Hi Steve,

See already below and attached.

We just had our recertification audit

Climate change is a topic where we are working on and is under development

As soon as news, I will let you know

## ISO 9001:2015 Climate Change Considerations

Dear Pieter

In relation to our ISO 9001:2015 Quality Management System we are required to determine whether climate change is a relevant issue or not for our customers:

Does rEvo consider climate change to determine if there are or not relevant issues that will need to be addressed? YES / NO

Do you operate a Quality Management System such as ISO 9001:2015? YES / ~~NO~~

If so, may I request a copy of your certification.

See attached, we had mid of February a audit for the recertification, still awaiting the updated ISO cert.

Again, if you operate a Quality Management System, can you please advise who is the appropriate contact within your company.

Name: Pieter Decoene

email address: pieter@rEvo-rebreathers.com

Has rEvo determined external and internal issues that are relevant to its purpose and that affect its ability to achieve the intended result(s) of its Quality Management System? YES / NO

Does rEvo have any relevant requirements? YES / NO

Which of these requirements will be addressed through your Quality Management System?

Do you have any existing climate change or environmental policies? If so, may we please have a copy for our QMS files?

Kind regards
