

① 12/4/23 # 291892 issue meeting

VST BSI is manday tuesday
Issue sent.

Discussed Shipping Dates
from Suppliers then informing
customers.

CH middle man trying to get
dates.
problems with auto memos
Saying Dates + telling
customers.

maxtec supply issues. getting
Sensors from Enutec

saying manufactured by
maxtec. on the sensors they
get from IT Gambet / Enutec

VST DL asked CH to check
Certificates online.

SN-CH can you upload Divesoft
Images

CH not getting stock. Comes in
they don't tell me.

3 Sensor need a way to
stop goods.

(2) Vdsr - now Namotec
still selling to Vdsr
8010017 as wanting
on labels and Certs.
selling Vdsr to Namotec.
until completed Docs/Certs.

SN we get sensor in building
month early dated next
month.

CH No cert on website just
number.
DL Oh.

SN in Germany all week.
meeting Honeywell, Enitec

contracts run out in June.

can order 2 months after
contract.

Enitec.
put off med sensor updates
til after visit.

SN - RS do you want me to
do vanda graph too
RS - yes please

③ RS est shipping Dates
DL hover over it.

RS can you add to each Crie
DL possibly. - will look at it.

SN will go to Dehas.
asked instructions, for use
need giving to Phil.

DL pressures are not consistent.

SN need brief summary of
problems before I go to Dehas

SH to get notes to gether and
give a brief overview. include
connectors.

SN R33 sensors. RS has samples
if wanted.

RS DE type so they can have a
play.

Analox Working with IT Gambel

SN maxel + figuro Japanese
sensors. to look out for.

first few hours of Smith monitoring
2500 + 2160
Smart Sat 2

We will have a really good board
need a desktop version.

disposables are expensive
reusables have a lot in. so
ok for now.

Shiller will have Smart Start in
their Defibs.

SN want to look at standard
can sumables.

pick up models pick best
ones get list of most popular
ones.

RS so much more funding due
to COVID. New monitors.

SN Midray seems very popular.
concentrate on main ones.
philips.

Vivo ordered 96 more boards.

CH stickers & etc passed on
to SN.

SN once boards in CH to do
production.

mailing once production started,
CH ok.

CH my sign are we doing.

SN will call you next week to confirm.

0110590 Survoi RS has 4 companies. get someone to test.

exclusive maguac sensors.
Working in units not using coding.

SN order R17 lead free, from Honeywell.

RS medix incubator company
Wanting lead free version.

SN CH no eyemax mailshot until
get more in.
POVO is before we mailshot.

price renew first too.

- Tof 3D letter feed back not urgent -
- service letter cabinet SN to sent -
- flow sensors.
- scan distributor search

also on with Portugal ones,
CH getting lot of Replie
from Michael G.

Spain Contacted no Respones

France also contacted.
