

## Competency Assessment Questions – Maxtec Oxygen Monitoring

Please refer to any system resources that you have access to in order to locate the information. The training materials will be made available on the system.

If you are unable to find the information, please make notes at the end of this document detailing where you struggled.

1) What is the difference between an oxygen analyser and an oxygen monitor?

The monitor has alarms  
user adjustable

2) Which sensor is used on the MaxO2+A?

max 250F

3) Which sensor is used on the MaxO2+AE?

max 590E

4) Which Maxtec medical analyser has a sensor that cannot be replaced?

handi + oxygen analyser

5) Why does the MaxO2 ME not require a separate dovetail V-mount to attach to a pole mount bracket?

The built in tick stand can be used as a dovetail V-mount

6) What is the Oxygen measurement range for the UltraMax O2?

20.9% - 96%

7) What is the main application for the UltraMax O2?

it is used to analyse oxygen concentrators

8) Which Maxtec device has user adjustable alarms?

max O2 ME

## Competency Assessment Questions – Maxtec Oxygen Monitoring

Please refer to any system resources that you have access to in order to locate the information. The training materials will be made available on the system.

If you are unable to find the information, please make notes at the end of this document detailing where you struggled.

1) What is the difference between an oxygen analyser and an oxygen monitor?

Oxygen monitors have adjustable alarms and may be used to monitor gas supplied to patients. Analysers has no adjustable alarms and is for spot checking.

2) Which sensor is used on the MaxO2+A?

MAX-250 + (0110427)

3) Which sensor is used on the MaxO2+AE?

MAX-250E (0110429)

4) Which Maxtec medical analyser has a sensor that cannot be replaced?

Maxtec Handi +

5) Why does the MaxO2 ME not require a separate dovetail V-mount to attach to a pole mount bracket?

It has a kick stand on the back which may be used as a dovetail mount.

6) What is the Oxygen measurement range for the UltraMax O2?

20.9 ~ 96 %

7) What is the main application for the UltraMax O2?

For one testing output of oxygen concentrations, may be used during service/repair

8) Which Maxtec device has user adjustable alarms?

MAXO2 ME

### Competency Assessment Questions – Maxtec Oxygen Monitoring

Please refer to any system resources that you have access to in order to locate the information. The training materials will be made available on the system.

If you are unable to find the information, please make notes at the end of this document detailing where you struggled.

1) What is the difference between an oxygen analyser and an oxygen monitor?

Analysers have no user adjustable alarms. Should be used for checking oxygen concentration. Not continuous monitoring.  
Monitor: High/Low alarms can be used for continuous monitoring.

2) Which sensor is used on the MaxO2+A?

Max - 250+

Allows to set a window of desired oxygen percentage and be alerted if readings drift out of range.

3) Which sensor is used on the MaxO2+AE?

Max - 250E

4) Which Maxtec medical analyser has a sensor that cannot be replaced?

Handi +

5) Why does the MaxO2 ME not require a separate dovetail V-mount to attach to a pole mount bracket?

Built in kickstand to the back of unit.

6) What is the Oxygen measurement range for the UltraMax O2?

20.9 - 96%

7) What is the main application for the UltraMax O2?

For use with oxygen concentrators - UltraMax uses ultrasonic technology to measure the level of oxygen.  
Spot checking - not designed for continuous monitoring.

8) Which Maxtec device has user adjustable alarms?

Max O2 ME

If you are unable to find the information, please make notes at the end of this document detailing where you struggled.

1) What is the difference between an oxygen analyser and an oxygen monitor?

MONITORS HAVE ALARMS

2) Which sensor is used on the MaxO2+A?

MAX 2 SD F

3) Which sensor is used on the MaxO2+AE?

MAX 2 SD E

4) Which Maxtec medical analyser has a sensor that cannot be replaced?

HAND 1

5) Why does the MaxO2 ME not require a separate dovetail V-mount to attach to a pole mount bracket?

KICKSTAND ON REAR ACTS AS V MOUNT

6) What is the Oxygen measurement range for the UltraMax O2?

20.9 - 96 %

7) What is the main application for the UltraMax O2?

OXYGEN CONCENTRATIONS REPAIR OR SERVICE

8) Which Maxtec device has user adjustable alarms?

MAX O2 ME

### Competency Assessment Questions – Maxtec Oxygen Monitoring

Please refer to any system resources that you have access to in order to locate the information. The training materials will be made available on the system.

If you are unable to find the information, please make notes at the end of this document detailing where you struggled.

1) What is the difference between an oxygen analyser and an oxygen monitor?

An oxygen analyser has no adjustable alarms and should only be used for checking oxygen concentration and not for continuous monitoring whereas the monitor can be used for continuous monitoring and has user adjustable high & low alarms.

2) Which sensor is used on the MaxO2+A?

0110427 – Max – 250+

3) Which sensor is used on the MaxO2+AE?

0110429 – Max – 250E

4) Which Maxtec medical analyser has a sensor that cannot be replaced?

Handi + Oxygen Analyser.

5) Why does the MaxO2 ME not require a separate dovetail V-mount to attach to a pole mount bracket?

Its because the kickstand can act as a dovetail when pushing in so it can attach to a pole mount bracket.

6) What is the Oxygen measurement range for the UltraMax O2?

20.9 – 96%

7) What is the main application for the UltraMax O2?

The ultraMax O2's main application is to measure the level of oxygen using ~~with~~ ultrasonic technology.

8) Which Maxtec device has user adjustable alarms?

MaxO2 ME Oxygen Monitor.

### Competency Assessment Questions – Maxtec Oxygen Monitoring

Please refer to any system resources that you have access to in order to locate the information. The training materials will be made available on the system.

If you are unable to find the information, please make notes at the end of this document detailing where you struggled.

1) What is the difference between an oxygen analyser and an oxygen monitor?

analyser has no adjustable alarms + is used for checking O<sub>2</sub> concentration, not continuous monitoring. Monitor has alarms + can be used for continuous monitoring.

2) Which sensor is used on the MaxO2+A?

max-250 +

3) Which sensor is used on the MaxO2+AE?

max-250+E

4) Which Maxtec medical analyser has a sensor that cannot be replaced?

Hundi +

5) Why does the MaxO2 ME not require a separate dovetail V-mount to attach to a pole mount bracket?

it has a built in kickstand that fixes to bracket

6) What is the Oxygen measurement range for the UltraMax O2?

~~20.9~~ 20.9 - 96.1%

7) What is the main application for the UltraMax O2?

to use with oxygen concentrators

8) Which Maxtec device has user adjustable alarms?

maxO2 ME oxygen monitor

### Competency Assessment Questions – Maxtec Oxygen Monitoring

Please refer to any system resources that you have access to in order to locate the information. The training materials will be made available on the system.

If you are unable to find the information, please make notes at the end of this document detailing where you struggled.

1) What is the difference between an oxygen analyser and an oxygen monitor?

Oxygen analyser does not have high/low alarms and it is not for continuous monitoring.

2) Which sensor is used on the MaxO2+A?

MAX-250<sup>+</sup>.

3) Which sensor is used on the MaxO2+AE?

MAX-250E

4) Which Maxtec medical analyser has a sensor that cannot be replaced?

Handi+

5) Why does the MaxO2 ME not require a separate dovetail V-mount to attach to a pole mount bracket?

Because the kickstand in the closed position acts as a dovetail V-mount.

6) What is the Oxygen measurement range for the UltraMax O2?

20.9 – 96%

7) What is the main application for the UltraMax O2?

for use with oxygen concentrators, in an environment where they are being serviced or repaired.

8) Which Maxtec device has user adjustable alarms?

MAXO2 ME Oxygen monitor.

Notes or Comments:

Name: Sophie Lines Date: 19/6/23

### Competency Assessment Questions – Maxtec Oxygen Monitoring

Please refer to any system resources that you have access to in order to locate the information. The training materials will be made available on the system.

If you are unable to find the information, please make notes at the end of this document detailing where you struggled.

1) What is the difference between an oxygen analyser and an oxygen monitor?

An Oxygen monitor has alarms and can be used for patient monitoring.

2) Which sensor is used on the MaxO2+A?

MAX-250+

3) Which sensor is used on the MaxO2+AE?

MAX-250E

4) Which Maxtec medical analyser has a sensor that cannot be replaced?

Handi +

5) Why does the MaxO2 ME not require a separate dovetail V-mount to attach to a pole mount bracket?

The battery door has an integrated V-mount.

6) What is the Oxygen measurement range for the UltraMax O2?

20.9% - 96%

7) What is the main application for the UltraMax O2?

To test the flow, concentration and pressure outputs of Oxygen concentrators

8) Which Maxtec device has user adjustable alarms?

Max O2 ME

Notes or Comments:

Name: M. GREEN Date: 27-6-23
