Dear Mubeen,

Unfortunately, we do not have a distributor in Pakistan able to supply these items.

Please contact our main partner Viamed, gas sensor specialists:

Viamed Ltd

Mr. Steve Nixon
Steve.Nixon@Viamed.co.uk

Best regards,

Dear Alexandru

First of all we thank you and appreciate your quick response.We are interested to work on Envitec Oxygen chemical sensor used in medical devices .

what is the quantity you need to order?

Dear quantity depend on Price but minimum qty will be 20 to 30pieces of each model

• in what project/application do you plan to integrate this product?

Resale for devices

• is this a new project to be launched on the market or is it a replacement request?

Al ready installed devices and replacement

• can you please advise any details regarding your project: budget, estimated volume required, end customer?

Dear as per your product price.

Kindly share product catalog and prices for distributors .

we will wait for your reply.

Thanks&Regards:

Hello mubeen,

Thank you for your interest towards Honeywell products!

I checked your request but unfortunately, I did not find any product reference mentioned there.

Can you please let me know what are the products that interest you?

Also, could you kindly provide me the following details so that I can be of more assistance:

- what is the quantity you need to order?
- in what project/application do you plan to integrate this product?
- is this a new project to be launched on the market or is it a replacement request?
- can you please advise any details regarding your project: budget, estimated volume required, end customer?

Kind regards,

Alexandru FRATIAN
