Dear Steve.

I am new in the company here at MURO.CCR. Michael has forwarded your e-mail to me, and I will carry on with you.

We are currently in the process of getting ISO 9001 certified and have stage 1 on the 15th of April.

Once this is completed, I will start the process of getting ISO 14001 certified where we will include environmental and climate action plan and accounting.

You may place me as contact for MURO-CCR.

I have enclosed our sustainable development report for your unstressed, we will have it uploaded on our website shortly.

As part of our certification, we will be sending out our CSR policy to alle suppliers, alongside a code of conduct and due diligence witch we kindly request to be returned signed. I have enclosed it here.

- MURO - Modern Slavery Statement & Human Rights Policy Statement
- MURO code of conduct
- MURO due dilligence

I wish you a good day.

Kind regards
CQO, Rakel Rytter

ISO 9001:2015 Climate Change Considerations

Dear Michael

Can you please let me know your thoughts on the following and pass on to your designated QMS colleague.

In relation to our ISO 9001:2015 Quality Management System we are required to determine whether climate change is a relevant issue or not for our customers:

Does MURO consider climate change to determine if there are or not relevant issues that will need to be addressed? **YES / NO**

Do you operate a Quality Management System such as ISO 9001:2015? **YES / NO**

If so, may I request a copy of your certification.

Again, if you operate a Quality Management System, can you please advise who is the appropriate contact within your company.

Name:
email address:

Has MURO determined external and internal issues that are relevant to its purpose and that affect its ability to achieve the intended result(s) of its Quality Management System? **YES / NO**

Does MURO have any relevant requirements? **YES / NO**

Which of these requirements will be addressed through your Quality Management System?

Do you have any existing climate change or environmental policies? If so, may we please have a copy for our QMS files?

Kind regards

Steve
