December 2014

Dear Mr Hampson,

### EyeMax2™ Phototherapy Eye Masks

The soft, safe and secure solution for eye protection during neonatal phototherapy

- Adjustable band for optimum comfort and a secure fit
- Easy to use design
- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type
1 pack	£5.00 Royal Mail 1 <sup>st</sup> Class Recorded
2 – 4 packs	£7.00 Royal Mail 1 <sup>st</sup> Class Recorded
5+ packs	£10.00 UPS Courier

I hope you find the enclosed of interest; should you require a free of charge sample of either product or further information, please do not hesitate to contact a member of our sales team on (01535) 634 542 between 09:00 and 17:30.

Yours sincerely

December 2014

Dear Mr Lee,

### EyeMax2™ Phototherapy Eye Masks

The soft, safe and secure solution for eye protection during neonatal phototherapy

- Adjustable band for optimum comfort and a secure fit
- Easy to use design
- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type
1 pack	£5.00 Royal Mail 1 <sup>st</sup> Class Recorded
2 – 4 packs	£7.00 Royal Mail 1 <sup>st</sup> Class Recorded

- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type
1 pack	£5.00 Royal Mail 1 <sup>st</sup> Class Recorded
2 – 4 packs	£7.00 Royal Mail 1 <sup>st</sup> Class Recorded
5+ packs	£10.00 UPS Courier

I hope you find the enclosed of interest; should you require a free of charge sample of either product or further information, please do not hesitate to contact a member of our sales team on (01535) 634 542 between 09:00 and 17:30.

Dear Ms Brereton,

### EyeMax2™ Phototherapy Eye Masks

The soft, safe and secure solution for eye protection during neonatal phototherapy

- Adjustable band for optimum comfort and a secure fit
- Easy to use design
- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type
1 pack	£5.00 Royal Mail 1 <sup>st</sup> Class Recorded
2 – 4 packs	£7.00 Royal Mail 1 <sup>st</sup> Class Recorded
5+ packs	£10.00 UPS Courier

Dear Ms Taylor,

### EyeMax2™ Phototherapy Eye Masks

The soft, safe and secure solution for eye protection during neonatal phototherapy

- Adjustable band for optimum comfort and a secure fit
- Easy to use design
- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type

- Easy to use design
- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type
1 pack	£5.00 Royal Mail 1 <sup>st</sup> Class Recorded
2 – 4 packs	£7.00 Royal Mail 1 <sup>st</sup> Class Recorded
5+ packs	£10.00 UPS Courier

I hope you find the enclosed of interest; should you require a free of charge sample of either product or further information, please do not hesitate to contact a member of our sales team on (01535) 634 542 between 09:00 and 17:30.

December 2014

Dear Sir/Madam,

### EyeMax2™ Phototherapy Eye Masks

The soft, safe and secure solution for eye protection during neonatal phototherapy

- Adjustable band for optimum comfort and a secure fit
- Easy to use design
- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type
1 pack	£5.00 Royal Mail 1 <sup>st</sup> Class Recorded
2 – 4 packs	£7.00 Royal Mail 1 <sup>st</sup> Class Recorded
5+ packs	£10.00 UPS Courier

I hope you find the enclosed of interest; should you require a free of charge sample of either product or further information, please do not hesitate to contact a member of our sales team on (01535) 634 542 between 09:00 and 17:30.

Yours sincerely

December 2014

Dear Mrs Frickleton,

### EyeMax2™ Phototherapy Eye Masks

The soft, safe and secure solution for eye protection during neonatal phototherapy

- Adjustable band for optimum comfort and a secure fit
- Easy to use design
- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type
1 pack	£5.00 Royal Mail 1 <sup>st</sup> Class Recorded
2 – 4 packs	£7.00 Royal Mail 1 <sup>st</sup> Class Recorded
5+ packs	£10.00 UPS Courier

Dear Ms Davies,

### EyeMax2™ Phototherapy Eye Masks

The soft, safe and secure solution for eye protection during neonatal phototherapy

- Adjustable band for optimum comfort and a secure fit
- Easy to use design
- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>

- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type
1 pack	£5.00 Royal Mail 1 <sup>st</sup> Class Recorded
2 – 4 packs	£7.00 Royal Mail 1 <sup>st</sup> Class Recorded
5+ packs	£10.00 UPS Courier

I hope you find the enclosed of interest; should you require a free of charge sample of either product or further information, please do not hesitate to contact a member of our sales team on (01535) 634 542 between 09:00 and 17:30.

Dear Ms Pointon,

### EyeMax2™ Phototherapy Eye Masks

The soft, safe and secure solution for eye protection during neonatal phototherapy

- Adjustable band for optimum comfort and a secure fit
- Easy to use design
- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type
1 pack	£5.00 Royal Mail 1 <sup>st</sup> Class Recorded
2 – 4 packs	£7.00 Royal Mail 1 <sup>st</sup> Class Recorded
5+ packs	£10.00 UPS Courier

December 2014

Dear Ms Massey,

### EyeMax2™ Phototherapy Eye Masks

The soft, safe and secure solution for eye protection during neonatal phototherapy

- Adjustable band for optimum comfort and a secure fit
- Easy to use design
- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>

- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type
1 pack	£5.00 Royal Mail 1 <sup>st</sup> Class Recorded
2 – 4 packs	£7.00 Royal Mail 1 <sup>st</sup> Class Recorded
5+ packs	£10.00 UPS Courier

I hope you find the enclosed of interest; should you require a free of charge sample of either product or further information, please do not hesitate to contact a member of our sales team on (01535) 634 542 between 09:00 and 17:30.

December 2014

Dear Ms Thompson,

### EyeMax2™ Phototherapy Eye Masks

The soft, safe and secure solution for eye protection during neonatal phototherapy

- Adjustable band for optimum comfort and a secure fit
- Easy to use design
- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type
1 pack	£5.00 Royal Mail 1 <sup>st</sup> Class Recorded
2 – 4 packs	£7.00 Royal Mail 1 <sup>st</sup> Class Recorded
5+ packs	£10.00 UPS Courier

I hope you find the enclosed of interest; should you require a free of charge sample of either product or further information, please do not hesitate to contact a member of our sales team on (01535) 634 542 between 09:00 and 17:30.

Yours sincerely

Dear A Hague,

### EyeMax2™ Phototherapy Eye Masks

The soft, safe and secure solution for eye protection during neonatal phototherapy

- Adjustable band for optimum comfort and a secure fit
- Easy to use design
- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type
1 pack	£5.00 Royal Mail 1 <sup>st</sup> Class Recorded
2 – 4 packs	£7.00 Royal Mail 1 <sup>st</sup> Class Recorded
5+ packs	£10.00 UPS Courier

I hope you find the enclosed of interest; should you require a free of charge sample of either product or further information, please do not hesitate to contact a member of our sales team on (01535) 634 542 between 09:00 and 17:30.

Yours sincerely

Dear Mr Faulks,

### EyeMax2™ Phototherapy Eye Masks

The soft, safe and secure solution for eye protection during neonatal phototherapy

- Adjustable band for optimum comfort and a secure fit
- Easy to use design
- Ergonomically designed eye protection pads to reduce pressure and increase light protection

The EyeMax2 has been designed to assure optimum comfort and eye protection for neonates during phototherapy treatment. The single-piece, wrap-around design is secured at two points on either side of the neonate's head and can be independently adjusted to prevent unwanted movement and allows a comfortable and secure fit.

The large eye protection pad has been ergonomically designed to reduce pressure and increase light protection. The headband however allows blue light to penetrate, so that the head continues to receive phototherapy treatment.

There are three sizes available as follows:

Part Number	Size	Occipital - Frontal Circumference	Price	Pack Qty
1114005	Regular	32 – 38 cm	£34.50	20
1114006	Premie	26 – 32 cm	£33.00	20
1114007	Micro	20 – 26 cm	£31.50	20

<u>Delivery Charges</u>	
Boxes	Delivery Type
1 pack	£5.00 Royal Mail 1 <sup>st</sup> Class Recorded
2 – 4 packs	£7.00 Royal Mail 1 <sup>st</sup> Class Recorded
5+ packs	£10.00 UPS Courier
