THE PERFECT ROAST
Roasting is easy, it's the timing that's important. So before you start, get all your veg prepped and have your Yorkshire pudding batter made at least an hour before. If you've planned ahead and are organised, that's half the battle won.

The handy speed peeler helps you peel your spuds quickly and easily. Use the perfectly-sized cook's knife to chop them for parboiling

This nice big colander is perfect for draining your spuds. Use it to shake them around, chuffing them up for maximum crispiness

A roasting rack is essential for resting your meat before carving, so you'll have the juiciest, most tender slices

A lovely wooden board is perfect for carving and looks great on the table. For simple, easy carving, use a proper carving knife and fork
