Dear Mrs Hollings,

## POSEY Pulse Oximetry Sensor Wraps

The Posey pulse oximetry sensor wraps replace adhesive tape to secure a wide variety of flexible pulse oximetry sensors. The wraps hold the sensor firmly to prevent misalignment of optical components, whilst blocking out excessive ambient light.

The soft foam tape-less fastener does not stick to the skin, allowing for easy application and removal; this also helps to preserve delicate skin. The model ref. 6554 is a universal design and may be cut to length, the model ref. 6554P (premie) has been specifically designed for neonatal applications.

Part Number	Description	Price	Pack Qty	<u>Delivery Charges</u>	
0021013	Model: 6554 Application: Neonatal Foot, Infant Toe or Adult/Paediatric Finger Pack of 12	£6.00	1	<b>Boxes</b>	<b>Delivery Type</b>
