ISO 9001:2015 Climate Change Considerations - Supply of Oxygen Sensors to Vandagraph Sensor Technologies

Dear Stefan

In relation to our ISO 9001:2015 Quality Management System we are required to determine whether climate change is a relevant issue or not for our suppliers:

Does Honeywell/Envitec consider climate change to determine if there are or not relevant issues that will need to be addressed? **YES / NO** Yes our plant is in the old harbour, sea level elevation might affect us. A plan exists up to an elevation of **2 meters above NN**.

Do you operate a Quality Management System such as ISO 9001:2015? **YES**

If so, may I request the latest copy of your certification. **Latest ISO 13485 and MDSAP certs attached**

Again, if you operate a Quality Management System, can you please advise who is the appropriate contact within your company.

Name: Stefan Miska

Position: Manager, Quality Regulatory and Service
