Hi Steve

Dear Derek

Can you please let me know your thoughts on the following.

In relation to our ISO 9001:2015 Quality Management System we are required to determine whether climate change is a relevant issue or not for our suppliers:

Do you consider climate change to determine if there are or not relevant issues that will need to be addressed? [We are currently evaluating any needs that need to be addressed,](#)

Does Viamed operate a Quality Management System such as ISO 9001:2015? [YES: ISO 13485:2016](#)

If so, may I request a copy of your certification. [See Attached](#)

Again, if you operate a Quality Management System, can you please advise who is the appropriate contact within your company.

email address: [derek.lamb@viamed.co.uk](mailto:derek.lamb@viamed.co.uk)

Has Viamed determined external and internal issues that are relevant to its purpose and that affect its ability to achieve the intended result(s) of its Quality Management System? [NO Not at this time](#)

Does Viamed have any relevant requirements? [NO Not at this time](#)

Which of these requirements will be addressed through your Quality Management System?  
[None at this time](#)

Do you have any existing climate change or environmental policies? If so, may we please have a copy for our QMS files?  
See attached

Kind regards

Steve
