

If you see something

**say  
something**

**if you have a concern about  
something or you hear or see a  
patient safety risk, speak up for  
a healthy NHS**

We are committed to dealing responsibly, openly and professionally with any genuine concerns raised

We cannot do this without your help, if something at work is troubling you, please tell us.

Any concerns should be raised initially with your line manager or director of human resources and education or look at our policy Disclosure of Concerns (Whistle Blowing) Policy HR27.

You can telephone human resources on (01642 62)4025 for advice.
