Hi Steve

We are not currently running ISO 9001:2015 but will be later this year.  
Climate change will not have any effect on our business

Thx

Kind Regards

Anthony Smith

### ISO 9001:2015 Climate Change Considerations

Hi Anthony

Can you please let me know your thoughts on the following and pass on to your designated QMS colleague.

In relation to our ISO 9001:2015 Quality Management System we are required to determine whether climate change is a relevant issue or not for our customers:

Does Nammu Tech consider climate change to determine if there are or not relevant issues that will need to be addressed? [YES / NO](#)

Do you operate a Quality Management System such as ISO 9001:2015? [YES / NO](#)

If so, may I request a copy of your certification.

Again, if you operate a Quality Management System, can you please advise who is the appropriate contact within your company.

[Name:](#)  
[email address:](#)

Has Nammu Tech determined external and internal issues that are relevant to its purpose and that affect its ability to achieve the intended result(s) of its Quality Management System? [YES / NO](#)

Does Nammu Tech have any relevant requirements? [YES / NO](#)

Which of these requirements will be addressed through your Quality Management System?

Do you have any existing climate change or environmental policies? If so, may we please have a copy for our QMS files?

Kind regards

Steve
