

- Full 3 year warranty on main unit (2 year warranty on sensor)
- ISO 9919:2009 Compliant - All Nonin Oximeters are fully type tested to comply with the new International Standard for Pulse Oximeters
- For sensors, full options and accessories, see from page 18

Part No	NHS NPC No	Description	Qty	Price
9600	---	<b>Nonin 9600 Table Top Pulse Oximeter</b> - Includes Adult Soft Sensor (3m), Power Cord and Charger, Internal Rechargeable NiMH Battery Pack and Operators Manual	Single	£995.00

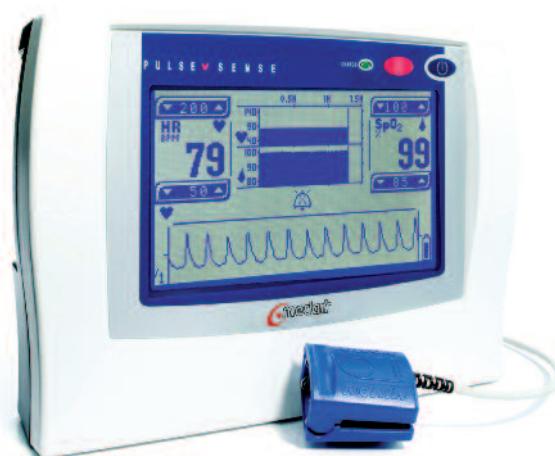

## Nonin 'PulseSense' Tabletop Oximeter

- Versatile unit suitable for all major uses - spot checking to long term monitoring - Hospitals, Surgeries, EMS, transport and home use scenarios
- Suitable for Neonate to Adult use with a wide range of sensors for a wide range of applications
- Large numeric and plethysmographic waveform display with LCD backlighting for easy interpretation
- Ergonomic widescreen touch panel
- 1.5 hours of SpO<sub>2</sub> and Pulse Rate waveform trending
- Visual and audible alarms for added patient safety
- Data output via the RS-232 port allows data download on to a PC using the TrendSense Module and nVision software
- Power:** Li-Ion Battery Pack (included) or mains operation

**Battery Operating Life (Fully Charged):** Minimum 12 hours continuous use and a fast charging time (17 hours from empty to full) or AC/DC power

- 3 year warranty on main unit and hinged finger sensors
- ISO 9919:2009 Compliant - Any monitor using Nonin Oximetry has been fully type tested to comply with the new International Standard for Pulse Oximeters
- For sensors, full options and accessories, see from page 18

Part No	NHS NPC No	Description	Qty	Price

# Pulse Oximetry & Capnography

## Nonin 2120 AVANT SpO<sub>2</sub> & NIBP Monitor

- Dual function NIBP and SpO<sub>2</sub> device with proven PureSAT SpO<sub>2</sub> technology
- High end hospital grade oscillometric NIBP monitoring
- 33.5 hour SpO<sub>2</sub> memory and 300 reading on-screen full display history
- Unique pulse quality indicator offers simple assessment of signal quality
- nVision compatible allowing for full SpO<sub>2</sub> data analysis
- Bright LED display and colour coded icons and display to indicate status
- LED displays change colour from green to orange to red (and flash) dependant on alarm status giving totally clear information
- Power: 7.2v NiMH Battery Pack (included) or mains operation

*Battery Operating Life (Fully Charged):* Minimum 5 hours continuous

*Memory:* 33.5 hour memory - nVision compatible

- 3 year warranty on main unit (2 years on sensor)
- ISO 9919:2009 Compliant - All Nonin Oximeters are fully type tested to comply with the new International Standard for Pulse Oximeters
- For sensors, full options and accessories, see from page 18

2120 Avant™

3 years  
warranty

ISO: 9919  
compliant

Optional PRO-Stand - See page 18

Part No	NHS NPC No	Description	Qty	Price
2120	---	<b>Nonin 2120 AVANT SpO<sub>2</sub> &amp; NIBP Monitor with Alarms and Memory - Includes</b> Adult Soft Sensor (3m), Adult NIBP Cuff, Power Cord, Charger and Manual	Single	£1295.00
TL-3602SMQ-1	---	<b>Large Adult NIBP Cuff</b> - For use with Nonin 2120 Monitors	Single	£20.90
TL-3605SMQ-1	---	<b>Child Adult NIBP Cuff</b> - For use with Nonin 2120 Monitors	Single	£14.90

## Superior Nonin Low Flow EtCO<sub>2</sub> Technology for Accurate and Fast Monitoring

Nonin EtCO<sub>2</sub> technology uses low flow (75ml / min) sidestream technology designed to monitor the respiratory status of intubated and spontaneously breathing patients. The core technology utilizes a stable optical bench to provide a fast and accurate measurement. Unlike other technologies that require an integrated solenoid valve for auto-zeroing the EtCO<sub>2</sub> optical design provides continuous monitoring by eliminating the need to interrupt patient measurement to compensate for drift - offering you less down time, more safety.

### Benefits of Nonin EtCO<sub>2</sub> Technology

- Intubated and Non-Intubated Patients
- Simple, Straight Forward Touch Screen Controls
- Clear, Concise Information Displays - Waveform and Trending
- State of the Art Low Flow Sidestream Capnography
- Lightweight, Durable and Affordable
- Optional Nonin PureSAT Digital Pulse Oximetry
- Minimised Cost of Ownership and Service Downtime

### Revolutionary Disposable Moisture Management

A unique "Flow-Thru" design incorporates an advanced moisture water trap that eliminates air mixing.

- High capacity moisture trap- Uninterrupted patient monitoring- Offers unmatched moisture control
- Flow-thru design- Minimal air mixing- Accurate EtCO<sub>2</sub> monitoring- Maximum moisture removal
- Built-in design- Unobstructed – Minimizes leakage

Part No	NHS NPC No	Description	Qty	Price
MALSTF110	---	Disposable Moisture Traps with Filters for LifeSense and RespSense	10	£39.50

for more details...

[www.proactmedical.co.uk](http://www.proactmedical.co.uk)

## Nonin 'RespSense' Tabletop Capnograph

- Large numeric and CO<sub>2</sub> waveform display with LCD backlighting for easy interpretation
- 1.5 hours of EtCO<sub>2</sub> and respiration rate waveform trending
- Ergonomically friendly widescreen touch panel for unbeatable ease of use
- Data output via the RS-232 port allows data download on to a PC using the TrendSense Module and nVision software
- A full range of CO<sub>2</sub> Lines are available so that all sizes and ages can be monitored from infants to large adults, either intubated or non-intubated
- Versatile unit suitable for all major uses - spot checking to long term monitoring - Hospitals, Surgeries, EMS, transport and home use scenarios
- Power:** Li-Ion Battery Pack (included) or mains operation

**Battery Operating Life (Fully Charged):** Minimum 10 hours continuous use and a fast charging time (17 hours from empty to full) or AC/DC power

- 3 year warranty on main unit
- Comes complete with 3 spare filters, water trap, 3 adult CO<sub>2</sub> nasal cannula, T-Connector and sample line, mains power supply, charger, protective carry case and CD operators manual
- For consumables, full options and accessories, see from page 18

Part No	NHS NPC No	Description	Qty	Price
MARSENSEK	-	Medair RespSense EtCO <sub>2</sub> Monitor - KPa Display	Single	£1295.00
MARSENSEM	-	Medair RespSense EtCO <sub>2</sub> Monitor - mmHg Display	Single	£1295.00

Both include free 3 spare filters, moisture trap, 3 adult CO<sub>2</sub> nasal cannula, T-Connector and sample line, power supply, charger, protective carry case and operators manual

## Nonin 'LifeSense' Tabletop Oximeter & Capnograph

- Versatile unit suitable for all major uses - spot checking to long term monitoring - Hospitals, Surgeries, EMS, transport and home use scenarios
- Large numerical display with CO<sub>2</sub> & Plethysmographic waveforms and full trending on an easy to read touch screen with backlighting for maximum clarity under all conditions
- Accurate readings from Nonin Low Flow technology and highly accurate PureSAT® SpO<sub>2</sub> technology (ISO 9919:2009 Compliant)
- Visual and audible alarms give added patient safety during long term monitoring
- Data output via the RS-232 port allows data download on to a PC using the TrendSense Module and nVision software
- A full range of CO<sub>2</sub> lines and SpO<sub>2</sub> sensors are available so that all sizes and ages can be monitored - infants to large adults, spontaneous and intubated
- 4 hour EtCO<sub>2</sub> and SpO<sub>2</sub> waveform trending on screen
- Power:** Li-Ion Battery Pack (included) or mains operation

**Operating Life (Fully Charged):** Minimum 8 hours continuous use and a fast charging time (17 hours from empty to full) or AC/DC power

- 3 year warranty on main unit and hinged finger sensors
- For consumables, full options and accessories, see from page 18

Part No	NHS NPC No	Description	Qty	Price
MALSENSEK	FBC141	Medair LifeSense EtCO <sub>2</sub> Monitor - KPa Display	Single	£1595.00
MALSENSEM	-	Medair LifeSense EtCO <sub>2</sub> Monitor - mmHg Display	Single	£1595.00

Both include Adult SpO<sub>2</sub> Sensor (3m), 3 spare filters, moisture trap, 3 adult CO<sub>2</sub> nasal cannula, T-Connector and sample line, power supply, charger, protective carry case and operators manual

# Pulse Oximetry & Capnography

## 8000 Series Reusable Sensors

Description:

- 8000 Series Clip Sensor
- Easy clean with Kevlar cable

Warranty

3 years, 90 days on Ear and Reflectance Sensors

Suitable for...

- Spot Checks
- Short Term Monitoring
- 8000AA - Patient Size: > 30kg
- 8000AP - Patient Size: 8 - 30kg
- 8000Q - Patient Size > 40kg
- 8000R - Patient Size > 30kg

Part No.	NHS NPC Code	Description	Qty	Price
8000AA-1	FBC089	Nonin Adult Articulated Clip Finger Sensor - 1m Cable	Single	£127.95
8000AA-2	---	Nonin Adult Articulated Clip Finger Sensor - 2m Cable	Single	£134.00
8000AA-3	---	Nonin Adult Articulated Clip Finger Sensor - 3m Cable	Single	£139.55
8000AA-W02	---	Nonin Adult Articulated Clip Finger Sensor (WristOx2)	Single	£127.95
8000AP	FBC186	Nonin Paediatric Articulated Clip Finger Sensor - 1m Cable	Single	£127.95
8000AP-3	---	Nonin Paediatric Articulated Clip Finger Sensor - 3m Cable	Single	£139.55
8000Q	---	Nonin Ear Clip Sensor - 0.3m Cable	Single	£127.95
8000R	---	Nonin Reflectance Forehead Sensor - 0.5m Cable	Single	£127.95

## 8000S Series Reusable Soft Sensors

Description:

- 8000S Series Soft Finger Sensor
- Easy clean with Kevlar cable

Warranty

2 years

Suitable for...

- Spot Checks
- Short / Medium Term Monitoring
- 8000SL - Digit Thickness: 12.5 - 25.5mm
- 8000SM - Digit Thickness: 10 - 19mm
- 8000SS - Digit Thickness: 7.5 - 12.5mm

Part No.	NHS NPC Code	Description	Qty	Price
8000SL-1	FBC091	Nonin Large Adult Soft Finger Sensor - 1m Cable	Single	£124.60
8000SL-3	---	Nonin Large Adult Soft Finger Sensor - 3m Cable	Single	£135.65
8000SL-W02	---	Nonin Large Adult Soft Finger Sensor (WristOx2)	Single	£124.60
8000SM-1	---	Nonin Adult Soft Finger Sensor - 1m Cable	Single	£124.60
8000SM-3	---	Nonin Adult Soft Finger Sensor - 3m Cable	Single	£135.65
8000SM-W02	---	Nonin Adult Soft Finger Sensor (WristOx2)	Single	£124.60
8000SS-1	---	Nonin Child Soft Finger Sensor - 1m Cable	Single	£124.60
8000SS-3	---	Nonin Child Soft Finger Sensor - 3m Cable	Single	£135.65
8000SS-W02	---	Nonin Child Soft Finger Sensor (WristOx2)	Single	£124.60

## 8000J Series Reusable FlexiWrap Hybrid Sensors

Description:

- 8000J Series Reusable FlexiWrap Sensors
- Secure application with disposable wrap

Warranty

90 days

Suitable for...

- Motion Situations
- Extended Monitoring
- 8000J - Patient Size: > 20kg
- 8008J - Patient Size: 2 - 20kg
- 8001J - Patient Size < 2kg

Reusable wrap sensor held in place using soft disposable adhesive FlexiWraps

Part No.	NHS NPC Code	Description	Qty	Price
8000J	FBC187	Nonin Adult Flex Sensor - 1m Cable (includes 25 disposable Flexiwraps)	Single	£82.95
8000J-3	---	Nonin Adult Flex Sensor - 3m Cable (includes 25 disposable Flexiwraps)	Single	£94.60
8000J-W02	---	Nonin Adult Flex Sensor (WristOx2) (includes 25 disposable Flexiwraps)	Single	£82.95
8008J	FBC100	Nonin Infant Flex Sensor - 1m Cable (includes 25 disposable Flexiwraps)	Single	£82.95
8001J	---	Nonin Neonate Flex Sensor - 1m Cable (includes 25 disposable Flexiwraps)	Single	£82.95
8000JFW	FBC188	Nonin Replacement disposable Flexiwraps for use with Nonin Adult Flex Sensor	25	£16.45
8001JFW	---	Nonin Replacement disposable Flexiwraps for use with Nonin Neonate Flex Sensor	25	£16.45

## 7000 Series Disposable Flexi-Form Micro Foam Sensors

Description:

7000 Series Fully Disposable Flexi-Form Micro Foam Sensor

Warranty

Disposable

Suitable for...

- Motion Situations / Infection Control
- Extended Monitoring
- 7000A - Patient Size: > 30kg
- 7000P - Patient Size: > 10kg
- 7000I - Patient Size: 2 - 20kg
- 7000N - Patient Size < 2kg (>30kg for adults)

Part No.	NHS NPC Code	Description	Qty	Price
7000A-24	---	Nonin Adult Flexi-Form Sensor - 1m Cable	24	£225.00
7000P-24	---	Nonin Paediatric Flexi-Form Sensor - 1m Cable	24	£225.00
7000I-24	---	Nonin Infant Flexi-Form Sensor - 1m Cable	24	£225.00
7000N-24	---	Nonin Neonatal Flexi-Form Sensor - 1m Cable	24	£225.00

## 6000 Series Disposable Cloth Sensors

Description:

6000 Series Fully Disposable Cloth Sensor

Warranty

Disposable

Suitable for...

- Motion Situations / infection Control
- Extended Monitoring
- 6000A - Patient Size: > 30kg
- 6000P - Patient Size: > 10kg
- 6000I - Patient Size: 2 - 20kg
- 6000N - Patient Size < 2kg (>30kg for adults)

Part No.	NHS NPC Code	Description	Qty	Price
6000A-24	---	Nonin Adult Cloth Sensor - 1m Cable	24	£225.00
6000P-24	---	Nonin Paediatric Cloth Sensor - 1m Cable	24	£225.00
6000I-24	---	Nonin Infant Cloth Sensor - 1m Cable	24	£225.00
6000N-24	---	Nonin Neonatal Cloth Sensor - 1m Cable	24	£225.00

## 6500 Series Dura-Foam Disposable Sensors

Description:

6500 Series Durafoam Limited Reuse Disposable Sensor

Warranty

Disposable

Suitable for...

- Transport Motion Situations / infection Control
- Extended Monitoring
- 6500SA - Patient Size: > 30kg
- 6500MA - Patient Size: > 30kg

Part No.	NHS NPC Code	Description	Qty	Price
6500SA	---	Nonin Standard Durafoam Sensor - 1m Cable	5	£120.00
6500MA	---	Nonin Small Durafoam Sensor - 1m Cable	5	£120.00

Part No.	NHS NPC Code	Description	Qty	Price
UNI-EXT-1	---	Nonin Extension Cable - 1m Cable	Single	£41.40
UNI-EXT-3	---	Nonin Extension Cable - 3m Cable	Single	£67.17
UNI-EXT-6	---	Nonin Extension Cable - 6m Cable	Single	£108.00
UNI-EXT-9	---	Nonin Extension Cable - 9m Cable	Single	£138.00
UNI-RA-0	---	Nonin Right Angled Cable - 12cm Cable	Single	£30.00
3100i	---	Nonin Patient Interface Cable for use with 4100 and WristOx (old model) - allows use of Nonin Standard Sub-D type sensors	Single	£48.59
3150i	---	Nonin Patient Interface Cable for use WristOx2 - allows use of Nonin Standard Sub-D type sensors	Single	£48.50

# Pulse Oximetry & Capnography

Finger Tip Pulse Oximeters				
Product Code	Description	QTY	Price	
9500CC-B	Soft Black Carry Case for Nonin Finger Oximeters	1	£9.78	
9550CC	Slip In Carry Case for 9550 Onyx Oximeters	1	£26.50	
9500-JM2-CC	Justice Mark II Hard Case for Nonin Oximeters	1	£28.17	
9500GI-SINGLE	Gripping Insert for Nonin Onyx 9500 Finger Oximeter	1	£3.75	
9500L-BSINGLE	Replacement Lanyard for Nonin Onyx 9500 Finger Oximeter	1	£4.40	
9500ES-SINGLE	External Spring for Nonin Onyx 9500 Finger Oximeter	1	£7.95	
9500BD-SINGLE	Battery Door for Nonin Onyx 9500 Finger Oximeter	1	£11.15	
9570-GO2L	Lanyard for the Nonin GO2 Finger Oximeter	1	£6.00	
9570-GO2R	Retractable Lanyard Holder for the Nonin GO2 Finger Oximeter	1	£9.00	
Hand Held Pulse Oximeters				
HH-CC	Deluxe Nonin Cushioned Carry Case for Hand-Held Monitors	1	£39.95	
2500C-PRO	Carry Case for Nonin 2500, 8500 and 9840 Series Monitors	1	£24.95	
8500RB	Protective Rubber Bumper for Nonin 8500 & 9840 Series	1	£35.00	
8500PMS	Pole Mounting System for Nonin 8500 & 9840 Series (use with 8500MB bracket)	1	£130.00	
8500MB	Mounting Bracket Only for Nonin 8500 & 9840 Series Monitors	1	£35.00	
1293-000	Small Battery Door for older Nonin 8500 Units (35mm x 18mm)	1	£8.95	
5081-000	Large Battery Door for new Nonin 8500 Units (730mm x 550mm)	1	£8.95	
2500C-UNIV	NiMH Charger Stand Kit complete for Nonin PalmSAT Monitors	1	£200.00	
2500B	Spare NiMH Battery Pack for use with 2500 Charger Stand	1	£55.75	
1000MC	Data Download Cable with Serial Port for Nonin for 2500, 8500 and 9840 Series Monitors	1	£89.70	
1000RTC	Real Time Data Download Cable with Serial Port for Nonin 2500, 8500 and 9840 Series Monitors	1	£89.70	
1000USB	USB Adapter with 2m Cable for Nonin 2500, 8500 and 9840 Series Monitors	1	£89.70	
1000PFC	Data Download Cable with Serial Port for Nonin 8600M and 8600FOM Monitors	1	£89.70	
Nonin 3150 WristOx Wrist Digital Oximeter				
3150WB	Reusable Wristbands for Nonin 3150 WristOx2	10	£48.95	
3150i	Sensor Adaptor Cable for Nonin 3150 WristOx2	1	£48.50	
3150WBE	Wristband Extender for Nonin 3150 WristOx2	10	£35.65	
3150SC	Data Download Cable with USB Connection for Nonin 3150 WristOx2	1	£89.70	
3150CC	Black Deluxe Carry Case for Nonin 3150 WristOx2	1	£19.95

# Pulse Oximetry & Capnography

## Gas Sampling Solutions

- CO2 cannula and accessories to provide solutions to routine CO2 monitoring while administering conscious sedation or during post operative recovery
- Precision sampling of EtCO<sub>2</sub> and anaesthetic gases
- Lightweight and economical
- Variety of lengths, ID's and luer fittings to accommodate a full range of CO2 and multi gas monitors including Criticare, Datascope, Datex Ohmeda etc
- Variety of patient ends to meet the needs of various clinical applications

### CO2 & Gas Sampling Lines - Nasal with Male Luer

MA4000	Nasal CO2 Sample Line, Adult, 2.1m with Male Luer	25	£119.95
MA4100	Nasal CO2 Sample Line, Paediatric, 2.1m with Male Luer	25	£146.49
MA4200	Nasal CO2 Sample Line, Infant, 2.1m with Male Luer	25	£263.25
MA1000-M	Nasal EMS CO2 Sample Line, Adult, 1.8m with Male Luer and Foam Nasal Insert	50	£58.38

### CO2 & Gas Sampling Lines - Nasal with O2 Delivery & Male Luer

PB-331010	PRO-Breathe® CO2 Sampling Mask with O2 Delivery, Adult with 2.1m O2 tubing, head strap and CO2 sample line	50	£46.00
PB-331013	PRO-Breathe® CO2 Sampling Mask with O2 Delivery, Paediatric with 2.1m O2 tubing, head strap and CO2 sample line	50	£46.00
PB-356005	PRO-Breathe® Nasal Cannula Head Set, Adult	50	£10.95
PB-353005	PRO-Breathe® Nasal CO2 Sample Line with O2 Delivery Adult, 3m with Male Luer	50	£70.00
PB-354005	PRO-Breathe® Nasal CO2 Sample Line with O2 Delivery, Adult, 4.5m with Male Luer	50	£80.00
PB-355055	PRO-Breathe® Nasal CO2 Sample Line with O2 Delivery, Adult, 6m with Male Luer	50	£90.00
MA4703	Nasal CO2 Sample Line with O2 Delivery, Paediatric, 2.1m with Male Luer	25	£199.56
MA4700	Nasal CO2 Sample Line with O2 Delivery, Infant, 2.1m with Male Luer	25	£210.00

### CO2 & Gas Sampling Lines - Oral & Nasal with O2 Delivery & Male Luer

MA4001	Oral & Nasal CO2 Sample Line with Oral Form Wire, Adult, 2.1m with Male Luer	25	£245.00
MA4101	Oral & Nasal CO2 Sample Line with Oral Form Wire, Paediatric, 2.1m with Male Luer	25	£270.00

## Universal Sampling Lines - T Connectors and In-Line Filters

Product Code	Description	QTY	Price
WM0514	CO2 Sample Line .040ID, 2.1m with Male / Male Luers	50	<b>£67.47</b>
WM0511	CO2 Sample Line .060ID, 3m with Male / Male Luers	50	<b>£78.43</b>
WM0521	CO2 Sample Line .050ID, 1.8m with Male / Female Luers	50	<b>£61.94</b>
WM0512	CO2 Sample Line .050ID, 3m with Male / Male Luers	50	<b>£78.43</b>
WM0513	CO2 Sample Line .050ID, 3m with Male / Female Luers	50	<b>£78.43</b>
WM0522	CO2 Sample Line .050ID, 3m with Male / Male Luers and 0.5 Micron Filter	50	<b>£147.79</b>
WM0524	CO2 Sample Line .050ID, 3m with Male / Male Luers and 5.0 Micron Filter	50	<b>£158.33</b>
WM0523	CO2 Sample Line .050ID, 3m with Male / Female Luers and 0.5 Micron Filter	50	<b>£162.50</b>
WM0525	CO2 Sample Line .050ID, 3m with Male / Female Luers and 5.0 Micron Filter	50	<b>£162.50</b>
WM0510	CO2 Sample Line .060ID, 3m with Male / Female Luers	50	<b>£78.43</b>
WM0535	Gas Sample Line .050ID, 3m with Swivel Elbow	50	<b>£108.22</b>
WM0520	0.8 Micron Filter ONLY (for sampling line) with Male/Female Luers	100	<b>£165.96</b>
WM0526	5.0 Micron Filter ONLY (for sampling line) with Male/Female Luers	100	<b>£153.66</b>
MA51390-50	Straight T-connector (Luer Lock) with 15mm Male & 22mm F/Male Connectors	50	<b>£79.00</b>
MA1020	Anaesthesia Circuit Oxygen Adapter 22mm ID x 6mm OD outlet	25	<b>£52.00</b>
<b>For Use with Anaesthetic Gases and Agents</b>			
WM0516	CO2 Sample Line .047ID, 3m Coextruded PE Lined with Male Luers - Multigas Use	50	<b>£132.70</b>
WM0517	CO2 Sample Line .047ID, 3m Coextruded PE Lined with Male/Female Luers - Multigas Use	50	<b>£147.79</b>

# Pulse Oximetry & Capnography

## Original Masimo® SpO<sub>2</sub> Sensors

- Broad range of SpO<sub>2</sub> sensors for use in many clinical settings
- Both Masimo® LNOP® (low noise optical probe) and LNCS® (low noise cabled sensor) sensors and Interface Cables are available

Please call if you are unsure of which connection you need.

## Original Masimo® LNOP® Reusable SpO<sub>2</sub> Sensors

Connection	Tongue (1)
Warranty	6 Months
Suitable for...	<ul style="list-style-type: none"> <li>MAS1269 - Patient Size: &gt; 30kg</li> <li>MAS1544 - Patient Size: &gt; 1kg</li> <li>MAS1276 - Patient Size: 10-50kg</li> <li>MAS1399 - Patient Size: &gt; 30kg</li> </ul>

Part No	Description	Qty	Price
<b>MAS1269</b>	Original Masimo® LNOP® DCI Adult Finger Sensor, 0.9m Cable	Single	£149.00
<b>MAS1276</b>	Original Masimo® LNOP® DCIP Paediatric Finger Sensor, 0.9m Cable	Single	£149.00
<b>MAS1544</b>	Original Masimo® LNOP® Y1 Universal Y Sensor, 0.9m Cable	Single	£171.00
<b>MAS1399</b>	Original Masimo® LNOP® TC-I Adult Ear Sensor (OEM PN: 1794)	Single	£195.00

2

## Original Masimo® LNOP® Disposable Adhesive Sensors

Connection	Tongue (1)
Warranty	Out of box
Suitable for...	<ul style="list-style-type: none"> <li>MAS1001 - Patient Size: &gt; 30kg</li> <li>MAS1025 - Patient Size: 10-50kg</li> <li>MAS1651 - Patient Size: &lt; 1kg</li> <li>MAS1002 - Patient Size: &lt; 10kg</li> <li>MAS1798 - Patient Size: &lt; 3kg or &gt; 40kg</li> </ul>

Part No	Description	Qty	Price
<b>MAS1001</b>	Original Masimo® LNOP® Adt Adult Disposable Sensors	20	£195.00
<b>MAS1025</b>	Original Masimo® LNOP® Pdt Disposable Paediatric Sensors	20	£195.00
<b>MAS1002</b>	Original Masimo® LNOP® Neo Disposable Neonatal Sensors	20	£215.00
<b>MAS1798</b>	Original Masimo® LNOP® Neo-L Disposable Neonatal/Adult Sensors	20	£215.00
<b>MAS1651</b>	Original Masimo® LNOP® NeoPt-L Disposable Neonatal/Pre-Term Sensors	20	£235.00

## Original Masimo® LNOP® Reusable Interface Cables

Connection	Accepts Tongue (1) to 3M (3)
Warranty	6 Months

Part No	Description	Qty	Price
<b>MAS1005</b>	Original Masimo® LNOP® PC08 Patient Interface Cable, 2.4m	Single	£98.00
<b>MAS1006</b>	Original Masimo® LNOP® PC12 Patient Interface Cable, 3.6m	Single	£98.00
<b>MASMAC-1</b>	Original Masimo® ACI® to LNCS® Cable - Connects LNOP® sensors to LNCS® cables (OEM PN:1816)	Single	£89.00
<b>MASLNCSLNOP</b>	Original Masimo® LNCS® to LNOP® PC Adaptor Cable (OEM PN: 1645)	Single	£89.00

PROACT have been supplying EnviteC compatible SpO<sub>2</sub> sensors to many NHS Trusts and private organisations in the UK for the past decade and have helped many satisfied customers to meet their clinical and economic objectives during this time.

EnviteC-Wismar GmbH, based in Germany, are part of the Honeywell Group and are the worlds largest quality supplier of compatible and original SpO<sub>2</sub> sensors and cables. They specialise in the research, development and production of sensors and high quality monitoring equipment. They are fully ISO 13485 compliant and also act as a test centre for TUV.

All EnviteC manufactured sensors are fully compliant with the ISO 9919:2009 quality standard, introduced to regulate the design; manufacture and supply of Pulse Oximeters and Sensors. For more information on ISO 9919:2009 and it's implications for SpO<sub>2</sub> Sensors, please see below.

### More than just compatible

Apart from providing 100% compatibility, EnviteC sensors for SpO<sub>2</sub> monitoring also set new quality standards. EnviteC offers advanced solutions for long term monitoring. These sensors have a long service life (with patented strain relief cables) and are effectively protected against outside influences such as electromagnetic interference as required by IEC 60601-1-22:2201.

Envitec products offer patients the best possible comfort whilst being easy to handle by medical staff.

- Comfortable ergonomically advanced design
- Suitable for many different patient site and monitoring applications
- Easy to clean and disinfect
- Long shelf life

### Unsurpassed quality

EnviteC SpO<sub>2</sub> sensors are made from specially selected high quality medical grade materials. EnviteC sensors have been copied many times but please don't be fooled. EnviteC sensors have Kevlar cable reinforcement and comply with all international standards plus offer a long life of accurate service. All EnviteC SpO<sub>2</sub> sensors are free of latex and conform to the biocompatibility standards of the medical industry.

EnviteC sensors undergo extensive quality and safety tests to guarantee excellent operational safety with every new or modified monitor generation. All EnviteC sensors are CE marked and serial numbered for full individual sensor traceability.

All EnviteC sensors are equipped with optoelectronic components, which comply with the specifications and performance requirements for OEM sensors.

ISO 9919:2009 requires the clinical validation of pulse oximetry sensors against arterial blood gas readings and for their accuracy in terms of the root-mean-square-error (ARMS) to be generated from these tests. This should be declared in product information such as user instructions.

EnviteC SpO<sub>2</sub> sensors are tested to meet the fluid ingress requirements of ISO 9919:2009 and an expanding range of waterproof and autoclavable rubber Soft-Tip Plus sensors are becoming available to make infection control even easier.

**HP and Nellcor™ compatible  
Soft-Tip Plus autoclavable  
sensors are already available.  
Please call for details.**

## EnviteC Disposable Multi-Compatible SpO<sub>2</sub> Sensors

**ENVITEC**  
Way ahead in technology

- Super high quality electronically matched optics for full compatibility with stated manufacturers oximeters - FDA & CE Approved
- Offers major cost savings with no compromise in performance
- Features unique re-aligned design for accurate placement and optimum functionality
- Choice of tape strips to maximise patient comfort and allow repositioning.
- Helps to control cross infection

### 'Direct Fit' Sensor

EnviteC Disposable Adult Sensor (0.45m)

EnviteC Disposable Paediatric Sensor (0.45m)

EnviteC Disposable Infant Sensor (0.9m)

EnviteC Disposable Neonatal Sensor (0.9m)

EnviteC Disposable Velcro Wrap Sensor (0.9m)

### EnviteC Patient Dedicated Velcro Wrap Sensors - Maximum Comfort and Safety at a great price

The EnviteC Disposable Velcro Wrap sensor offers an alternative to traditional adhesive SpO<sub>2</sub> sensors. Hypoallergenic medical grade Velcro holds the sensor safely in place and allows many re-applications to the same patient without any risk of skin damage, ideal for patients with delicate skin or where repositioning is frequently required.

The soft material ensures a good fit and minimises sweating for increased patient comfort. The sensors are fast and easy to apply/adjust and they have no shelf life, saving both clinical time and money. Call us for a sample today.

## EnviteC Reusable Multi-Compatible SpO<sub>2</sub> Sensors

**ENVITEC**  
Way ahead in technology

- Super high quality electronically matched optics for full compatibility with stated manufacturers oximeters - FDA & CE Approved
- Offer major cost savings with no compromise in performance
- Dedicated products for optimal performance and maximum patient comfort in each site
- Easy to clean and disinfect
- Rubber Soft-Tip sensors offer superior durability in extreme conditions
- New Soft Tip Plus autoclavable versions now available for the most popular manufacturer's monitors including Nellcor™ and HP
- Lowest hassle factor, lowest life costs

### Comfort Line 'EW' Range

Description: Adult Articulated Finger Clip Sensor

Warranty 12 Months

Apply to... Index, Middle or Ring Finger

Suitable for... • Spot Checks • Short Term Monitoring • Patient Size > 20kg

### Comfort Line 'PH' Range

Description: Paediatric Articulated Finger Clip Sensor

Warranty 12 Months

Apply to... Index, Middle or Ring Finger

Suitable for... • Spot Checks • Short Term Monitoring • Patient Size > 20kg

### Comfort Line 'ES' Range

Description: Ear Clip Sensor

Warranty 3 months

Apply to... Ear

Suitable for... • Spot Checks • Mid Term Monitoring • Stress Testing • Patient Size > 30kg

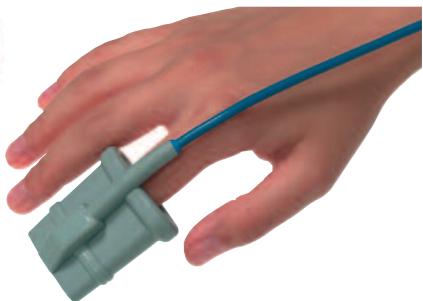

### Soft Tip® 'MF' Range

Description: Silicone Rubber Articulated Finger Sensor

Warranty 24 months

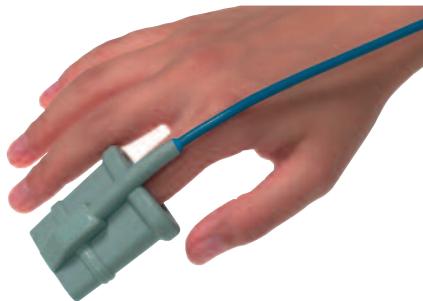

Apply to... Index, Middle or Ring Finger

Suitable for... • Spot Checks • Mid Term Monitoring • Emergency / Transport • Patient Size > 20kg

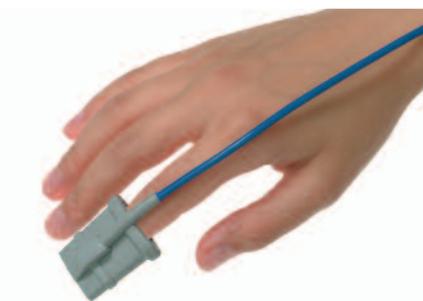

## Autoclavable Soft Tip® PLUS 'RP' Range

Description:	Adult Silicone Rubber Autoclavable and Waterproof Finger Sensor	
Warranty	24 months

## 'Direct Fit' Sensor

## 'Indirect Fit' Sensor

1. Use the Compatibility Charts on Pages 44 - 57 to look up the Manufacturer and Model of your SpO<sub>2</sub> Monitor/System.

2. For 'Direct Fit' Sensors which fit **Directly** to the monitor

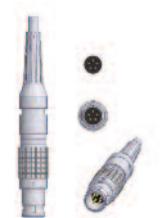

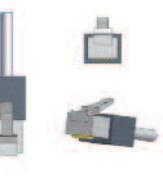

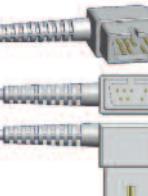

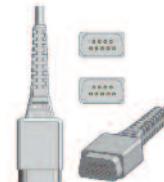

- select the sensor with the correct end connector 'Z' to fit your monitor. You may have a choice of Cable Lengths.

3. For 'Indirect Fit' Sensors which use an Extension Cable

- select the Sensor Connector 'X' to fit with the Extension Cable end connector 'Y'. Check that any newly specified Extension Cable also has the correct Monitor Connector 'Z'.

# ECG Monitoring & Cardiac Output

## NICOM® Non-Invasive Cardiac Output Monitor

The Cheetah Reliant® provides continuous non-invasive tracking of Cardiac Output and other key hemodynamic parameters of cardiac function including:

- Cardiac Output
- Cardiac Output Index
- Stroke Volume Index
- Heart Rate
- Thoracic Fluid Content
- Total Peripheral Resistance (SV12)
- Non Invasive Blood Pressure

The system is based on the patented NICOM® BIOREACTANCE® platform which has been used in multiple clinical applications. See the facing page for full details. Benefits of the Cheetah Reliant include:

- Totally non-invasive
- Validated against the gold standard Swan-Ganz Pulmonary Artery Catheter
- Once calibrated no further adjustment needed
- Continuous real time readings
- Flexible front or back sensor placement
- Quick and easy application
- Compact and portable monitor with ergonomic touch screen
- Economical and flexible implementation options from outright purchase to loan monitors with sensor contracts

### Purchase Option

Part No	Description	Qty	Price
CH-CMM-RE1	<b>NICOM® Non-Invasive Cardiac Output Monitor</b> - includes patient cable, adult NIBP cuff, USB cable, power cable, manual & training disc <i>Cheetah Disposable Non-Invasive NICOM® Sensors Sets</i>	Single	£14995.00
CH-CME25	<b>NICOM® Disposable Sensors Sets</b>	25	£550.00
CH-CME50	<b>NICOM® Disposable Sensors Sets</b>	50	£975.00
CH-CME200	<b>NICOM® Disposable Sensors Sets</b>	200	£3900.00

### Loan Option

CH-CMM-RE1	<b>NICOM® Non-Invasive Cardiac Output Monitor</b> - includes patient cable, adult NIBP cuff, USB cable, power cable, manual & training disc <i>Cheetah Disposable Non-Invasive NICOM® Sensors Sets</i> - Sensors available as per the purchase option, priced from £50.00 to £92.00 per sensor dependant on the quantity of sensors per monitor per annum agreed during the loan period.	Single	FOC
CH-CMABAG	<b>Carry Bag for the Cheetah Reliant NICOM®</b>	Single	£61.50
CH-CMAPOL	<b>IV Pole Connector for the Cheetah Reliant NICOM®</b>	Single	£148.75
CH-CMABED	<b>Bed Frame Connector for the Cheetah Reliant NICOM®</b>	Single	£306.25
CH-PROSTAND	<b>Multi Purpose Rolling PROStand with NICOM Mounting Plate</b>	Single	£325.00

## Applications for the NICOM® Cardiac Output Monitor

### Dialysis

- The NICOM System has been used in patients undergoing haemodialysis due to acute or chronic renal failure to provide real-time, continuous monitoring of CO, TPR, SV and Thoracic Fluid Content.
- Information provided by the NICOM System can provide early warning of impending haemodynamic decompensation
- Optimise dry patient weight management

for more details...

[www.proactmedical.co.uk](http://www.proactmedical.co.uk)

## Applications for the NICOM® Cardiac Output Monitor

### Cardiology Departments

#### Chronic Heart Failure Management

- Enables highly accurate, real time, continuous and robust measurements of CO
- Use to better understand the patient's disease status and response to treatment
- Can assist to differentiate between heart failure and chronic pulmonary disease (COPD)

#### Pacemaker Optimisation

- In heart failure patients treated with a biventricular pacemaker (CRT), NICOM has been used to determine the optimal pacemaker AV delay and VV delay settings
- The real-time, non- invasive insight enables fine- tuning of the CRT to optimise stroke volume and cardiac output
- The test is simple to perform, and can be completely performed by a nurse or technician, without the need for echocardiography and other ancillary tests

### ICU

- Passive Leg Raise Protocol (5-10 minutes) – simple, accurate, bedside, fluid responsiveness decision making tool
- Can assist with differential diagnosis of acute haemodynamic states such as shock and sepsis
- Refine drug titration, especially in patients requiring treatment with cardiac agonists and vasoressors
- Cost effective haemodynamic optimisation of critical care and resuscitated patients without the need for invasive lines
- Assist with fluid management and early warning signal for impending haemodynamic instability
- Monitoring and management of heart failure patients

### A&E

- Quick, non- invasive and motion tolerant features, enable routine utilisation of haemodynamic monitoring in the emergency department
- Improve Sepsis management with quick diagnosis, determination of fluid responsiveness and ability to monitor, fine tune or course correct
- Can assist with differential diagnosis of acute haemodynamic states such as shock and sepsis
- Passive Leg Raise Protocol (5-10 minutes) – simple, accurate, bedside, fluid responsiveness decision making tool
- Orthostatic Bioreactance protocol (5-10 minutes) - Differential diagnosis for shortness of breath- heart failure vs Non Heart Failure
- Cost effective haemodynamic optimisation of critical care and resuscitated patients without the need for invasive lines

### Theatre/Recovery

- Complete haemodynamic monitoring including CO, SVV NIBP and TPR enables fine-tuning of fluid management
- Can be used Pre-Induction, Perioperatively or in Recovery to assist with fluid management
- Can be used in wide range of surgical procedures due to flexibility of electrode placements
- Ability to check fluid responsiveness in awake, sedated or anaesthetised patients
- Refine drug titration
- Cost effective haemodynamic optimisation without the need for invasive lines
- Early warning signal for impending haemodynamic instability
- Passive Leg Raise Protocol (5-10 minutes) – simple, accurate, bedside, fluid responsiveness decision making tool

### Outreach

- Quick, non- invasive and motion tolerant features, enable routine utilisation of haemodynamic monitoring for Outreach departments
- Passive Leg Raise Protocol (5-10 minutes) – simple, accurate, bedside, fluid responsiveness decision making tool
- Can be used to better understand the patient's disease status and response to treatment
- Cost effective haemodynamic optimisation without the need for invasive lines
- May be used to uncover disease escalation and volume overload
- Complete haemodynamic monitoring including CO, SV, NIBP and TPR enable fine-tuning of fluid management

# ECG Monitoring & Cardiac Output

## SECA CT8000i ECG Machine - 12 Lead

- Compact, light and multifunctional machine that covers most primary and secondary care requirements
- 12 lead intelligent 3 channel interpretive ECG with LCD screen and alpha numeric keyboard
- One touch automatic or instant real time operation
- Internal memory for up to 45 stored ECG records
- Offers adult and paediatric interpretive software as standard
- Stand alone use and PC connectivity for paperless ECG
- 3 Year Warranty

**seca**  
3 years  
warranty

Part No	Description	Qty	Price
<b>SECACT8000i</b>	<b>SECA CT8000i ECG Machine</b> - supplied with mains cable, patient cable, pack of Z-Fold paper, 500 disposable electrodes and alligator clips	Single	£1595.00
<b>SECACT8000iUP</b>	<b>Thrombolysis Upgrade</b>	Single	£265.00

## SECA CT3000i Interpretive ECG Machine - 12 Lead

- 12 lead, 3 channel ECG with high quality interpretive programme
- Auto start button automatically produces the ECG traces complete with rhythm strip, measurements and interpretation
- Filters for baseline, electrical and muscle tremor interference, providing clear traces
- Lead off warning and identification
- Useful copy button for extra ECG traces
- 12 simultaneously acquired ECG traces printed on 90mm paper, eliminates trace overlap
- 3 Year Warranty

**seca**  
3 years  
warranty

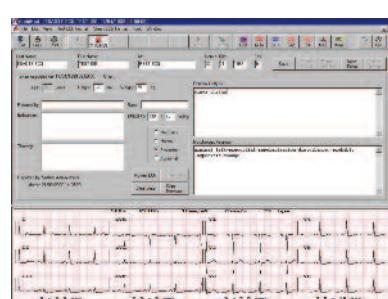

Part No	Description	Qty	Price
<b>SECACT3000i</b>	<b>SECA CT3000i Interpretive ECG Machine</b> - supplied with mains cable, patient cable, pack of Z-Fold paper, 500 disposable electrodes and alligator clips	Single	£1087.73
<b>SECACT582</b>	<b>Hard Aluminium Carry Case</b>	Single	£63.39

## SECA Archimed Passport Patient Record Package

Seca Archimed passport software enables not only the ECG trace but also the choice of format and measurements etc to be attached to the individual patient record. Once in the computer system the trace can be printed, faxed or e-mailed as required.

- Transmission of the ECG trace and patient data through one touch function key on the ECG machine.
- Selection of viewing choices e.g one page report, 3 x 4 etc
- All lead measurement figures included in patient record

Part No	Description	Qty	Price
<b>SECAARC-SPU</b>	<b>SECA Passport Patient Record Package</b> - Single user version	Single	£116.94
<b>SECAARC-PRP</b>	<b>SECA Passport Patient Record Package</b> - Open network version	Single	£353.19

for more details...

[www.proactmedical.co.uk](http://www.proactmedical.co.uk)

## SECA CT220 SmartScript PC Based ECG

- Acquires the ECG from the patient directly into the treatment room computer, removing trailing cables and offering flexibility in large treatment rooms
- Bluetooth technology option offers secure data transfer signal and a range of up to 50m
- Compatible with Windows 7 and Vista and all leading EMR systems
- High quality recordings of all 12 leads for viewing and printing
- User friendly interface makes it simple to operate
- Robust defibrillator proof unit
- 2 Year Warranty

Part No	Description	Qty	Price
<b>SECACT220USB</b>	<b>SECA CT220 SmartScript PC Based USB - USB Cabled Version</b>	Single	£1635.00
<b>SECACT220BT</b>	<b>SECA CT220 SmartScript PC Based USB - Bluetooth Version</b> Both supplied with 500 SECA Q-Trace Disposable Electrodes, full length patient cable and smartscript ECG interpretation software	Single	£1865.00

## Seca ECG Accessories

Part No	Description	Qty	Price
<b>Stands and Cases</b>			
<b>SECACT500</b>	<b>CT500 SECA ECG Trolley</b> - with spring loaded arm and storage basket	Single	£243.50
<b>SECACT580</b>	<b>CT580 Carry Case</b> - for CT3000 and CT8000i	Single	£35.83
<b>SECACT582</b>	<b>CT582 Hard Aluminium Carry Case</b> - for CT3000 and CT8000i	Single	£63.39
<b>SECACT426</b>	<b>CT426 Carry Case</b> - for CT6 and CT8000P	Single	£29.70
<b>Replacement Paper</b>			
<b>SECACT480Z</b>	<b>Z-Fold Printer Paper for Seca CT8000i</b>	Single	£3.31
<b>SECACT480ZPI</b>	<b>Z-Fold Printer Paper (A4) for Seca CT8000P</b>	Single	£13.31
<b>SECACT463R</b>	<b>Roll of Printer Paper (width 90mm) for Seca CT3000 Range</b>	Single	£2.94
<b>SECACT463Z</b>	<b>Z-Fold Printer Paper (width 90mm) for Seca CT3000 Range</b>	Single	£3.31
<b>Miscellaneous</b>			
<b>SECA581L</b>	<b>10 Lead Patient Cable</b>	Single	£215.91
<b>SECAQTRACE</b>	<b>SECA Q-Trace Disposable Electrodes</b>	10	£29.00
<b>SECA-ALCPS</b>	<b>Seca Alligator Clips</b>	10	£17.00
<b>SECA-SPCPs</b>	<b>Seca SnapClip Connectors</b>	10	£26.65
<b>ECGRK</b>	<b>PROACT ECG Ready Kit</b>	Single	£12.00

## seca ( Scales & Measuring Equipment

A full range of SECA weighing and measuring equipment is available from PROACT at very competitive prices. Please call us to discuss your requirements and request a quotation or a copy of the dedicated SECA brochure.

# Blood Pressure Monitoring

## Trimline® Disposable 'Tempa-Kuff' NIBP Cuffs

NPC Codes  
Page 136

- Soft white fabric feels comfortable on a patient's arm and helps eliminate the sweating and discomfort that frequently occurs with stiff vinyl cuffs.
- Colour coding and Pre-Gaged® range markings on the outside of cuff make cuff selection easy. Sizing guide shows when a larger or smaller cuff is required.
- Centred-tube, integrated BALANCED® Bladder design and longer length facilitate proper arterial compression on both right and left arms, unlike conventional off-centre cuffs that, by design, are arm specific.
- Extra long cuffs are available to accommodate the patient population needing extra length to wrap around the arm; approx. 13cm longer than standard cuffs.
- Any codes marked in **RED** have NHS Supply Chain NPC Codes.
- Vinyl cuffs are also available - please call for details.

## Universal Connectivity Kit

The Trimline Universal Connectivity kit contains a variety of end connectors, tubing adapters and accessories for all major manufacturers NIPB monitors. An essential tool box for medical engineering staff to not only maintain blood pressure monitors and cuffs but also to implement universal connectivity across the patient monitors, reducing monitors and staff downtime due to incompatible BP cuffs and simplifying purchasing and stock holding.

For conversion assistance and advice for your hospital, please call us.

# Blood Pressure Monitoring

## A&D UA-705 Semi-Auto Digital NIBP Monitor

- WHO Blood Pressure Classification is shown after every reading
- An easy to read 3 line display shows Systolic, Diastolic and pulse at once
- Memory storage facility that stores the last 30 readings
- An efficient automatic power off function and long battery life
- Manual inflation, recommended for monitoring at home
- Features an Irregular Heart Beat Indicator (IHB)
- BHS A/A Clinically Validated
- 5 Year Warranty

Part No	Description	Qty	Price
UA-705	UA-705 Semi-Automatic Digital Blood Pressure Monitor	Single	£30.95

## A&D UA-767 PLUS 30 Automatic Digital NIBP Monitor

- Easy to read 3 line display shows the systolic, diastolic and pulse readings simultaneously
- 30 reading memory
- WHO Blood Pressure Classification shown after every reading.
- Irregular Heartbeat Indicator (IHB) lights if IHB is detected
- Recommended for clinical and home use
- Simple to use one button inflation and measurement
- BHS A/A Clinically Validated
- 5 year warranty

Part No	Description	Qty	Price
UA-767PLUS30	UA-767 PLUS 30 Automatic Blood Pressure Monitor - and 4 x AA Batteries	Single	£54.15

## A&D UA-787 PLUS Automatic Digital NIBP Monitor with Fuzzy Logic

- Irregular Heartbeat Indicator (IHB) lights if IHB is detected.
- Easy to read 3 line display shows the systolic, diastolic and pulse readings simultaneously.
- Illuminated start button
- Memory stores the last 60 readings with average reading of stored data
- WHO Blood Pressure Classification shown after every reading
- Recommended for clinical and home use
- Simple to use one touch fuzzy logic inflation and measurement
- ESH Clinically Validated
- 5 year warranty

## Accu-PRO™ Pressure Infusion Bag

Accu-PRO™

- Available in colour coded 500ml, 1000ml or 3000ml bag sizes
- Easy one handed inflation and deflation
- Easy to read colour coded gauge to indicate bladder pressure
- See through mesh material allows for easy loading and offers a clear view of fluid level
- IV fluid bag hook is durable and designed to fit all standard sized stands
- Space to write on patient name, date and solution
- Completely disposable, eliminating time consuming cleaning and repair, whilst providing a patient dedicated solution to the problem of infection control

NEW FOR  
2011

Part No	Description	Qty	Price
APP100500	Accu-PRO Pressure infusion Bags - 500ml	24	£240.00
APP101000	Accu-PRO Pressure Infusion Bags - 1000ml	24	£240.00
APP103000	Accu-PRO Pressure Infusion Bags - 3000ml	24	£295.00

## Easy To Read Pressure Gauge

The Accu-PRO pressure infusion bag features a pressure gauge providing an easy to read 360 degree view, clearly visible from a distance.

**Starting Position**

Displays the pressure at 0mmHg before any pressure is applied.

**Normal Pressure**

Boundary marked at 150mmHg and 300mmHg. Green colour at 300mmHg indicates standard inflation pressure.

**Over Pressurisation**

Red colour indicates over pressurisation

# Oxygen Monitoring

## EnviteC OxiQuant MC Portable Oxygen Monitoring

- Compact and lightweight
- Easy to use and calibrate
- Full visible and audible alarms that can be manually or automatically set
- Accurately measures 0-100% oxygen to 1% vol. O2 accuracy
- Responds in less than 10 seconds to 90% of final value at 25 C
- Controlled by a microprocessor
- 1 year warranty

**ENVITEC**  
Way ahead in technology

Picture show Oxygen Monitor fitted with optional Holder Bracket (OXQ-MCB) and Modura Claw (OXQ-MDC)

Part No	Description	Qty	Price
046-00-0027	<b>EnviteC OxiQuant MC Oxygen Monitor</b> - contains manual, OOM111 oxygen sensor and tee piece	Single	£373.28
OOM111	<b>EnviteC Oxygen Sensor</b> - for new OxiQuant MC model	Single	£72.03
OOM102-1	<b>EnviteC C1 Oxygen Sensors</b> - for old OxiQuant M model	Single	£37.01
OXQ-TP	<b>Reusable T Adapter for O2 Analysers</b> - Male / Female 22mm fitting	Single	£10.80
OXQ-MCB	<b>OxiQuant MC Holder Bracket</b>	Single	£22.95
OXQ-PMC	<b>Pole Mount Clamp (vertical or horizontal) for OxiQuant MC Monitor</b> - fits to holder bracket (OXQ-MCB)	Single	£35.00
OXQ-MDC	<b>Modura Claw ONLY</b> - fits to holder bracket (OXQ-MCB)	Single	£30.00

## EnviteC OxiQuant S Portable Oxygen Monitor

**ENVITEC**  
Way ahead in technology

- Compact and lightweight
- Easy to use and calibrate
- Automatic switch off when not in use
- Accurately measures 0-100% oxygen to 0.1% vol. O2 accuracy
- Responds in less than 10 seconds to 90% of final value at 25 C
- 1 year warranty

Part No	Description	Qty	Price
046-00-006	<b>EnviteC OxiQuant S Oxygen Monitor</b> - Contains manual, OOI103 oxygen sensor and tee piece	Single	£162.00
OOI103	<b>EnviteC Oxygen Sensor</b>	Single	£74.67
OXQ-TP	<b>Reusable T Adapter for O2 Analysers</b> - Male / Female 22mm fitting	Single	£10.80

## EnviteC Multi-Compatible Oxygen Sensors

**ENVITEC**  
Way ahead in technology

- Accurate, fast and reliable response
- Excellent repeatability and signal stability
- Manufactured by EnviteC who produce the world's largest range of compatible oxygen monitors and cells
- Offer major cost savings with no compromise in performance
- Designed and manufactured according to ISO:9001 and EN13485
- Resistant to N<sub>2</sub>O
- 1 year warranty

# Simcube

The world's first complete vital signs simulator

- Portable design - 76 x 76 x 89mm cube, weighs just over 1kg
- Encased in scratch resistant vinyl jacket for quiet operation
- Versatile - can be powered by the battery boost pack (where specified for over 200 NIBP simulations from x4 AA batteries or by mains power)
- Rugged - drop tested 50 times without failure

## Specifications

### SC-1 SimCube NIBP Simulator

Combines the functions of both a manometer and an NIBP simulator. NIBP function has four modes: Manometer (0-480 mmHg), Adult (120/80mmHg), Neonatal (70/40 mmHg), and Hypertensive (190/120 mmHg).

**Includes a choice of NIBP adaptor\*.**

### SC-2 SimCube NIBP Simulator with ECG, Pacer and Respiration

Includes four NIBP modes: Manometer (0-480 mmHg), Adult (120/80 mmHg), Neonatal (70/40 mmHg), and Hypertensive (190/120 mmHg) and ten snaps for 3-, 5- or 12-lead ECG simulation. Pacer and respiration simulation allow testing of primary patient monitor hardware circuits.

**Includes ECG extenders and a choice of NIBP adaptor\*.**

### SC-3 SimCube NIBP Simulator with Peak Detect

NIBP function with the following modes: Manometer (0-480 mmHg), Adult (120/80 mmHg), Neonatal (70/40 mmHg), and Hypertensive (190/120 mmHg). Peak detect mode latches the highest pressure value sensed, in 0.5 MMHg steps.

**Battery boost available. Includes a choice of NIBP adaptor\*.**

### SC-4 SimCube NIBP Simulator with Peak Detect, ECG, Pacer, Resp and Alarm Test

NIBP function with the following modes: Manometer (0-480 mmHg), Adult (120/80 mmHg), Neonatal (70/40 mmHg), and Hypertensive (190/120 mmHg). Ten snaps for 3-, 5- or 12-lead ECG simulation as well as pacer, respiration simulator and automated heart rate/respiration sequence. Peak detect is also provided.

**Battery boost available. Includes ECG extenders and a choice of NIBP adaptor\* as standard (SC-4) or supplied as a full kit including all five (see next page).**

### SC-5 SimCube NIBP Simulator with Peak Detect, ECG, Pacer, Respiration, Alarm Test, IBP, Arrhythmia, and Leak Test

Includes all of the features of the SC-1, SC-2, SC-3 and SC-4 with the addition of Invasive Pressures and Arrhythmia. With new expanded NIBP's, manometer range (-400 to +400) and leak testing modes, the SC-5 will replace three of your more traditional devices - patient simulators, NIBP analyzers and digital manometer.

**Battery boost available. Includes ECG extenders and a choice of NIBP adaptor\* as standard (SC-5) or supplied as a full kit including all five (next page).**

SC-5 shown with OxSim SpO2 simulator. See page 77

\* Please specify your choice of NIBP adaptor from the next page when placing your order.

Part No	Description	Qty	Price
SC-1	SC-1 SimCube NIBP Simulator*	Single	£1010.00
SC-2	SC-2 SimCube NIBP Simulator with ECG, Pacer and Respiration*	Single	£1180.00
SC-3	SC-3 SimCube NIBP Simulator with Peak Detect*	Single	£1095.00
SC-4	SC-4 SimCube NIBP Simulator with Peak Detect, ECG, Pacer, Resp and Alarm Test*	Single	£1345.00

## SimCube Kits &amp; Accessories

The SC-4 and SC-5 SimCube Simulators are also available as a kit, featuring a host of dynamic accessories in a handy carry bag.

Kits include:

SC-4 or SC-5 SimCube NIBP Simulator  
Battery Boost (allowing you to work away from a mains power source)  
x5 NIBP adaptors  
x1 IBP adaptor cable\* (SC-5KITS only)  
IBP extension cable  
Cuff jacket duo (for a controlled and repeatable cuff volume)  
ECG extender block

OXKits also include an OxSim SpO2 simulator and the SLKit includes a SimSlim device

Please see the next page to identify which SimCube model will suit your individual requirements. A full list of accessories are shown below.

\* Please specify your choice of IBP adaptor when placing your order.

## Simcube Accessories

## NIBP Adapters

SC-ADAPT-D	DINAMAP / Critikon style NIBP Connector (threaded screw)	£42.50
SC-ADAPT-M	GE / Marquette style NIBP Connector (twist on connector)	£42.50
SC-ADAPT-Q	HP Style NIBP Connector (quick disconnect style)	£42.50
SC-ADAPT-L	Spacelabs / Neonatal NIBP Connector (luer connector)	£42.50
SC-ADAPT-B	Bulb Adaptor (Used in static calibration as well as Peak Detect Mode for both the SC-3 and SC-4 models)	£39.00

## IBP Adaptor Cables

SC-IBP-Merlin	IBP adaptor cable for HP, Merlin, Philips, Agilent Monitors (Round, 8 pin, Male)	£79.50
SC-IBP-MDE	IBP adaptor cable for MDE / Spacelabs / Welch Allyn Monitors (Round, 6 pin, Male)	£79.50
SC-IBP-GE	IBP adaptor cable for GE Monitors (Round, 11 pin, Male)	£79.50
SC-IBP-Datascope	IBP adaptor cable for Datascope Monitors (Round, 6 pin, Female)	£79.50
SC-IBP-Datex	IBP adaptor cable for Datex Monitors (Round, 10 pin, Female)	£79.50
SC-IBP-NK	IBP adaptor cable for Nihon Kohden Monitors	£79.50
SC-IBP-Drager	IBP adaptor cable for Drager Monitors	£79.50

## Other Accessories

SC-EXTEND	ECG Snap Extenders (recommended if you are using snaps instead of clips with SC-2, SC-4 and SC-5)	£99.00
SC-CASE	Nylon Carrying Case for SimCubes (c/w pocket for SimSlim)	£79.50
SC-JACKET	Cuff Jacket	£42.50
SC-BATTERY	Battery Boost for SimCubes (available only for certain models)	£325.00
SC-PS-UKG	UK Power Supply for SimCubes	£39.75

# Simslim

## Multi Parameter Patient Simulator

The SimSlim® Multi-parameter Patient Simulator offers 50 simulations and simple, single-button operation.

The smallest comprehensive multi-parameter patient simulator on the market (17 x 3.2 x 2.0cm). Drop tested 50 times with no failures.

### Specifications

#### 12 Lead ECG

8 Heart Rates: 30, 60, 90, 120, 140, 160, 200, 240 bpm  
10 Arrhythmias: NSR with PVCs, VTACH, VFIB, Asys, Bigeminy, Pacer, Trigeminy, ST+, 2nd Deg. Block, Square Wave

#### Respiration

8 Selectable Rates: 15, 30, 45, 60, 70, 80, 100, 120 bpm

#### 4 Invasive Blood Pressure Channels

8 Dynamic: 120/80, 60/30, 30/10, 20/10, 125/15, 60/5, 8/2 and 4/1 mmHg  
7 Static: 0, 25, 50, 100, 150, 200, 250 mmHg

#### Cardiac Output Simulation

3, 5 and 7 l/min (no adapter cable required)

#### YSI 400 and 700 Temperature Simulations

25, 37 and 40 degrees Celsius

#### Superior Battery Life

Up to 10 years, no charging or changing required (depending on usage)

\* Please specify your choice of IBP adaptor from page 77 when placing your order.

Shown with kit - see page 77

Part No	Description	Qty	Price
SC-SIMSLIM	SimSlim Patient Simulator with Carry Case, IBP Extension Cable*, Temperature Cable, User Manual	Single	£1445.00

# OxSim

Pulse Oximeter Tester

The OxSim® Optical SpO2 Simulator allows you to test a whole pulse oximetry system, including the sensor. It is compact (6.4 x 6.4 x 3.2cm), lightweight (5 oz.) and efficient (8 hours of continuous use from x1 AA battery). The OxSim is easy to operate with just two buttons giving access to four saturation values, three heart rates and two perfusion levels. Utilizing optical technology, the OxSim® SpO2 simulator tests your SpO2 monitoring systems thoroughly, quickly, and accurately.

### Specifications

Saturation	Heart Rate	Perfusion Index approx.
85%	80 bpm	2.0
95%	40 bpm	2.0
98%	80 bpm	2.0
98%	140 bpm	2.0
99%	80 bpm	0.2

Shown with kit - see page 77

# Nerve Stimulation

## LifeTech® EzStim II Dual Purpose Nerve Stimulator

- Versatile pocket sized Nerve Stimulator automatically becomes either a full function Nerve Locator or a Neuromuscular Block Monitor
- Easy to read bright LCD continuously displays all instrument settings and battery status
- eShield protects against electromagnetic interference
- Can be used with the SoloStim Foot Control accessory allowing hands free operation and increases the ease, rapidity and accuracy of current adjustment
- Audible and visual warning of any open circuit or high resistance condition
- Detachable lead set allows quick and easy replacement of patient leads
- Function specific electrode connectors guard against inappropriate use of stimulator
- Large high sensitivity control knob facilitates precise current adjustment
- Pause mode allows changing stimulus parameters without stimulating
- Rugged optional protective booth and IV pole mount
- Comes fully equipped with Peripheral Nerve Stimulation Leads (NSL-5 and RBW-5L), Nerve Location Leads and Operating Manual
- 2 year warranty

Part No	Description	Qty	Price
LTES400	LifeTech® EzStim II Dual Purpose Peripheral Nerve Stimulator	Single	£415.00
LTMB5MOUNT	Mounting Bracket - for use with LifeTech® EzStim II Nerve Stimulator	Single	£42.84
LTPBPROTECTIVE	Protective Rubber Boot - for use with LifeTech® EzStim II Nerve Stimulator	Single	£41.02

## LifeTech® Tracer III Digital Nerve Locator

- Small and durable pocket size digital Nerve Locator which optimises the ease and convenience of performing peripheral nerve blocks
- Easy to read large LCD continuously displays all instrument settings and status parameters
- Pause mode allows changing stimulus parameters without stimulating
- Audible 'chirp' indicator of pulse delivery and amplitude frees the operator from having to watch the display. Chirp volume is adjustable to be optimal for any environment. Both audible and visual warnings indicate any discrepancy between actual current and selected current
- Adjustable pulse width allows selective stimulation of motor or sensory fibres
- Detachable lead set allows quick and easy replacement of patient leads
- Can be used with the SoloStim Foot Control accessory allowing hands free operation and increases the ease, rapidity and accuracy of current adjustment
- Shown in image with protective rubber booth
- Comes fully equipped with RBW-5L electrode lead set, 9V alkaline battery and durable moulded polyethylene carry case
- 2 year warranty

Part No	Description	Qty	Price
LTNL3TRACER	LifeTech® Tracer III Digital Nerve Locator	Single	£495.00
LTMB5MOUNT	Mounting Bracket - for use with LifeTech® Tracer III Digital Nerve Locator	Single	£42.84
LTPBPROTECTIVE	Protective Rubber Boot - for use with LifeTech® Tracer III Digital Nerve Locator	Single	£41.02

## LifeTech® MiniStim MS-IVA Stimulator

- Features low battery detection, FET based output circuitry and enhanced battery compartment
- Compact and durable
- Simple to use interface
- Can be used in the operating room, post anaesthesia care and critical care environments. MS-IVA model includes electrosurgery certification and enhanced keypad and battery compartment designs. The MS-IVA model can also be used for neuromuscular monitoring in the operating room
- Comes fully equipped with two 60cm extension leads with small alligator clips (EL-2MTP) and bipolar diagnostic probe
- 2 Year Warranty

Part No	Description	Qty	Price
LTMSIVA	LifeTech® MiniStim MS-IVA Stimulator	Single	£135.00

## Foley Catheter Insertion Trays

- Self contained kit with all the materials required to insert a foley catheter
- Packed sterile
- The kit includes; a foley catheter, plastic forceps, PVPI cotton balls, prefilled 20cc syringe of sterile water, lubricant, 1000ml urine bag, 12x75 test tube, gauze pads, fenestrated drape, underpad, gloves, kidney-shaped basic and outer tray

Note: Other items and custom trays are available on request.

Part No	Description	Qty	Price
PU140002	Silicone Foley Catheter Insertion Tray with 2000ml Drainage Bag	Single	£POA
PU140003	Silicone Foley Catheter Insertion Tray with 400ml Urine Meter Drainage Bag	Single	£POA
PU140005	Silicone Temperature Sensing Foley Catheter Tray with 2000ml Drainage Bag	Single	£POA
PU140006	Silicone Temperature Sensing Foley Catheter Tray with 400ml Urine Meter Drainage Bag	Single	£POA

## Two-Way Foley Catheters

- 100% medical grade silicone
- Paediatric (310mm) and standard (400mm) lengths
- If you are unable to find the catheter you require please call us
- 400 series temperature probe with standard twin pin connections are optional, please see below.

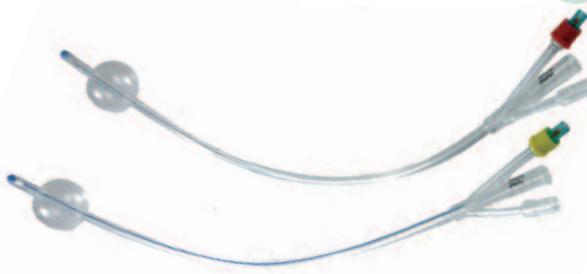

Part No	Description	Qty	Price
<b>Standard Range</b>			
PU122106	PROACT Silicone 2 Way Foley Catheter 6FR - Balloon Capacity - 1.5/3cc	10	£15.30

# Laryngoscope Blade - Fitting Guide

In order to determine which PROACT blades or handles will fit to your existing laryngoscopes, please examine them for the features below. All PROACT laryngoscopes comply with ISO 7376:2009.

Whilst our laryngoscopes comply with ISO 7376:2009 and associated fitting dimensions and tolerances, not all laryngoscopes on the market do. Therefore fitting issues may arise should non-compliant laryngoscopes be paired with compliant PROACT products. To ensure that you get the best safety and performance from your PROACT laryngoscope products, we would recommend that you pair them only with the correct PROACT branded item.

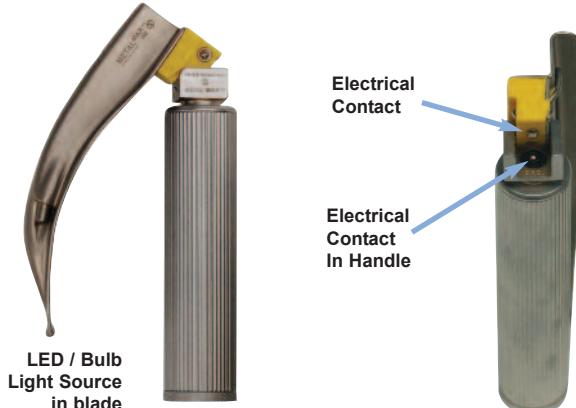

## Conventional (ISO 7376/1) Laryngoscopes

### Conventional (ISO 7376/1 Compliant) Blades have:

- A bulb or LED light source within the blade
- An electrical contact at the base of the blade block which completes the circuit when attached to the handle.

### Conventional (ISO 7376/1 Compliant) Handles have:

- An electrical contact at the top of the handle which completes the circuit when attached to the blade.
- Has a hook on bar and handle block dimensioned to prevent Green System blades clipping on and off.

## Green System (ISO 7376/3) Laryngoscopes

### Green System (ISO 7376/3 Compliant) Blades have:

- A fibre-optic type (either glass fibres or plastic) light transmission bundle
- A green spot or marker on the blade designating that it is Green System

### Green System (ISO 7376/3 Compliant) Handles have:

- A bulb/LED light source in the top of the handle.
- A green band or marker around the top of the handle designating that it is Green System
- Has a hook on bar and handle block dimensioned to prevent conventional blades clipping on and off.

## Metal Max® 90e Disposable eLED Economy Laryngoscopes

**METAL MAX® 90**  
eLED technology

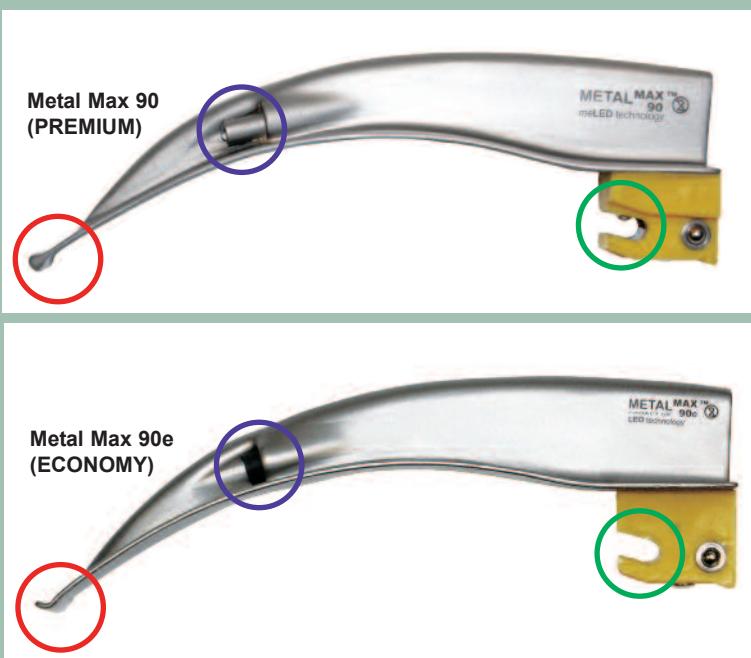

- Economical design featuring the same extraordinary strength of the original Metal Max 90 but now in a more affordable economy version
- Two sprung ball bearings and sturdy notch inside hook-on point guarantee a secure and reliable fit
- Retains metal running through the hook for maximum economy with no compromise on strength or fit
- Enclosed LED offering super bright cold light beam and protection from damage for maximum reliability
- LEDs do not create any significant heat which prevents tissue damage as well as aiding in patient comfort
- Eliminates the capital, sterilising and running costs of reusables
- Help to eliminate cross infection risks
- Supplied clean with no sterile shelf life issue
- Supplied in easy tear sachets for fast access and use
- Compatible with NEW PROACT 4.5v Battery Pack - See page 103
- Guaranteed to fit all ISO 7376/1 compliant conventional handles

Part No	NHS NPC No	Description	Qty	Price
HMM90EMAC2	FSM701	Metal Max® 90 Mac 2 Disposable Economy eLED Metal Blade	10	£29.50
HMM90EMAC3	FSM703	Metal Max® 90 Mac 3 Disposable Economy eLED Metal Blade	10	£29.50
HMM90EMAC4	FSM704	Metal Max® 90 Mac 4 Disposable Economy eLED Metal Blade	10	£29.50

### Metal Max 90e Economy Blades from PROACT - no compromise on quality

Although the Metal Max 90 and Metal Max 90e are made from the same high grade materials, there are several key differences to each blade.

- The Metal Max 90 features a soldered, atraumatic tip - the same style as a fully reusable blade. The Metal Max 90e simply has an economical pressed tip similar to many of our competitors.
- Both blades have LEDs as their light source however the Metal Max 90 is metal enclosed premium output meLED™ where as the Metal Max 90e has a more economical plastic enclosure with an economical but bright white LED.
- The Metal Max 90 features triple sprung ball bearings offering the most secure fit possible - ideal for multiple fitment testing. The Metal Max 90e has one less ball bearing and a ridge inside the blade hook on to hold it in place - this means that the 90e version is less suitable for multi-fitment use.

# Laryngoscopes

## Metal Max® 90 Disposable meLED™ Laryngoscope Blades

**METAL MAX® 90**  
meLED technology

NPC Codes  
Page 136

- Premium metal encased meLED™ light source offers a cool, super bright light and protects the meLED™ from damage
- Superb light output with no heat output from the meLED™
- The original metal through the hook blade. The Metal Max 90 range was the world's first laryngoscope blade to feature an economical plastic block with metal through the critical hook on area.
- Correctly formed blade tips with no sharp edges. The blade spatula is a reusable design with the same expensive atraumatic tip as a reusable blade
- Supplied clean with no sterile shelf life issue
- Triple sprung ball bearings give a secure fit and option of re-use on the same patient plus allowing multiple testing for use on crash trolleys etc
- Supplied in easy tear sachets for faster access and ease of use
- Guaranteed to fit all ISO 7376/1 compliant conventional handles
- Compatible with NEW PROACT 4.5v Battery Pack - See page 103

## PROACT 4.5v High Output Battery Pack

- Uniquely designed 4.5v Battery Pack that mimics x2 standard C size batteries but utilises x3 1.5v N-Cell batteries to give an output of 4.5v
- Achieves the full output capability of PROACT light sources to increase light output by approx 33%
- Provides a super bright white light from your laryngoscope, ensuring optimum illumination and best possible view
- Lower running costs - 4.5v Battery Pack lasts for up to 6 months in regular use with PROACT LED blades and handles

**WARNING:** ONLY for use with PROACT and IntuBrite LED laryngoscope blades which are designed to handle 6 volts power without damage.

Part No	Description	Qty	Price
<b>HNCELL3BB</b>	<b>PROACT 4.5v Battery Pack (only for use with PROACT blades and handles)</b> - does not include batteries	Single	£10.00
<b>NCELL-REG</b>	<b>GP Super Alkaline N Cell Batteries (NON-Rechargeable)</b>	28	£5.25

## Metal Max® 6V Disposable Handle with Built in Batteries

- Full metal disposable 6v handle designed to achieve the full output capability of PROACT LED light sources
- Increases light output by approx 33% and provides a super bright white light from your laryngoscope, ensuring optimum illumination and best possible view
- Lightweight lithium batteries activated by a pull tab give a long battery shelf life, ready for use exactly when you need it
- Long battery life - over 5 hours continuous illumination
- 31% lighter than the equivalent handle used with C size batteries
- Fast and easy battery removal at end of life plus Eco friendly battery technology
- Supplied clean in easy to open sachets with no sterile shelf life issue

**WARNING:** ONLY for use with PROACT and IntuBrite LED laryngoscope blades which are designed to handle 6 volts power without damage.

# Laryngoscopes

## IntuBrite™ UV Laryngoscope System

### Why two bulbs?

IntuBrite™ manufacture uniquely designed laryngoscope blades from surgical-grade, stainless steel. These are custom-fitted with a pair of proprietary, UV and white LED bulbs (blacklight and whitelight), with wavelengths specifically "tuned" to deliver precisely the correct illumination. This provides their unique anatomy-differentiating and almost glareless view.

The combination of these two lights gives you an enhanced view of the airway. The blended waveform eliminates the "whitewash" effect of other lighting systems on the market and gives you a high definition view of the airway.

Specially moulded medical-grade plastic has been bonded to the surgical stainless material to form the "snap-in" base which locks each blade to the laryngoscope handle prior to use and provides power transition from the handle to the lights in the blade.

### What is the effect of the UV light in the airway?

The UV light works in a higher frequency (wavelength) than white lights, in the visible spectrum. It overpowers the lower end of the white light wavelength where the reds and yellows are that cause the whitewash effect. The UV light reduces the scatter that you get from just a white light, and gives you a clear, clean, and crisp view of the airway.

### Will this make the cords glow?

You will not see a "glow in the dark" effect in relation to the cords. Because IntuBrite™ offers such a bright view of the airway, there is no dark and therefore no glowing. What you will see is a pronounced view of the vocal cords due to the effect of the UV light on the phosphorescent properties of the vocal cords.

IntuBrite™ Starter Pack

Standard intubation

IntuBrite™ intubation

Images taken from slideshow on IntuBrite™ website. See [www.intubrite.com](http://www.intubrite.com) to see the difference for yourself

## IntuBrite™ Stylets & Accessories

- IntuBrite™ blades and handles are complimented by fluorescent coated stylets which react under the UV (black) light to guide positioning right through the vocal cords and into the tracheal opening
- Available in both 06 Fr and 08 Fr sizes

Part No	Description	Qty	Price
IBFS1050	IntuBrite™ Fluorescent Coated Stylet - 06 Fr	10	£26.50
IBFS1051	IntuBrite™ Fluorescent Coated Stylet - 08 Fr	10	£26.50

## IntuBrite™ High Visibility LED Laryngoscope Blades

- Uniquely designed 'two bulb' system with a pair of proprietary, UV and white LED bulbs (blacklight and whitelight)
- Constructed from stainless steel with a medical grade plastic block
- Tested to 55lbs of pressure which exceeds ISO7376:2009 requirements
- Two sprung ball bearings ensure a correct fit to the handle
- Pop off blade design ensures the blade and handle do not come into contact in order to minimize contamination
- ONLY Suitable for use with autoclavable IntuBrite™ handles (below) or disposable Metal Max 6V handles with pull tab battery activation (see page 95)

Part No	NHS NPC No	Description	Qty	Price

IBBD1034	FSM1194	IntuBrite™ LED Mil 4 Disposable Metal Blade	10	£85.00

## IntuBrite™ Autoclavable Laryngoscope Handles

- Ergonomically designed with pistol grip style finger grooves
- Powered by a 4.5V alkaline battery for maximum efficiency\*
- Constructed from solid aluminium and offering a robust click-in steel connecting head
- Covered by a product lifetime warranty
- Autoclavable to 138°C
- Choice of three styles available:
  - The EMAX handle is a completely redesigned curved handle which offers a better lift angle and a more positive gripping surface
  - The EFLEX handle is made with paediatric patients in mind being a slightly shorter handle with deep finger grips. The arc in the handle provides a perfect angle for proper technique and mandible lift.
  - The ECLASSIC handle retains the signature pistol grip and adds a subtler angle for an ergonomic mandible lift in a more familiar straight design

\* Only for use with IntuBrite™ or PROACT meLED™ laryngoscope blades

Part No	NHS NPC No	Description	Qty	Price

## PRO-Breathe® Silicone Reusable Laryngeal Airway

**SR range™**

NPC Codes  
Page 196

**LATEX**

- Premium quality, high end silicone construction with unbeatable value
- Smooth integrated design offering an optimum feel and superb seal with less risk of patient trauma
- Coloured coded pilot balloons clearly marked with size make selection easy
- Clearly marked inflation volume and guide lines for fast and easy insertion
- Transparent connectors allowing for easy observation (as recommended by EGBAT report)
- New improved rigid blister packaging prevents deformation in storage
- Autoclavable up to 40 times and supplied with a record card
- Available in a full range of sizes

# Endotracheal Tubes

## Parker Flex-Tip® Endotracheal Tube

- Feature a soft flex-tip at the end of tube to aid in easy insertion
- Small tapered tip of the Parker Flex-Tip® tube can be introduced into a short, narrow glottic opening more easily than the broader tip of a standard tube
- The advanced Parker Flex-Tip® features a rounded tip which flexes upwards, leaving little or no impression in a soft substance, unlike the relatively rigid tip of a standard ET tube. The tip returns to the original shape when the force is released.
- Durable but soft with a cuff wall of only 8 microns thickness
- The 37° bevel of the Parker tube, plus a curve to enable better visualisation of the tip of the tube (as compared to the 45° bevel tip of a standard tube) as it approaches the glottic opening
- Constructed from specially selected soft transparent medical grade PVC plastic
- Clearly marked with guidelines, depth markings and radio opaque centre line
- Fully disposable preventing cross infection and contamination
- Complete range of sizes available in both cuffed and uncuffed varieties
- Cuffed tube shown in image

Part No	Description	Qty	Price

# Introducers & Stylets

## PRO-Breathe® Single Use Intubation Stylets

### The PRO-Breathe® Range

- Malleable aluminium with a low friction plastic sheath to aid insertion of tubes
- Fully roundedatraumatic tip to minimise risk of patient trauma
- Disposable to aid in infection control
- Supplied sterile and individually packaged in easy to open sachets

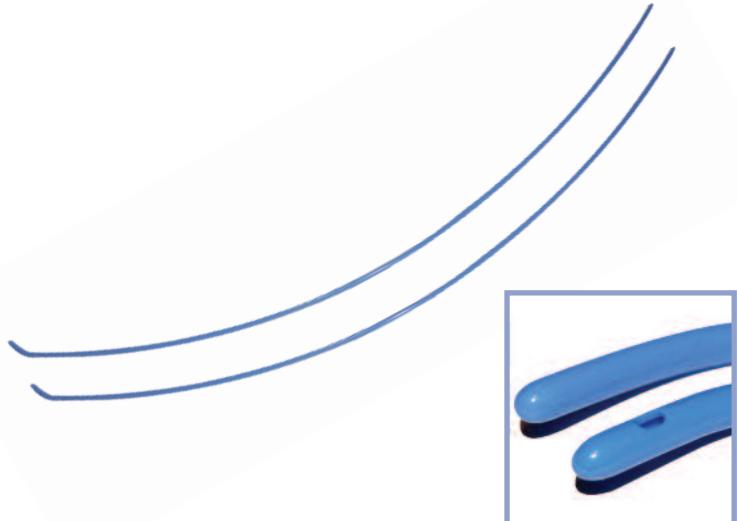

Part No	NHS NPC No	Description	Qty	Price
PBS6FR	FDF111	PRO-Breathe® Single Use Intubation Stylet - 06 Fr	20	£11.50
PBS10FR	FDF112	PRO-Breathe® Single Use Intubation Stylet - 10 Fr	20	£11.50
PBS14FR	FDF113	PRO-Breathe® Single Use Intubation Stylet - 14 Fr	20	£11.50

## PRO-Breathe® Single Use ET Tube Introducers (Bougies)

### The PRO-Breathe® Range

- Reinforced with memory to mimic gum elastic bougies
- Ultra smooth surface for low friction
- New improved atraumatic tip to minimise risk of patient trauma
- Graduation mark at each centimetre
- Angled coudé tip for ease of intubation
- Supplied sterile, individually packaged in easy to open sachets
- Vented lumen option available for oxygen feed if required

Custom filled bougie holders available supplied with up to 6 bougies of your choice. Please call for price and part number.

## PRO-Breathe® Premium Single Use ET Tube Introducers (Bougies)

The  
**PRO-Breathe®**  
Range

- Premium bougie range with high gloss, low friction outer surface to improve tube glide over bougie
- Low point of pressure tip reduces the risk of accidental trauma
- Available in a variety of lengths and diameters, each with or without angled (coudé) tip, allowing greater choice for clinicians
- Barium tip for x-ray guidance if required
- Highly visible colour for improved positioning in poor light
- Extra tip graduations allow for improved laryngeal inlet entry and exit guidance
- Robust outer tube prevents damage in transit and storage
- Single use, reducing the risk of cross infection
- Individually packed sterile
- Vented introducers available with side ports to allow delivery of oxygen via connector supplied (coloured blue as opposed to yellow for easy identification)

# Head Positioning Device

## PRO-Breathe® Head Positioning Device

- Supplied with mirror to provide a clear view of the face and eyes of the prone patient during surgery
- Soft comfortable foam and ergonomic design supports the head and neck whilst reducing pressure around the patients eyes and face
- Benefits whilst reducing the risk of nerve damage and maintaining the optimum airway during anaesthesia
- Allows for secure positioning of airway on either left or right side of patient
- Disposable product to aid infection control
- Supplied clinically clean to avoid sterile shelf life issues

## PRO-Breathe® Oxygen Recovery Adapter

Any of the PRO-Breathe® Filter HME range (with or without Cath Mount) can be supplied with an optional oxygen recovery adapter which adapts them for use on spontaneously breathing patients following general anaesthesia (see our website for a demonstration video).

- Saves time and money as T-Bag™ / T-Piece is no longer required
- Reduces clinical waste
- Patient benefits from humidified O2 delivery and adjustable flow rate (adjusting the flow meter will increase the percentage of oxygen delivered)
- Threaded connectors ensure a secure fit when connecting from filter/cath mount/HME to O2 recovery device (please use a push and twist action)
- May be supplied free of charge when a call off order for our Filter HME or Induction packs is placed - call us for details

The  
**PRO-Breathe®**  
Range

**NEW FOR  
2011**

Simply separate the components and place the catheter mount in front of the filter HME. Firmly push and twist the O2 recovery adaptor onto the sampling port of the filter and connect the oxygen tubing onto this to deliver an adjustable supply of humidified oxygen to the patient.

<b>PTK3222X</b>	<b>Paediatric Kit with Suction</b> (as above)	Single	£44.95

## Build your own Patient Transfer Kit

Customise the PROACT Patient Transfer Kit to suit your needs by noting down the number which corresponds to your selection on the next page.

Your product code will begin 'PTK' then consist of the numbers from the opposite page followed by an X if you want to include a Puma Hand Suction Pump. When you have completed your selection please check the code carefully, to ensure that it matches. If you are in any doubt, please call our Sales & Customer Support team to discuss your requirements.

Each kit will be supplied in a transparent carry bag that will be clearly marked as an Adult or Paediatric Patient Transfer Kit (depending on the size of the BVM selected). The bag will have a single use sealing tag around the handle (so that it is clear if anything has been removed) and a list of contents to show what is inside. Each item within the kit will be supplied individually wrapped and if you order the Emergency Suction Pump this will be supplied separately to your Transfer Kit.

Prices for the kits with or without Suction are shown above. Please note that all customised kits will be subject to a minimum order quantity of 5 kits.

For further customisation please see [www.proactmedical.co.uk/patienttransferkit](http://www.proactmedical.co.uk/patienttransferkit) and/or discuss your requirements with us - we will be pleased to help.

# Recovery & Resuscitation

## PRO-Breathe® PUMA Manual Suction Pump

- Hand powered and can be used anywhere
- Portable, compact and lightweight
- Easy to use with one hand
- Disposable collection jar and catheters help prevent infection and contamination
- Auto stop whenever full

Part No	Description	Qty	Price
PB-1000MSP	<b>PUMA Manual Suction Pump</b> - includes disposable collection jar with adult & child Catheter	Single	£27.95
PB1000IC	<b>Disposable Infant Catheter</b> - for use with PUMA Manual Suction Pump	Single	£2.25
PB-1000CJC	<b>Replacement Disposable Collection Jar with Adult and Infant Catheter</b> - for use with PUMA Suction Pump	Single	£6.85

## Heavy Duty Emergency Portable Aspirator

- Silent, compact and rugged - ABS case shock resistant
- Reliable and very quiet double piston motor
- Choice of disposable or autoclavable 1000ml jars to help prevent infection and contamination. Both come with integrated protection filter and shut off valve
- Allows direct operation from 12VDC vehicle source
- 12V charger, and 1000cc jar supplied
- 3 Year Warranty

Part No	Description	Qty	Price
PSU95020W	<b>Emergency Portable Aspirator (White)</b> - with 1000cc jar and disposable Abbot Liner	Single	£730.00
PSU95020Y	<b>Emergency Portable Aspirator (Yellow)</b> - with 1000cc jar and disposable Abbot Liner	Single	£730.00
PSU95021W	<b>Emergency Portable Aspirator (White)</b> - with 1000cc autoclavable jar	Single	£730.00
PSU95021Y	<b>Emergency Portable Aspirator (Yellow)</b> - with 1000cc autoclavable jar	Single	£730.00
PSU95051	<b>Mains Charger for Emergency Portable Aspirator</b>	Single	£100.00
PSU95022	<b>Wall Bracket with Integrated 12V Charger</b> - for Emergency Portable Aspirator	Single	£182.00

# NHS Supply Chain

## The NHS Supply Chain & PROACT

PROACT have been working with NHS Supply Chain for many years and now have more products available via the NHS Supply Chain catalogue than ever before.

They aim to deliver value and cost savings to the NHS and can offer benefits such as:

- **Convenient ordering** – their online ordering system allows you to order all of your products quickly and easily
- **E-commerce and consolidated invoicing** – end-to-end electronic transaction capability helps you to reduce purchasing and operational costs
- **Reliability** – Their service level is consistently above 98%\* and the majority of products are available for delivery within two days of ordering

\*Calculated by NHS Supply Chain figures of percentage number of lines supplied in full against lines requisitioned over the last five years.

## NHS Supply Chain

Pulse Oximetry

Patient Assessment

Blood Pressure Monitoring

Thermometry

Airway Management

Breathing Filters

Anaesthetic Equipment

This list was up to date at the time of going to print but more products are being added all the time. Please visit our website to download the most current list or call our Customer Service team for specific items that you are looking for.

PROACT Part No.	Description	NHSSC NPC CODE
<b>Pulse Oximetry</b>		
9500	Nonin Onyx Finger Pulse Oximeter with carry case, neck cord & batteries	FBC134
9550	Nonin Onyx II Finger Pulse Oximeter with carry case, neck cord & batteries	FBC135
2500	Nonin 2500 PalmSAT hand held oximeter c/w 1 adult 8000SM-1 sensor and deluxe carry case	FBC136
2500A	Nonin 2500A PalmSAT hand held oximeter c/w Adult 8000SM-1 sensor & deluxe carry case	FBC137
8500	Nonin 8500 hand held oximeter c/w Adult 8000SM-1 sensor & deluxe carry case	FBC138
7500	Nonin 7500 bedside/transport oximeter includes 1 Adult 8000SM-3 sensor	FBC139
MAPSENSE	Nonin bedside/transport PulseSense oximeter with Adult 8000AA-1 sensor	FBC140
MALSENSE	Nonin bedside/transport LifeSense capnograph & oximeter with 1 Adult 8000AA-1 sensor (KPA)	FBC141
8000AA-1	Nonin Reusable Adult Finger Clip Sensor (1m Cable)	FBC089
8000AP	Paediatric Finger Clip Sensor (1m Cable)	FBC186
8000J	Nonin Reusable Adult Flex Sensor (1m Cable) includes 25 x 8000JFW Adult Flexwraps	FBC187
8000JFW	Nonin Adult Flexiwrap Disposable Adhesive Sensor Wrap for 8000J (Pack of 25)	FBC188
8008J	Nonin Reusable Infant Flex Sensor (0.5m Cable) includes 25 x 8008JFW Infant Flexwraps	FBC100
8000SL-1	Nonin Reusable Adult Soft-Tip Finger Sensor (1m Cable)	FBC091
8000SS-1	Nonin Reusable Adult Soft-Tip Finger Sensor (1m Cable)	FBC092
9570-G-EN	Nonin GO2 Finger Pulse Oximeter - Green	FBC189
7500FO	Nonin 7500FO MRI Conditional Pulse Oximeter	FBC184
8000FC-30	Nonin Adult / Paediatric Fibre Optic Compatible Sensor	FBC185
<b>Patient Assessment</b>		
10772-532	Riester pack of 100 disposable ear specula .2mm blue - for L1 L2 and Ri-Mini Otoscopes	FFC056
10772-531	Riester pack of 100 disposable ear specula 2.5mm blue - for L1 L2 and Ri-Mini Otoscopes	FFC057
10772-533	Riester pack of 100 disposable ear specula 3mm blue - for L1 L2 and Ri-Mini Otoscopes	FFC058
10772-534	Riester pack of 100 disposable ear specula 4mm blue - for L1 L2 and Ri-Mini Otoscopes	FFC059
10772-535	Riester pack of 100 disposable ear specula 5mm blue - for L1 L2 and Ri-Mini Otoscopes	FFC060
R3011	Riester Ri-Mini 2.5V halogen Ophthalmoscope set with metal clip on handle. Supplied with case	FFC061
R3010	Riester Ri-Mini 2.5V halogen Otoscope set with metal clip on handle. Supplied with case	FFC062
R3012	Riester Ri-Mini 2.5V halogen Oto-Ophthalmoscope set with metal clip on handle. Supplied with case	FFC063
R1126-P1007	Riester Ri-Scope L1 3.5V xenon Ophthalmoscope set with handle and battery	FFC064
R1518-P1003	Riester Ri-Scope L1 3.5V xenon Otoscope set with handle and battery	FFC065
R1729-P1035	Riester Ri-Scope L1 3.5V xenon Oto-Ophthalmoscope set with handle and lightweight battery	FFC066

## Blood Pressure Monitoring

TL39023	Blood Pressure Cuff Disposable - Adult double hose with screw connector	FFF315
TL39053	Blood Pressure Cuff Disposable - Adult Extra Long double hose with screw connector	FBF251
TL39071	Blood Pressure Cuff Disposable - Large Adult Extra Long double hose with screw connector	FBF256
TL39072	Blood Pressure Cuff Disposable - Thigh double hose with screw connector	FFF313
TL39030	Blood Pressure Cuff Disposable - Small child/infant double hose with submin/locking connector	FBF252
TL39031	Blood Pressure Cuff Disposable - Child double hose with submin/locking connector	FBF253
TL39032	Blood Pressure Cuff Disposable - Small adult double hose with submin/locking connector	FBF254
TL39033	Blood Pressure Cuff Disposable - Adult double hose with mated submin locking connector	FBF259
TL1389	BP Tubing - Horseshoe	FFF358
TL3606CK	Blood Pressure Cuff Reusable - Small Child/Infant double hose with screw connector	FFF134
TL3605CK	Blood Pressure Cuff Reusable - Child double hose with screw connector	FFF135
TL3604CK	Blood Pressure Cuff Reusable - Small Adult double hose with screw connector	FFF136
TL3603CK	Blood Pressure Cuff Reusable - Adult double hose with screw connector	FFF137
TL3602CK	Blood Pressure Cuff Reusable - Large Adult double hose with screw connector	FFF138
TL3602XLCK	Blood Pressure Cuff Reusable - Large Adult Extra Long double hose with screw connector	FBF269
TL3603XLCK	Blood Pressure Cuff Reusable - Adult Extra Long double hose with screw connector	FBF268

PROACT Part No.	Description	NHSSC NPC CODE
TL3600CK	Blood Pressure Cuff Reusable - Thigh double hose with screw connector	FFF139
TL3606DX	Blood Pressure Cuff Reusable - Small child/infant double hose with mated submin connector	FBF274
TL3605DX	Blood Pressure Cuff Reusable - Child double hose with mated submin locking connector	FBF275
TL3604DX	Blood Pressure Cuff Reusable - Small adult double hose with mated submin locking connector	FBF281
TL3603DX	Blood Pressure Cuff Reusable - Adult double hose with mated submin locking connector	FBF278
TL3603XLDX	Blood Pressure Cuff Reusable - Adult Extra Long double hose with mated submin locking connector	FBF277
TL3602DX	Blood Pressure Cuff Reusable - Large adult double hose with mated submin locking connector	FBF280
TL3602XLDX	Blood Pressure Cuff Reusable - Large Adult Extra Long double hose with mated submin locking connector	FBF279
TL3600DX	Blood Pressure Cuff Reusable - Thigh double hose with mated submin locking connector	FBF345
TL3606SHP	Blood Pressure Cuff Reusable - Small child/infant single hose with bayonet connector	FBF270
TL3605SHP	Blood Pressure Cuff Reusable - Child single hose with bayonet connector	FBF276
TL3604SHP	Blood Pressure Cuff Reusable - Small adult single hose bayonet connector	FFF242
TL3603SHP	Blood Pressure Cuff Reusable - Adult single hose with bayonet connector	FFF243
TL3603XLSHP	Blood Pressure Cuff Reusable - Adult Extra Long single hose with bayonet connector	FBF272
TL3602SHP	Blood Pressure Cuff Reusable - Large adult single hose with bayonet connector	FFF244
TL3602XLSHP	Blood Pressure Cuff Reusable - Large Adult Extra Long adult single hose with bayonet connector	FBF273
TL3600SHP	Blood Pressure Cuff Reusable - Thigh single hose with bayonet connector	FFF245
TL39010	Blood Pressure Cuff Disposable - Small child/infant double hose with screw connector	FBF250
TL39012	Blood Pressure Cuff Disposable - Small adult double hose with screw connector	FFF314
TL39034	Blood Pressure Cuff Disposable - Extra Long Adult double hose with mated submin locking connector	FBF260
TL39035	Blood Pressure Cuff Disposable - Large adult double hose with mated submin locking connector	FBF266
TL39036	Blood Pressure Cuff Disposable - Extra Long Large adult double hose with mated submin locking connector	FBF262
TL39037	Blood Pressure Cuff Disposable - Thigh double hose with mated submin locking connector	FBF263
TL39045	Blood Pressure Cuff Disposable - Small child/infant single hose with bayonet connector	FBF255
TL39100	Blood Pressure Cuff Disposable - Child single hose with bayonet connector	FBF261
TL39085	Blood Pressure Cuff Disposable - Small adult single hose bayonet connector	FFF309
TL39048	Blood Pressure Cuff Disposable - Adult single hose with bayonet connector	FFF310

PROACT Part No.	Description	NHSSC NPC CODE
TL39019	Blood Pressure Cuff Disposable - Adult Extra Long single hose with bayonet connector	FBF257
TL39230	Blood Pressure Cuff Disposable - Large adult single hose with bayonet connector	FFF311
TL39060	Blood Pressure Cuff Disposable - Large Adult Extra Long single hose with bayonet connector	FBF258
TL39015	Blood Pressure Cuff Disposable - Thigh single hose with bayonet connector	FFF316
TL39190	Blood Pressure Cuff Disposable - Neonatal size 1 with single hose and male luer connector	FBF246
TL39191	Blood Pressure Cuff Disposable - Neonatal size 2 with single hose and male luer connector	FBF242
TL39192	Blood Pressure Cuff Disposable - Neonatal size 3 with single hose and male luer connector	FBF247
TL39193	Blood Pressure Cuff Disposable - Neonatal size 4 with single hose and male luer connector	FBF248
TL39194	Blood Pressure Cuff Disposable - Neonatal size 5 with single hose and male luer connector	FBF249
TL99818	Blood Pressure Cuff Disposable - Neonatal size 2 double hose with luer connector	FFF305
TL99873	Blood Pressure Cuff Disposable - Neonatal size 3 double hose with luer connector	FFF306
TL99875	Blood Pressure Cuff Disposable - Neonatal size 4 double hose with luer connector	FFF307
TL39202	Blood Pressure Cuff Disposable - Large adult Isolation Cuff double hose with screw connector	FBF265
TL39221	Blood Pressure Cuff Disposable - Thigh Isolation Cuff single hose with rectus connector	FBF267
TL39222	Blood Pressure Cuff Disposable, Large adult Isolation Cuff single hose with rectus connector	FBF271
TL39223	Blood Pressure Cuff Disposable, Adult Isolation Cuff single hose with rectus connector	FBF264

## Thermometry

MSRST613-C5	MSR 1 Second Tympanic Thermometer with Case - Pack of 5	FWH041
MSRCOVER500	MSR Probe Covers - Pack of 500	FWH049

## Airway Management

HMM90MAC2	PROACT Metal Max™ 90 (MAC2) Laryngoscope Blade (Box of 10)	FSM098

# Terms & Conditions

Proact Medical Ltd (hereinafter referred to as "the Company") Terms and Conditions of Sale:

1. APPLICATION OF CONDITIONS. No conditions or stipulations in or attached to the Buyer's form or order which are inconsistent with the Company Terms and Conditions of Sale or which purport to add to or modify them in any way shall have any effect unless expressly accepted in writing by the Company. In the absence of such acceptance by the Company the Buyer shall be deemed to have withdrawn or waived his said conditions or stipulations and to contract solely on the basis of the Company's Terms and Conditions of Sale. The Company's separate Ordering Procedure is an inclusive part of the Company's Terms and Conditions of Sale and is available within the Price List and separately on request.
2. QUOTATIONS. A quotation refers only to the enquiry to which it specifically relates and must be mentioned upon any order placed. It must be considered as withdrawn at the expiration of 30 days from its date unless otherwise stated therein or unless it has been previously withdrawn by the Company in writing.
3. ACCEPTANCE OF ORDER. All quotations are subject to confirmation by the Company on receipt of Buyer's official order and no contract shall be concluded until goods have been despatched by the Company. The company reserves the right to accept or refuse any order and a contract is established only when order confirmation has been communicated to the Buyer.
4. CANCELLATION, SUSPENSION OR VARIATION OF ORDERS. No cancellation, suspension or variation of any order shall be effective unless in writing and until accepted by the Company and such acceptance will be given only subject to adequate compensation for costs incurred in connection with the order. Any extra costs incurred by the Company owing to lack of instructions or mistaken instructions from the Buyer shall be added to the price and paid for accordingly. The Company reserves the right to refuse to accept any cancellation of an order and in particular no cancellation will be accepted on orders for goods to special requirements or not normally stocked by the Company if the manufacture or obtaining by the Company of such goods is in process or has been completed.
5. LIMITS OF ORDER. A quotation or an acceptance of order includes only such goods, accessories and work as are specified therein and, unless otherwise stated, the Buyer assumes responsibility for the capacity and suitability of the goods for his purpose.
6. PRICES (a) All prices are quoted subject to revision or withdrawal without notice. (b) All prices in respect of orders for forward delivery are subject to the Company's right to increase them if they are affected by general increases in cost of labour or raw material or other unforeseen causes. (c) All goods will be charged for as per quotation or at prices current at the time of despatch if affected by general increases in cost of labour or raw materials or other unforeseen causes and all orders are accepted by the Company or that understanding. (d) All prices quoted are "ex Works" unless otherwise agreed and packing will be charged for, but all cases and crates returned to the Company carriage paid and in good condition within 10 days of despatch thereof by the Company will be credited in full. (e) All items quoted "ex-Stock" are subject to prior sale.
7. TESTS. Goods manufactured by the Company are carefully inspected and, where practicable, submitted to standard tests before despatch. If special tests or tests in the presence of the Buyer or his representative are required, these unless otherwise agreed, will be carried out at the Company's works and will be charged as an extra. In the event of any delay on the part of the Buyer in attending such tests after seven days notice, the test shall proceed and the requirement shall be deemed to have been met.
8. TOOLS. Any tools which the Company may construct or acquire specifically in connection with any order, notwithstanding any charges the Company may make for them, shall be and remain the Company's property and on the Company's possession and control. If for two consecutive years no orders are received from the Buyer for products to be made with such tools, the Company may make such use thereof as it desires, or otherwise dispose of them without liability to the Buyer.
9. DELIVERY. Any date or period of time stated in a quotation is an estimate and shall date from receipt by the Company of definite instructions to proceed together with the necessary information and completed drawings or patterns, if these are to be supplied by the Buyer. The Buyer shall be bound to accept the goods ordered whether available on or after the date of the termination of the period of time stated. The Company undertakes to make every endeavour to adhere to dates given but accepts no liability for failure to do so or for any delays occasioned by strikes, lockouts, trade disputes or other labour troubles, non-availability of materials defaults of subcontractors war, riot, restraint of Government, fire, accident, stoppage or interference with transport, or other contingencies beyond the Company's control nor shall such failure be deemed to be a breach of the Contract.
10. PART DELIVERIES. Proact Medical reserves the right to part-deliver an order unless instructions to the contrary are given in writing.
11. STORAGE. If the Company does not receive forwarding instruction within ten days after the date of notification that the goods have been tested or are ready for despatch the Buyer shall take delivery or arrange for storage. Otherwise the buyer shall be liable to the Company for a reasonable charge for care and custody of the goods and the goods shall be invoiced and paid for as if they had been despatched.
12. DAMAGE IN TRANSIT. The Company may decline to entertain claims for goods damaged in transit unless such damage is reported by separate notice in writing to the Company within three days of receipt of goods by the Buyer and the goods have been signed for as "not examined". In the event of non-delivery, no claims can be entertained unless a separate notice in writing of such non-delivery reaches the Company within 7 days of despatch. In the case of goods for shipment abroad the Company shall not be responsible for the loss, damage or deterioration from whatsoever cause arising to goods beyond the point of shipment. When goods are sent by the Company by a route involving sea transit, the Company shall not be liable to give notice under Section 32(3) of the Sale of Goods Act, 1983, or otherwise that they do not accept responsibility in respect thereof and they will not, unless the Buyer shall give the Company specific instructions in the behalf and pay the expenses, insure the goods or any part thereof against any loss or risk.
13. WARRANTY. The following warranty is given in lieu of and to the exclusion of any other warranty or condition either expressed or implied by statute or otherwise. All goods manufactured or supplied by the Company are warranted free from defect in workmanship or material when subjected to normal conditions of use but there are no warranties, express or implied, which extend beyond warranties set forth above. Proact Medical Ltd make no warranty of merchantability or fitness for a particular purpose with respect to the products or parts thereof. Goods delivered hereunder which shall be considered to be defective in workmanship or material and returned by the Buyer within the product's specific Warranty period (This does not apply to disposable or consumable goods) taken from date of delivery carriage paid will, if found to be defective on investigation by the Company, at the Company's discretion be replaced or repaired free of charge and returned to the Buyer carriage paid in Great Britain. Some items have specific Warranty conditions which apply as specified by the Company. The company accepts no liability whatsoever in respect of defects caused by incorrect installation, accident, misuse, neglect or wear and tear, in any attempt to strip, repair or modify any unit prior to return to the Company will invalidate the warranty. Any goods supplied or work done in remedying defects shall not extend the Company's liability under this clause beyond the time stipulated above. At the expiration of such time all further liability on the Company's part shall cease. Any consequential damage arising from defects, faulty materials or workmanship in any goods supplied by the Company shall not extend the Company's liability in any way whatsoever.
14. PERFORMANCE. Any performance figures quoted by the Company are based upon experience and are such as would be expected on test. Goods submitted to performance tests shall satisfy the Company's or Manufacturer's standard test Schedules, copies of which may be obtained on request. Special tests requested by the Buyer can be carried out, subject to written negotiations between the parties.
15. SETTLEMENT. (a) All invoices are NETT and no settlement discount is allowed unless otherwise specified. (b) Accounts are payable on receipt unless written credit terms are specifically offered. (c) No special terms of payment shall be operative unless confirmed in writing by the Company. (d) The Company reserves the right to suspend delivery in respect of any order from time to time if any account has not been paid when due. (e) Proact Medical Ltd reserves the right to apply daily (or pro-rata) compound interest at the Bank of England Interest Rate plus 2% to any invoice, underpayment or Credit or Debit Card Payment greater than 5 days overdue against stated settlement terms. (f) General: Notwithstanding delivery of the goods, we will still own them until you have paid in full for them in accordance with this contract and until all money owed by you to us pursuant to any other contract between us has been paid in full. (g) Sale of the goods: You are allowed to sell on the goods in the ordinary course of your business and if you do title to the goods sold will pass to the person who buys them from you on the delivery to them. If you sell the goods to a third party before you have paid for them then you will hold the proceeds of that sale on trust for us pending payment. We will have the right to require you to direct the third party to pay the money they would have paid to you directly to us instead and at our request you will assign to us rights or claims you have against your customers in relation to the goods. (h) Storage: Goods which are in your possession will be held by you as bailee. You must keep the goods separate and clearly identified as our property until you have paid for them. (i) Insurance: After delivery and until payment you must keep the goods fully insured. If the goods are lost, destroyed or damaged then you must hold the proceeds of the insurance for and to our order pending payment. If the goods are so damaged you are not entitled to delay paying us until the insurer of the goods has paid you. (j) Recovery of goods: We may enter your premises without notice and recover the goods, which have not been paid for in full. As between you and us, this sub-clause constitutes your authority for us to enter the premises of any other person holding the goods on your behalf and on whose property the goods may be and remove the goods. (f) ROMALPA Clause applies - any goods or services supplied by the Company to the Buyer shall remain property of the Company until respective payment has been received in full by the Company.
16. LIEN. In addition to any time to which it may be statute or otherwise be entitled the Company shall, in the event of the Buyer's insolvency be entitled to a general lien on all goods or property belonging to the Buyer in the Company's possession (although such goods or some of them may have been paid for), for the unpaid price of any other goods sold and delivered to the Buyer by the Company under this for any other contract. Directors of any Limited Companies are personally responsible, both jointly and severally, for the full amount of any Debt still owed to the company should their Limited Company or otherwise become insolvent. Placement of any Purchase Order from any Buyer is construed as full acceptance of this condition, published herein, with no exceptions.
17. DRAWINGS. All drawings, models, descriptive matter or data are supplied on the terms that they remain the Company's property and are to be returned to the Company on demand. The Buyer shall not copy, publish or communicate them or particulars of any goods supplied by the company to any other person whatsoever without the Company's permission in writing. All such drawings, models, descriptive matter or data whatsoever, including advertisement matter are intended to present a general idea of the goods in question and must not be taken as forming part of any contract.
18. PATENTS. In the event of any claim being made or action being brought against the Buyer in respect of infringement of patents, owing to or arising from the manufacture or sale by the Company of goods supplied to the Buyer hereunder and the user or sale thereof, the Buyer shall forthwith give notice to the Company of such claim or action and the Company shall be at liberty with the Buyer's assistance if required and in the name of the Buyer, if desired, but at the Company's expense, to contest the said claim or action, or conduct any negotiations for the settlement of the same. Provided the Buyer shall give such notice as aforesaid and shall render such assistance as may be required in connection with any such claim, action or negotiations and provided that all such goods and all parts thereof shall have been used for the specific purpose for which the Company supplied the same, the Company will indemnify the Buyer in respect of any such claim or action.
19. ARBITRATION. If at any time any dispute or difference whatsoever shall arise between the Company and the Buyer in relation to or arising out of a contract and either of the parties shall give to the other notice in writing of the existence thereof, failing agreement such dispute of difference shall be referred to the arbitration in England of a person to be mutually agreed upon or, failing agreement, some person appointed by the President for the time being of the London Chamber of Commerce at the request of either party. This shall be deemed to be a submission to arbitration within the meaning the Arbitration Act 1950, or any statutory modification thereof.
20. LEGAL CONSTRUCTION. Any contract entered into by the Company shall in all respects be construed in conformity with English Law.
21. SPARE PARTS. The Company does not accept responsibility for any equipment which contains spare parts not supplied by the Company or spare parts fitted by unauthorised personnel.
22. Under railway regulations, all claims for damages must be reported within 3 days from receipt of goods otherwise liability cannot be admitted.
23. No claims can be entertained for goods lost in transit if complaints not made within 14 days after despatch. All other claims must be notified within 7 days of receipt of goods.
24. \* PRICE MATCH. Proact Medical Ltd will beat or match any competitor's price for the same product or exactly equivalent product except where limited special offers may be offered or if prices are linked to volume. This offer does not apply if the matched price is less than Proact's cost price or if a competitor is "dumping" stock for whatever reason.
25. \* TRADE MARKS. Proact Medical Ltd recognise and respect the ownership of all Registered Trademarks contained herein to be the property of their respective Owners and do not imply any endorsement or affiliation with Proact Medical Ltd or any other company or person/s.
