**US entry requirements**

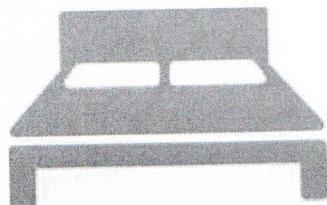

It's compulsory for all travellers planning to enter or transit through the USA under the Visa Waiver Program to get advance online ESTA authorisation. You must do this at least 72 hours before departure, and won't be allowed to travel without it. An ESTA costs \$14 (about £9). More about ESTA >

## Important information about your booking

### Contacting you

It's important we have the right contact details for you, in case we need to contact you about your booking. If you need to update your details, please email us. We also strongly recommend you check your email account regularly, including "junk email" folders, and ensure that your filter settings enable emails from Opodo to get through.

### Flights

### US regulations

Redress numbers: If you have been issued with a Redress number from the US authorities after having difficulty entering the country previously, you need to provide it to us (contact details below) before you travel so we can add it to your passenger records. [More about Redress numbers >](#)

### Baggage allowance

Your baggage allowance is shown in the flight details section above. The information provided (number of kg or pieces allowed) is per adult or child passenger. For infants, or to check the dimensions of baggage pieces allowed, please click on the baggage links of major airlines in our baggage [FAQ >](#). You can also see the baggage allowance for your flight in [CheckMyTrip](#) (see Checking trip details below).

Note that US internal flights may have a lower baggage allowance than for international flights to the US. If your flight to the US involves an internal sector, please check the allowances for your entire journey with your airline.

### Checking trip details

We recommend using the CheckMyTrip service to view your flight itinerary online, including schedule changes, baggage allowance (depending on airline and route), terminal information, meal requests, and your e-ticket number if you need this to check in online. You can log in at [www.checkmytrip](http://www.checkmytrip.com) by using your flight reference number(s) shown above. More about CheckMyTrip >

### Check-in

The recommended minimum check-in time is two hours prior to departure for international flights and 90 minutes for domestic and European flights. Most airlines also now offer online check-in, saving you queuing time at the airport. Online check-in links for major airlines >

Note: if you have codeshare flights (where a flight is booked with one airline but is being operated by another airline) you will usually need to check in online or at the airport with the operating carrier. If your flight uses operating carriers, they'll be shown in the flight details section above.

### Travel documents and health

It's your responsibility to ensure that you have a valid passport/ID card and have checked the visa entry and health requirements for your trip. If you're changing planes in a country en route to your final destination, you may need a travel visa for the transit country. We recommend UK citizens consult the Foreign and Commonwealth Office (FCO) for advice.

### Schedule changes

If there are any schedule changes or cancellations, we'll usually notify you about this by email or telephone. Please therefore ensure that we are able to contact you easily. You can also check your itinerary for changes using CheckMyTrip (see Checking trip details above).

Under EC regulations, air passengers may be entitled to compensation for flight delays and cancellations. [Read more >](#)

### Last minute bookings

In exceptional circumstances, Opodo may not be able to immediately pass on confirmation of your booking to your airline. If this occurs, we'll attempt to notify you within 48 hours. However, if you are flying within 48 hours of making the booking, we advise you to use CheckMyTrip (see Checking trip details above) to check that your tickets have been issued.
