Subject: Viamed - Autoclavable Temperature Probes

Dear Catrin Hollings,

400-AC Autoclavable Temperature Probes

A complete series of autoclavable temperature probes for the accurate measurement of body surface and core temperatures in neonates, paediatrics and adults.

Not only are the 400-AC temperature probes compatible for use with leading temperature monitoring manufacturers and technologies including: YSI 400, Hewlett Packard/Philips and Siemens, but you will also benefit from:

- A wide choice - Adult, Paediatric and Neonatal sizes are available
- Minimal risk of cross infection - 400-AC series are autoclavable
- Minimal risk of allergic reactions - 400-AC series are latex free and biocompatible
- Accurate placement of the sensor - 400-AC series are extremely robust yet flexible

For your reference I have attached a leaflet which includes further information.

Should you require any additional information, please do not hesitate in contacting me.

Yours sincerely

Kind regards

Catrin Hollings
