To Whom It May Concern:

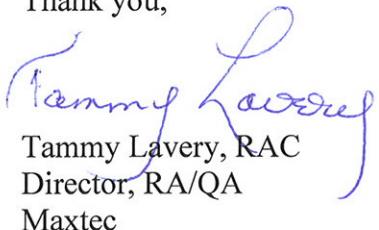

This letter is to inform you that all Maxtec EyeMax2 sold by Maxtec are completely latex-free and do not contain mercury:

The EyeMax2 family of products contains no plastic materials in its construction therefore no phthalates are present in this product.

Also, based on the intended use of this product the Council Directive 57/548/EEC does not apply to this product because the device itself is not "...intended to administer and/or remove medicines, body liquids or other substances to or from the body, or devices intended for transport and storage of such body fluids or substances,....."

Should there be any questions or concerns regarding the above statement, please feel free to contact Maxtec at 1-800-748-5355 or (801) 266-5300.

Thank you,

A handwritten signature in blue ink that reads "Tammy Lavery".
