January 2013

Dear Mrs Hollings,

VM-2103 Finger Oximeter

The VM-2103 is the latest addition to our finger oximeter range and due to its design is an ideal piece of equipment for the tough emergency response environment and hospital environments...

- Utilising 16 bit processing technology means the VM-2103 is extremely accurate, even in cases of **low perfusion**.
- Encapsulated in soft durable silicone housing making it both **comfortable** and **robust**.
- The superior clear and bright, colour OLED display provides **unrivalled clarity**, in all lighting conditions, including direct sunlight.
- The VM-2103 meets the latest ISO 9919:2005 standards in terms of not only **drop** testing but also **water ingress IPX2**, **vibration** and **shock tests**.

Please find enclosed further information regarding the VM-2103. Should you wish to discuss this or any of our other finger oximeters in further detail please do not hesitate to contact a member of our sales team on our Hotline 01535 633705, between the hours of 9:00am and 5:30pm.

Yours sincerely

Steve Hardaker
UK Sales Manager
