Competency Assessment Questions – VM-2160 & OEM Boards – Technical Training

Please please refer to any system resources that you have access to in order to locate the information. The training materials will be made available on the system.

If you are unable to find the information, please make notes at the end of this document detailing where you struggled.

1) How many hours of trend data does the VM-2160 SMARTsat store?

More than 560 hours (in upto 50 data sets).

2) What is the name for a graphical representation of blood flow at the measurement site?

Plethysmograph / Pleth waveform

3) What do the colours green, yellow and red represent on the pulse bar graph?

The signal quality (green = good, yellow = average, red = poor).

4) Which sensor is included by default?

Adult soft silicone sensor

5) How can the user turn off the display?

Hold ^{the} down arrow button. After 3 seconds this display will switch off.

6) What does the acronym OEM stand for?

Original Equipment Manufacturers

7) What type of batteries does the device use?

3 x AA batteries

8) Which OEM board has the best performance?

OEM II
