

• FlowCheck

- Simple to use
- Easy to read
- Convenient pocket-size
- For Handi and MaxO₂+A analyzers
- Check flow and O₂% all-in-one

Flow Meter

The new FlowCheck flow meter works in conjunction with the Maxtec Handi and MaxO₂+A oxygen analyzers, providing users with the ability to check oxygen concentration and flow all at once. This flow meter will indicate the flow from 0 - 8 liters per minute and is useful in multiple applications.

Specifications

Range:	0 - 8 LPM
Accuracy:	± 0.3 LPM
Connection:	For use with any O ₂ Sensor having a M16 X 1.0 thread
