Audit Date	23-6-23	Auditor Helen Lamb	

Company / ISO Section	Criteria of ISO Section	Auditor Comments / Issues
VST Ltd ISO9001:2015 7.1.5.1	<b>General</b> 7.1.5.1 General The organization shall determine and provide the resources needed to ensure valid and reliable results when monitoring or measuring is used to verify the conformity of products and services to requirements. The organization shall ensure that the resources provided: a) are suitable for the specific type of monitoring and measurement activities being undertaken; b) are maintained to ensure their continuing fitness for their purpose. The organization shall retain appropriate documented information as evidence of fitness for purpose of the monitoring and measurement resources.	Doc index Supplier Renew QA system procedures Training records
VST Ltd ISO9001:2015 7.1.5.2	<b>Measurement traceability</b> When measurement traceability is a requirement, or is considered by the organization to be an essential part of providing confidence in the validity of measurement results, measuring equipment shall be: a) calibrated or verified, or both, at specified intervals, or prior to use, against measurement standards traceable to international or national measurement standards; when no such standards exist, the basis used for calibration or verification shall be retained as documented information; b) identified in order to determine their status; c) safeguarded from adjustments, damage or deterioration that would invalidate the calibration status and subsequent measurement results. The organization shall determine if the validity of previous measurement results has been adversely affected when measuring equipment is found to be unfit for its intended purpose, and shall take appropriate action as necessary	Doc index Calibration Index QA system Supplier Renew management Renew
VST Ltd ISO9001:2015 8.5.1	<b>Control of production and service provision</b> The organization shall implement production and service provision under controlled conditions. Controlled conditions shall include, as applicable: a) the availability of documented information that defines: 1) the characteristics of the products to be produced, the services to be provided, or the activities to be performed; 2) the results to be achieved; b) the availability and use of suitable monitoring and measuring resources;	Doc index Procedure Tech files

Audit Date		Auditor	

	<p>reporting audit results.</p> <p>An audit program shall be planned, taking into consideration the status and importance of the processes and area to be audited, as well as the results of previous audits. The audit criteria, scope, interval and methods shall be defined and recorded (see 4.2.5). The selection of auditors and conduct of audits shall ensure objectivity and impartiality of the audit process. Auditors shall not audit their own work.</p> <p>Records of the audits and their results, including identification of the processes and areas audited and the conclusions, shall be maintained (see 4.2.5).</p> <p>The management responsible for the area being audited shall ensure that any necessary corrections and corrective actions are taken without undue delay to eliminate detected nonconformities and their causes. Follow-up activities shall include the verification of the actions taken and the reporting of verification results.</p> <p>NOTE Further information can be found in ISO 19011.</p>	
Viamed Ltd ISO13485: 2016 8.5.1	<p><b>General</b></p> <p>The organization shall identify and implement any changes necessary to ensure and maintain the continued suitability, adequacy and effectiveness of the quality management system as well as medical device safety and performance through the use of the quality policy, quality objectives, audit results, post market surveillance, analysis of data, corrective actions, preventive actions and management review.</p>	

VST does not do testing.  
So does not use calibrated Equipment

Calibration register has been transferred to Intrastats. Out of calibration test equipment automatically flags when it is requested for use.

Role ID 80

297205 ✓

	QUESTION:	RESPONSE	Y/N
1	Check all issues from the previous audit are completed. <i>Nothing outstanding.</i>		
2	Verify the existence of a calibration register and associated issues in Intrastats	Done in Intrastats	N/ Y

VST Does not do testing.

3	Is the register maintained. This can be found on Intrastats in ISO – Calibration Index		Y
4	Check QA, R + D Room, Workshop etc. for equipment that does not have a Viamed Bar Code CE sticker. Task 1141 - 294631 ✓		Y
5	Is equipment calibrated within its due period	Done in Intrastats	Y
6	Verify that records show any measurements taken and parameters stated.	Done in Intrastats	Y
7	Is the register updated with this information.	Done in Intrastats	Y
8	Verify that where items which failed calibration are assessed to ascertain potential recall of product.		Y
9	Are Calibrations traceable to UKAS Standards.		Y
10	Are In-House calibration procedures listed in the Intrastats Document Index where required.		Y
