Dear Frank

Sorry for the delay in getting back to you.

I have just received a limited number of samples our new flow sensors, I'm going to send 2 out to you tonight for your inspection.

Hopefully they address your concerns with the product.

We should receive a full shipment over the next 2-3 weeks. where I will replace your existing flow sensors.

Regards

Derek Lamb  
Viamed Ltd.

Hi Derek

Thank you for your email I have just posted you a few examples of the flow sensors as you asked.

Regards

Dear Mr Williams,

Its has been reported to me that you have had some failures with our Flowsensors.

Part Number 4310001.

Would it be possible for you to return the Faulty sensors to us at Viamed.

I have generated a returns number SRS 63869,

I note you also have some quarantined units, can you also return a couple of these so they can also be investigated.

I will either reimburse you for the postage or I can arrange for a carrier to pick up the faulty sensors.

Can you return them for my attention

Derek Lamb
