* prices accurate as at 25th October 2023, please contact Viamed for latest pricing.

The routinely required consumables are:

- 1) **Patient circuit** (the Trust may already have its own supply of resuscitation circuits – Note: if F&P Neopuff circuits are used, a different adapter is required)
- 2) **Adapter for patient circuit** (straight connector 0120138)
- 3) **Resuscitation facemask** (the Trust may already have its own supply of resuscitation masks)
- 4) **Vacsax 1L suction liner**
- 5) **Single-use suction tubing and catheter** will also be required. Viamed do not offer this item as they are readily available through NHS purchasing channels.
